SCHOOL NAME: _____

INSTRUCTIONS TO THE LEARNER

WHAT 0751721132

SECTION A. (20mks)

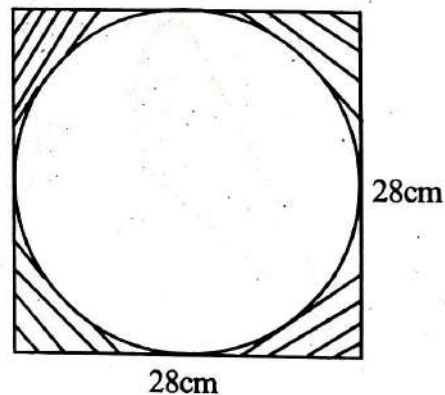

1. The population of flamingoes in Lake Nakuru was 128942. Round off the population of flamingoes to the nearest hundreds of thousands.
A. 1290000
B. 1200000
C. 1300000
D. 1280000
2. In Venus Junior School, the learners take beef and rice after every 6 days and chapati after every 8 days. If they took the mealsnd May, when next will they take the meals together again?
A. 24th May
B. 25th May
C. 10th May
D. 26th May
3. The Art teacher asked grade seven learners to bring water to school that would be used in the painting lesson. She displayed the amount brought in the number cards as follows.

$\frac{5}{6}L$	$\frac{3}{4}L$	$\frac{1}{2}L$	$\frac{2}{3}L$
----------------	----------------	----------------	----------------

Arrange the amount of water brought in descending order.

- A. $\frac{5}{6}, \frac{3}{4}, \frac{2}{3}, \frac{1}{2}$
- B. $\frac{1}{2}, \frac{2}{3}, \frac{3}{4}, \frac{5}{6}$
- C. $\frac{3}{4}, \frac{5}{6}, \frac{2}{3}, \frac{1}{2}$
- D. $\frac{5}{6}, \frac{2}{3}, \frac{3}{4}, \frac{1}{2}$

4. During the Interschool Sports day, a grade seven boy jumped 1.857m high in a high jump event. What is the total value of digit 5 in the number?
A. Hundredths
B. 0.05
C. 0.005
D. 5
5. During a Mathematics activity in class, the learners noticed that the length of the desk was four times the width. If the perimeter of the desk was 60cm, what is the actual length of the desk?
A. 24cm
B. 12cm
C. 20cm
D. 10cm
6. At the workshop, a welder cut out a circular piece of metal from a square metallic piece as shown below.

Calculate the area of the piece of metal that remained after cutting if one side of the square metal was 28cm.

- A. 784cm²
- B. 42cm²
- C. 168cm²
- D. 154cm²

7. A rope 25cm long is used to support a pole 20cm high. What is the distance from the base of the pole to where the rope is fixed on the ground?
- 13cm
 - 26cm
 - 15cm
 - 18cm
8. A bicycle wheel of diameter 56cm was rolled by a grade 7 girl ten times. What distance did the wheel cover in metres?
- 1760m
 - 176m
 - 1.76m
 - 17.6m
9. A school rectangular tank measures 6m by 5m by 3m. Water from this tank is used by learners to water their seedlings. How many litres can the tank hold when full?
- 90 litres
 - 90000 litres
 - 900 litres
 - 0.09 litres
10. A school trip from Kericho to Nakuru National park a distance of 120km took 2 hours. What was the speed of the bus in kilometres per hour?
- 60km/h
 - 240km/h
 - 140km/h
 - 30km/h
11. In one chilly morning, the temperature of Kiserian town was recorded as 17°C . What is this temperature in Kelvin?
- 256K
 - 17K
 - 290K
 - 254K
12. A trader set the price of a school bag as ksh.1600. He sold the school bag to a parent at a cost of ksh. 1400. Calculate the percentage discount offered to the parent.
- 20%
 - $13\frac{7}{9}\%$
 - 25%
 - $12\frac{1}{2}\%$
13. A businessman bought a washing machine at a cost of ksh.29350. He later sold it to a customer at a cost of ksh.32490. Calculate the profit he made.
- Sh.2140
 - Sh. 4140
 - Sh.61840
 - Sh. 3140
14. Kiprop began his marathon race at 8.45am. He completed his marathon race after 2 hours 11 minutes. What time did he complete the race in 24 hour clock system?
- 1056 hours
 - 2256 hours
 - 0956 hours
 - 0845 hours

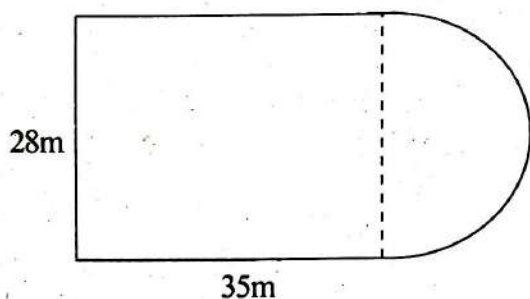

15. During the school tree planting day 59 litres 223 millilitres of water was used. What was the capacity of water used in millilitres?

A. 590223ml
B. 59223ml
C. 592230ml
D. 5922300ml

16. A father is three times the age of his daughter. Write an expression to show the sum of their ages three years to come.

A. $4x$
B. $4x + 9$
C. $4x + 6$
D. $4x + 3$

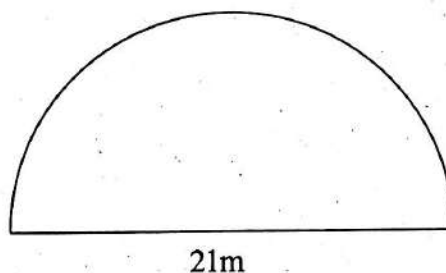

17. The figure below represents Cheptum's vegetable garden.

Calculate the area of the vegetable garden above.

A. 308cm^2
B. 1288cm^2
C. 980cm^2
D. 616cm^2

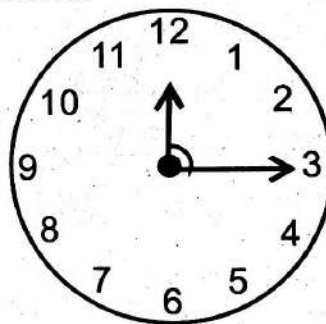

18. In Sale Junior school, learners stand around a concrete pavement during the assembly as shown in the diagram below.

Calculate the perimeter of the semi-circular concrete pavement above.

A. 54m
B. 33m
C. 66m
D. 87m

19. Below is a clock face made by grade 7 learners.

What is the complement of the angle formed by an hour and the minute hand as shown above?

A. 30°
B. 60°
C. 90°
D. 45°

20. A small table with a square tabletop has an area of 784cm^2 . Work out the perimeter of the square table top.

A. 28cm
B. 56cm
C. 112cm
D. 84cm

SECTION B: (30mks)

21. During a visit to the market, a family bought the following items from a shop.

2kg of sugar @ sh.160 per kg

2 loaves of bread for sh.120

1kg of cooking fat at sh.250

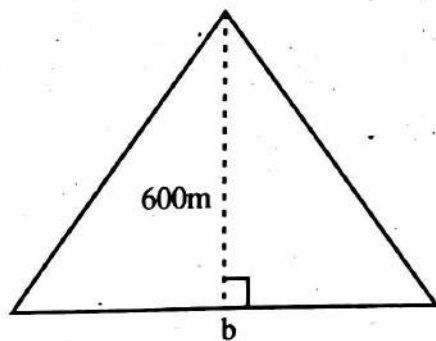

4 cabbages @ sh. 30

4 packets of milk for sh.250

a) Prepare a bill (3mks)

b) If the shopkeeper was given 4-five hundred shillings, what balance did they receive? (2mks)

22. A triangular piece of land used as a play park has an area of 18 hectares. The height of the piece of land is 600m as shown below.

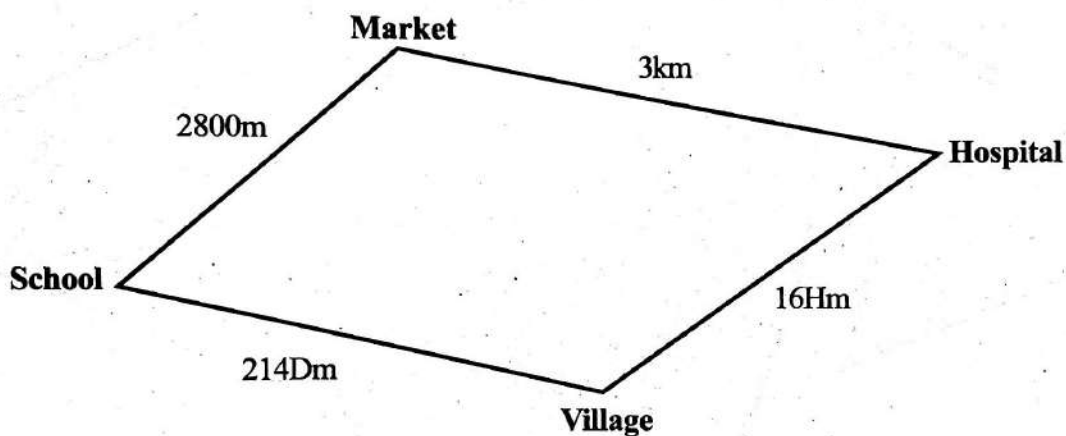

Calculate the base of the play park in metres. (3mks)

23. A learner walks from home to school and back daily a distance of 2km 343m. What is the total distance covered by the learner in 5 days. (3mks)
24. A salesman is paid a basic salary of sh.15000 per month. He also paid a commission of 4% in the value of goods sold. In one month he sold goods worth sh.60000. Work out his total earnings for the month. (3mks)
25. A water trough was filled by students. The students used 8 jerricans each of capacity 30 litres. What is the capacity of the trough in millilitres? (2mks)
26. A tailor had $8\frac{1}{4}$ m long roll of material. He cut the materials into $\frac{1}{4}$ m piece to make school uniform. How many pieces of school uniform did he make? (2mks)

27. During a Mathematics lesson, a learner added three consecutive numbers and got 72. Find the numbers. (2mks)

28. The sketch below shows the routes used by people in Kwanza location.

- a) A girl walked from the village to the market through the school. What distance did she cover in metres? (2mks)
- b) A man who was sick walked from the village to the hospital and back. What distance did he cover in metres? (2mks)

29. Mr. Olwika displayed the following number cards and asked the learners to identify the prime numbers.

63

71

97

85

29

49

36

Write three numbers they identified. (3mks)

30. The learners taking an Art project were to complete the task in atleast 3 hours and not more than 5 hours.

a) Express this information as a compound inequality. (2mks)

b) Represent the above information on a number line. (1mk)

SCHOOL BASED ASSESSMENT
JUNIOR SCHOOL
ENGLISH: PAPER 1

JS2507

GRADE 7 - 2025

Time: 1 Hour 20 Minutes.

CANDIDATE'S NAME:	
SCHOOL NAME:	
CANDIDATE'S SIGNATURE:	

ASSESSMENT NUMBER:	
SCHOOL CODE:	
DATE:	

TASK 1: READING COMPREHENSION

Read the passage below and then answer questions 1 to 10.

Forests are important in our lives. First of all, they help us breathe in fresh air since they release oxygen and absorb carbon dioxide. According to the recent studies, one leafy tree can produce a day's supply of oxygen for up to ten people. Secondly, we get many products from trees, for example, firewood, timber, medicine and paper. Moreover, trees also host a lot of wildlife. Have you ever imagined what would have happened to the monkeys if they had no spacious space? They would definitely storm our houses and cause a lot of **menace**.

Trees are also a beauty to behold. In Kenya today, we have close to two thousand indigenous trees which are quite resourceful for scientists and tourists as well who bring in a lot of foreign income whenever they visit. In addition, trees prevent soil erosion and flooding as their deep roots hold the soil firmly even during heavy downpour. It is also a well-known fact that trees attract rain. Regions with a lot of tree cover always experience rainfall twice more than those without.

Trees cool our bodies particularly in hot weather. People find **solace** in the shade when the sun is too hot to bear. Unfortunately, with all these benefits, many of us keep destroying the forests for selfish interests. We cut down trees without replacing them for our own material gains like charcoal or construction. Fortunately, the government has initiated programs to safeguard our forests. Recently, the president secured a one day holiday specifically for planting trees. This was a good move as it will help increase forest cover. Let us never forget that nature is **unforgiving**, if we destroy it, we will suffer.

1. According to the passage, how do forests help in air circulation in the environment?
A. They are made of many leaves.
B. One tree can supply oxygen to ten people.
C. They release oxygen and absorb carbon dioxide.
D. They help us breathe in fresh air.
2. Which word can as well replace "**menace**" in the passage?
A. Jokes
B. Losses
C. Risks
D. Confusion.
3. Which among the following is **not** a benefit to trees?
A. They cause flooding and erosion.
B. They reduce soil erosion.
C. They earn foreign income to the country
D. They are a home to wildlife.
4. Which word can best replace the word **solace** as used in the passage?
A. Friendly
B. Security
C. Peace
D. Comfort
5. The word "**unforgiving**" can be classified as
A. noun
B. conjunction
C. adjective
D. verb
6. What helps the trees to reduce chances of soil erosion?
A. Strong branches.
B. Deep roots
C. Firm stem
D. Succulent leaves
7. What intervention has the government done to promote forest cover?
A. It sensitizes tree planting initiatives.
B. It arrests those who cut trees.
C. It set aside a day for tree planting.
D. It provides free tree seedlings to farmers to plant.

Read the passage below and then answer questions 8 to 14.

Professions have existed since time immemorial, only that they have evolved with time. Modern education, discoveries, innovations and inventions have all made things better. In return, people in different careers today are held with high esteem and respect.

Medicine is one career that has really come from the ground up. In old time, there was no **anesthesia**. Doctors would go ahead and operate on a patient or **amputate** the limb amid great pain. In some cases, a patient suffering from chronic wounds would be tied tightly and hot boiling water poured on the wound to kill germs. Of course, **more often than not**, the patient would **succumb to the unbearable pain**. Thanks to modern medicine and technology, patients can receive painless treatment and healing in most ailments.

Today, the spacecraft and the jumbos dominate and transverse the airspace with unquestionable majesty. The Wright brothers invented the first aircraft over a century ago and if they were alive today, they would marvel at how fast their invention has evolved over time. This would be totally unimaginable to the two brothers.

- | | |
|--|--|
| <p>8. Which of the following statements is true according to the passage?</p> <p>A. Modern innovation and discoveries have made things easier.</p> <p>B. People in different careers are less respected.</p> <p>C. Medicine is an up-to-date invention.</p> <p>D. Professions existed not long ago.</p> <p>9. According to the passage the phrase "succumb to the unbearable pain" means to</p> <p>A. suffer</p> <p>B. die</p> <p>C. get more infections</p> <p>D. agonize in pain.</p> <p>10. The word "more often than not" can best be replaced by</p> <p>A. usually B. rarely</p> <p>C. occasionally D. frequently</p> | <p>11. What would be the reaction of the Wright brothers if they woke up to today's inventions?</p> <p>A. Astonished B. Dejected</p> <p>C. Enthused D. Melancholic.</p> <p>12. According to the passage what do you think anaesthesia does to a patient?</p> <p>A. Dampens pain.</p> <p>B. Regulates the pain</p> <p>C. Makes the patient perilously unconscious.</p> <p>D. Triggers the patient's recovery.</p> <p>13. How best would you describe the Wright brothers?</p> <p>A. Diligent B. Ingenious</p> <p>C. Motivating D. Docile</p> <p>14. Which of the following would be the most suitable title for this passage?</p> <p>A. The evolving phase of professions.</p> <p>B. The Wright brothers' invention.</p> <p>C. The impact of technology in professions.</p> <p>D. The rising change of technology</p> |
|--|--|

Read the passage below and then answer questions 15 to 21.

Nothing ever comes on a silver platter. For anything to happen, someone must work on it. This rule of life applies to sports. If you want to achieve the best in sports, first, you need to know which area you want to specialize in. You cannot be a jack of all trade in sports. So, whether it is rugby, football, baseball or any other sport, decide early enough.

Secondly, choose a sport which you are passionate about and talented in. Most sportspeople make a mistake of venturing into a sport they have no passion in and are less talented in. Even when they become as busy as a bee practicing, the result is disappointment and frustration.

Thirdly, **get as much information as possible about your chosen path of sports**. Watch video clips about your preferred sport, attend competitions in the area, research about the successful sportspeople and know what they did to get and remain on top. Choose role models to emulate and if they are within reach, request them to coach and mentor you.

Moreover, you need to be totally committed and dedicated to succeeding. Regardless of the hurdles and setbacks one may face, you should stay on course and focus on the **ultimate prize**. Focus is when you do not look back but when you **put your hand on the plough**.

15. According to the first paragraph what is the main factor to consider to achieve in sports?
- A. Working hard.
- B. Commitment and dedication.
- C. Selecting a sport that you're talented in.
- D. Identifying the area of speciality in sports.

16. What fault do most sportspeople do when choosing a sport?
 A. They choose a sport that fits their passion.
 B. They keep practicing a sport they relish.
 C. The venture into sports that disinterests them.
 D. They fail to commit to the sport of their choice.
17. Which of the following is **unlikely** to be the use of technology in choosing a sport according to the passage?
 A. Meeting sports models within online.
 B. Watching video clips about your sport of choice.
 C. Researching about successful sportspeople to know their top secrets.
 D. Attending competitions in the community.

18. Which one word can replace the underlined phrase in the third paragraph?
 A. Previewing B. Journaling.
 C. Brainstorming. D. Scanning
19. What is the opposite of the word "**ultimate**" as used in the passage?
 A. Final B. Important
 C. Best D. Immediate
20. Identify one simile that has been used in the passage.
 A. Nothing ever comes on a silver platter.
 B. Busy as a bee
 C. Put your hand on the plough.
 D. Jack of all trades.
21. The phrase '**put your hand on the plough**' means
 A. keep moving ahead.
 B. staying committed.
 C. beginning a task
 D. working hard.

Read the following dialogue and answer questions 22 to 25.

- Mangu :** Good morning Madam Pendo.
- Madam Pendo :** Good morning Mangu. How are you this morning?
- Mangu :** I am fine thank you Madam Pendo. May I inquire something from you?
- Madam Pendo :** Yes Mangu, go on.
- Mangu :** In my opinion, we can request for the empty carton boxes from the kitchen department and make into bins.
- Madam Pendo :** Mangu, we already have enough dustbins in classrooms. Why do you think we should add more?
- Mangu :** I agree we have them in classrooms. However, the areas around the laboratory, library and exhibition room don't have any dustbin. This morning during my usual checks, I found many scattered papers, empty bottles and used manila papers around these areas. I collected and disposed them in the main dustbin, but I think getting a lasting solution would be a good idea.
- Madam Pendo :** Thank you Mangu for keeping the school clean. Did you wash your hands with clean water and soap after picking the papers?
- Mangu :** Yes I did.
- Madam Pendo :** Good. I will call you later and discuss the way forward.
- Mangu :** Thank you Madam Pendo.

22. According to the dialogue, how best can we describe Mangu?
 A. Humble B. Peaceful
 C. Hardworking D. Responsible
23. Why is Mangu proposing for more dustbins?
 A. Foul smell in school.
 B. Much litter is scattered in some areas of the school.
 C. To please the teacher.
 D. He went for routine checks in the morning.

24. Why did Madam Pendo turn down his idea at first?
 A. There were excess dustbins in school.
 B. It would be expensive to purchase dustbins.
 C. There were enough dustbins in classrooms.
 D. It would not reduce litter in school.
25. From the passage, we learn all the following **except**
 A. we should keep the environment clean
 B. we should be responsible
 C. we should flout a littered environment.
 D. we should be polite when conversing.

Read the passage below. It contains blank spaces numbered 26 to 35. For each blank space. Choose the best alternative.

I was the 26 person to enter the matatu. My mind was 27 with thoughts of how late I was for my appointment 28 the insurance agency. I took the 29 seat at the window in the second to the last row, I always liked this seat because of how it was easy to 30 the door when 31. The view of the scenery from Nairobi to Nakuru was also amazing. As the 32 entered one by one, I assessed them. A mother with two children; a young lady that looked clearly disgusted by the prospects of 33 even five minutes in the vehicle; a man who complained of how he was getting late for an 34 meeting as soon as he sat down and several others that I 35 remember.

- | | | | |
|-------------------|----------------|---------------|-----------------|
| 26. A. fast | B. first | C. furst | D. one |
| 27. A. presumed | B. preoccupied | C. preocupied | D. pre-occupied |
| 28. A. in | B. at | C. inside | D. on |
| 29. A. sole | B. soul | C. solemn | D. soule |
| 30. A. assess | B. evaluate | C. access | D. view |
| 31. A. packing | B. alighting | C. boarding | D. lighting |
| 32. A. passengers | B. pedestrians | C. pasengers | D. people |
| 33. A. staying | B. seating | C. sitting | D. spending |
| 34. A. serious | B. important | C. planned | D. government |
| 35. A. couldn't | B. cannot | C. can | D. shouldn't |

Fill in the gaps with the appropriate question tag.

36. I don't often do the right thing, _____?
 A. do we B. don't we
 C. have we D. do I
37. Close the door, _____?
 A. will you B. can you
 C. shall you D. won't you
38. John rarely misses school, _____?
 A. does she B. doesn't he
 C. does he D. isn't it

Choose the plural of the underlined words.

39. During the visit, we were introduced to the editor-in-chief.
 A. editors-in chief
 B. editor-in -chiefs
 C. editors- in-chieves
 D. editors-in chiefs.
40. The deer leapt over the fence.
 A. deers B. deerses
 C. deer D. dears
41. The dogs chased after the mouse.
 A. mouses B. mices
 C. mice D. mousses.

Choose the correct preposition to complete the sentences.

42. The train runs _____ diesel
 A. by B. with
 C. on D. along
43. The door was opened _____ a coded card
 A. by B. with
 C. on D. in

44. The train moved _____ the railway line.

A. on B. with
 C. along D. against.

45. The children were sitting _____ the shade.

A. under B. in
 C. by D. within

Choose the correctly punctuated sentences from the options below.

46. A. Why are you late.
 B. Nairobi is the capital city of Kenya.
 C. help help
 D. I bought pencils, books, rubbers, and rulers
47. A. When will you cut the grass.
 B. My father works in Makueni County.
 C. She will clean them too
 D. Hurray shouted the fans

For questions 48 to 50, complete the blank spaces with the correct tense.

48. Yesterday, the bell _____ earlier than usual.
 A. rung B. rang
 C. ranged D. runged
49. Who has _____ my black pen?
 A. took B. taked
 C. taken D. take
50. The balloons _____ because of excessive air.
 A. busted B. bursting
 C. burst D. bust

PAPER 2

GRADE 7 - 2025

Time: 1 Hour 45 Minutes.

Candidate's Name:	
School Name:	
Candidate's Signature:	

Assessment Number:	
School Code:	
Date:	

INSTRUCTIONS TO THE LEARNER

Answer all the questions in the spaces provided.

For Teacher's Use Only.

SECTION	A	B			
TASK	Task 1	Task 2	Task 3	Task 4	Task 5
MAXIMUM SCORE	15	10	5	10	10
LEARNER'S SCORE					

SECTION A: COMPOSITION (15 marks)

TASK 1: COMPOSITION

Write your composition in the spaces provided.

Below is a beginning of a story, complete it making it as interesting as possible

I had walked for two hours now not knowing where I was going. Then suddenly, it dawned on me that I was lost.

SECTION B: LITERACY ANALYSIS (35mks)

TASK 2: ORAL LITERATURE

Read the story below and then answer the questions that follow. (10 marks)

One day, hare was out looking for food. He met elephant, who had a pot of honey. The hare requested the elephant to carry him for he was feeling weak. The elephant agreed to carry the hare. As the hare got

on the elephant's back he held on tightly and started eating the elephant's honey straight away.

When honey started dripping on the elephant's back, the elephant got suspicious and asked what it was. The hare **ingeniously** replied that it was blood coming from his wound.

As they were walking, they reached a river and found a large buffalo drinking water. Then the hare wanted to know who was stronger between the two animals. The two animals started arguing as each thought to be stronger than the other.

The hare came up with an idea. He told the two animals to calm down and went to a nearby bush to find a long rope. The hare tied the long rope around the elephant's waist and led him away from the river. He also tied the buffalo's waist and tied him near the river. Having done this, the hare ran and hid behind a tree. He then shouted, "One, two, three, pull!"

The two animals pulled. The elephant pulled the buffalo, and so did the buffalo but neither of them won. As this was going on, the hare hid behind the tree and continued eating honey. The two animals were now as weary as a worn-out shoe. The monkey who was watching from a tall tree kept jumping from one tree to another enjoying the **thrilling** scene. He would pluck twigs and throw at the elephant and the buffalo as they pulled to tease them. The monkey loved how the hare had played the whole **prank** on the two animals.

When the hare had finished all the honey, he cut the rope closer to the buffalo. The elephant fell over hard and hit a tree. Seeing this, the hare ran to the buffalo and praised him for being stronger.

1. What kind of oral narrative is this? Explain. (2 marks)

2. Identify and write all the characters in the story. (2 marks)

3. Which trick did the hare play on the buffalo? (1 mark)

4. From the story, how best can you describe the monkey? (2 marks)

5. What moral lessons do you learn from the story? (1 mark)

6. Write the meaning of the word below according to the story. (1 mark)

Ingeniously _____

7. Identify and write the simile used in the passage. (1 mark)

TASK 3: POETRY

Read the poem below and then answer the questions that follow. (5 marks)

In shadows deep where silence clings,
A hero stirs with whispered wings,
Through nights of doubt and days of fear,
Their hearts beat strong, their vision clear.

With courage like the morning sun,
They face the dark, their battles won,
No crown of gold, no regal seat,
Yet grace and strength in every feat.

They rise where others dare not tread,
In whispered hopes, in dreams unsaid,
A beacon bright in tempest's wake,
A stand they make for others' sake.

8. Describe the structure of the poem above. (1mk)

9. Write a pair of rhyming words in the poem. (2mks)

10. Identify and write any simile used in the poem (1mk)

11. The word **feat** has been used in the poem means

(1mk)

TASK 4: NARRATIVE

Read the story below and then answer the questions that follow. (10 marks)

Long time ago, there was a severe famine in the land. All the animals were hungry, but none as clever as the rabbit. One day rabbit heard about a tree in a far away land that bore delicious, ripe fruits all year round. The journey was long and dangerous, but hunger gnawed at rabbit's stomach. Rabbit decided to find that tree. He packed a small bag with dried leaves and set off. Along the way, he met fox, who was also looking thin and hungry.

"Where are you going rabbit?" asked the fox, his eyes gleaming.

"Oh, just for a walk," lied rabbit, knowing fox was a sly.

Fox did not believe him but continued on his own path. Rabbit walked and walked, facing many challenges, until finally, he saw the tree. It was magnificent, laden with large red fruits. Rabbit ate until he was full and gathered as much fruits as he could carry.

On his way back, he again met fox, who looked even weaker. Fox smelled the sweet scent of the fruits.

“Rabbit, you found food! Where did you get it?” fox demanded.

Rabbit smiled. “Ah, my friend, I found a small bush with a few berries. Not much, but it helped. “Rabbit knew better than to reveal a secret of the tree to the cunning fox. He shared a few berries he had picked earlier, not the special fruits. Fox, though still hungry, thanked him and went on his way. Rabbit returned home safely with his treasure, having outsmarted the greedy fox through his cleverness and caution. That is the end of my story.

12. Who are the main characters in the story? (2 mks)

13. “The journey was long and dangerous, but hunger gnawed at rabbit’s stomach. Rabbit decided to find that tree”. From this sentence, which character can best describe the rabbit? (1mk)

14. Where does the story take place? (1mk)

15. Why do you think the fox eyes were gleaming as it talked to the rabbit? (1mk)

16. Which word in the passage means the same as loaded? (1mk)

17. How best can you describe the fox according to the story? (2mks)

18. What two moral lessons do you learn from the story? (2mks)

TASK 5: SHORT STORY (10 marks)

Read the story below and then answer the questions that follow.

"Do these people think I will steal from them? Is it because I am smelling of sweat or do they take me to be a street girl?" she thought with sadness. She hated the moment she boarded the vehicle to come to a city she had never visited. "Why are the city people this inhuman?" she wondered. She tried to stop a **plump** elderly woman for help. The woman strode away hastily. Chebet started to weep, loneliness and desperation engulfing her. What did people think of her?

She walked on the pavement with no destination in mind. She thought of her father. "When you study and pass your exams very well, you will go to work in Nairobi City. You will then be visiting me all the way from Nairobi. The city is very nice. It makes everyone beautiful", her father had said. "You were wrong, Dad," she muttered. The city is an inhuman place. A place where people do not care about others; they only mind what they have".

She reached a place where she had to cross the road. Vehicles were driving by fast. She noticed the traffic lights that she learnt about when she was in grade five. Their teacher had told them that when traffic is red, vehicles should stop for pedestrians to cross. This was not happening. "The teacher may have been wrong," she thought. She stood there for twenty minutes, waiting for the vehicles to stop. Other people came and crossed, leaving her behind. It called for a big **resolve** to cross the road. Her heart thumbed heavily as she crossed the road even though she was at the middle of a group of people. She heard some of the elderly women in the group talk about a class they had. She was interested in their conversation and walked behind them unnoticed. "Did grown-ups in the city go to school?" she asked. "So I will actually go to school in the future," she thought happily.

19. Why did Chebet hate coming to the city in the first paragraph? (2mks)

20. What was the perception of Chebet's father about the city? (2mks)

21. The word **resolve** as used in the passage means _____ (1mk)
22. Why do you think Chebet's heart thumbed heavily as she crossed the road even though she was at the middle of a group of people? (2mks)

23. How best would you describe Chebet's character in the last paragraph? (2mks)

24. What is the opposite of the word **plump** as used in the passage? (1mk)

Ngamia ni mnyama aishiye jangwani au mahali popote palipo pakavu. Umbo lake linamfaa sana, hivi kwamba anaweza kustahimili hali ya jangwani. Miguu yake imeumbwa ili aweze kutembea bila kuzama katika mchanga tifutifu wa jangwani. Kwato zake hupanuka akanyagapo juu ya mchanga ndiyo maana hazami. Vilevile anaweza kutembea mahali penye mawemawe ambapo gari haliwezi kupitia.

Pua yake ina uwezo wa kunusa maji ili kuwaongoza watu kwenye maji ambayo ni muhimu sana katika jangwa. Pua ya ngamia vilevile huweza kuzibika iwapo kuna upepo mkali uliojaa vumbi.

Hali kadhalika, macho yake yana kope nyingi ili kuzuia mchanga na vumbi lisimuingie machoni kumpofua. Ngamia ana uwezo wa kuvumilia njaa na kiu kwa muda mrefu. Yasemekana kuwa ngamia ana njia ya kuweka akiba ya maji mwilini mwake. Ngamia anaweza pia kukaa kwa muda mrefu bila kula chakula. Midomo yake inamwezesha kuchuma matagaa kutoka kwenye mimea haba yenye miba inayoota jangwani.

Mnyama huyu ana manufaa makubwa kwa waishio jangwanai kwa kuwa watu hawa huhamahama, humtumia ngamia kwa kubeba mizigo yao. Wakazi wa jangwani huyatumia manyoa ya ngamia kwa kufuma nguo na vyandarua. Ngozi yake pia hutumiwa kwa kutengeneza mifuko na mikanda. Kwa kuwa hakuna miti mingi katika jangwani kuni hazipatikani kwa urahisi. Watu hawa hutumia kinyesi kikavu cha ngamia kwa kukokea moto. Maziwa yake yanasemekana kuwa yana nguvu zaidi ya maziwa ya wanyama wengine, pia ngamia hutumiwa kama chakula.

- | | |
|---|--|
| 1. Ni kweli kusema kuwa
A. ngamia amezoea kuishi popote
B. ngamia ana macho makubwa
C. ngamia ana kwato pana
D. ngamia huonyesha penye maji | 4. Ni nini maana ya neno <u>matagaa</u> ?
A. Majani
B. Matawi
C. Mizizi
D. Maua |
| 2. Ngamia ana manufaa yafuatayo ila
A. ngamia huwapa watu kinywaji
B. ngozi yake hutengeneza nguo
C. ngamia husafiri mahali gari halipiti
D. hunusa pahali penye maji | 5. Ni kwa nini ngamia hustahimili njaa?
A. Ni mnyama ambaye ni mvumilivu
B. Ana uwezo wa kuhifadhi maji
C. Ana midomo midogo ya kula mwiba
D. Huweza kula mimea haba ya jangwa |
| 3. Ni kwa nini ngamia hatatizwi na vumbi jangwani?
A. Pua yake hunusa maji
B. Pua yake huwa na kope
C. Macho yake huzibika
D. Pua yake huzibika | 6. Kulingana na kifungu hiki ngamia sanasana hutumika
A. katika usafiri
B. kutupa maziwa
C. kutupa kinyesi
D. kutupa ngozi |

Soma kifungu kifuatacho kisha ujibu swali la 7 hadi la 12.

Vijana wengi siku hizi wanavutiwa na matumizi ya mitandao ya kijamii. Kuanzia asubuhi wanapoamka hadi usiku wanapokwenda kulala, simu zao zimegandishwa mikononi. Ni jambo la kawaida kuwaona vijana wakitembea barabarani huku wakitazama viwambo vya simu zao, bila kujali mazingira yao. Wengine hata huenda mbali zaidi kwa kurekodi matukio hatari na kuyasambaza mitandaoni kwa lengo la kutafuta umaarufu.

Matumizi ya kupindukia ya mitandao hii yameleta madhara makubwa kwa jamii. Kwanza, vijaha wengi wameacha kusoma vitabu na kujishughulisha na mitandao. Matokeo yake, viwango vya elimu vimeporomoka, na wengi wamekosa maarifa muhimu yanayohitajika kwa maisha yao ya baadaye. Pili, uhusiano wa kifamilia umedhoofika. Vijana wanapendelea kuzungumza na marafiki zao mtandaoni badala ya kuwasiliana na wazazi au ndugu zao. Hali hii imepelekea mawimbi ya ukimya katika familia nyingi.

Tatu, afya ya akili ya vijana imeathirika. Wengi wanateseka kutokana na unyogovu na wasiwaşi wanapojilinganisha na maisha bandia wanayoona mtandaoni. Shinikizo la kuonyesha maisha ya kifahari na mafanikio, hata kama si ya kweli, linawafanya vijana wengi kukosa furaha na kuridhika na hali zao. Aidha, visa vya uonevu mtandaoni, ambapo watu huwekana chini na kutukanana, vimeongezeka na kuwaacha wahasiriwa wengi na majeraha ya kudumu.

Hata hivyo, hatuwezi kukana kuwa mitandao ya kijamii ina manufaa yake. Inaweza kutumika kama jukwaa la kujifunza, kutoa habari muhimu, na kuunganisha watu kutoka sehemu mbalimbali za dunia. Biashara nyingi pia zimefanikiwa kutokana na matumizi ya mitandao hii katika kutangaza bidhaa zao.

Ni muhimu kwa wazazi, walimu na jamii kwa ujumla kuwashauri vijana kuhusu matumizi sahihi ya mitandao ya kijamii. Wanapaswa kufahamu kuwa kila jambo lina pande mbili, na ni busara kutumia teknolojia hii kwa manufaa na kuepuka madhara yake. Kumbuka, akili ni nywele, kila mtu ana zake, lakini busara ni muhimu.

Soma kifungu kifuatacho kisha ujibu swali la 13 hadi la 17.

Mlima Kenya, au Kirinyaga, ni mlima wa pili kwa urefu barani Afrika. Kwa **karne** nyingi, umekuwa na umuhimu mkubwa kwa jamii mbalimbali nchini Kenya, hasa jamii za Agikuyu, Aembu na Ameru. Mlima huu haujawa tu chanzo cha maji na rasilimali nyingine, bali pia umetumika kama kituo muhimu cha kitamaduni na kiroho.

Kwa jamii ya Agikuyu, Mlima Kenya ni makao ya Mwenyezi Mungu, Ngai. Wao huamini kuwa Ngai huishi kileleni mwa mlima huo, na hivyo hutekeleza mila na tambiko zao wakielekea mlima. Wao huupa mlima heshima kubwa, wakiepuka kuonyesha dhara kwa namna yoyote. Desturi hii ya kuelekea mlima wakati wa maombi na tambiko imeendelea hadi leo, ikisisitiza umuhimu wa mlima huu katika maisha yao ya kiroho.

Mlima Kenya pia ni chanzo muhimu cha uchumi. Mvua inayopata mlima huu huchangia mito mingi inayotiririka kuelekea mashamba ya kahawa, chai na mazao mengine ya kilimo. Utalii pia umekuwa chanzo kikuu cha mapato, kwani wapanda mlima na watalii kutoka kote ulimwenguni huja kushuhudia urembo na utukufu wake. Hali hii inachangia pakubwa katika maendeleo ya kiuchumi ya maeneo yanayozunguka mlima.

Hata hivyo, mlima huu unakabiliwa na changamoto kadhaa. Ukataji miti haramu na ongezeko la idadi ya watu karibu na mlima vimetishia mfumo wake wa ikolojia. Ujangili pia umekuwa tishio kwa wanyamapori wanaoishi huko. Ni muhimu kwa serikali na jamii kushirikiana katika juhudi za kuhifadhi Mlima Kenya kwa vizazi vijavyo.

Kwa kumalizia, Mlima Kenya ni zaidi ya mlima; ni ishara ya utamaduni, kiroho, na uchumi. Ni jukumu letu sote kuhakikisha kuwa tunautunza na kuulinda kwa ajili ya manufaa yetu na vizazi vijavyo.

13. Ni nini maana ya karne?
- A. Idadi ya miaka mitano
- C. Idadi ya miaka kumi

- B. Idadi ya miaka mia moja
- D. Idadi ya moaka ishirini

14. Mlima uliotajwa kátika kifungu una manufaa gani ya kidini?
 A. Huwa na mimea muhimu
 B. Ni makazi ya Mola
 C. Huwa na misimu
 D. Huonyesha ushirikiano
15. Uchumi umekua vipi kulingana na kifungu hiki?
 A. Mlima kutembelewa
 B. Kuwa na mito mkuu
 C. Kuwa na miti anuwai
 D. Kuwa na mvua haba

16. Ni jambo gani limetatiza mlima Kenya?
 A. Kuhifadhi miti
 B. Kuharibu mimea
 C. Kuomba mlima
 D. Kutokuwa na majangili
17. Ni nani anafaa kuhifadhi mlima Kenya kulingana na kifungu hiki?
 A. Jamaa pekee
 B. Serikali
 C. Jamii pekee
 D. Kila mtu

Soma kifungu kifuatacho kisha ujibu swali la 18 hadi la 20.

Bi. Natija ana duka la rejareja katika kijiji cha Matumaini. Yeye huuza bidhaa mbalimbali kwa wakazi wa kijiji hicho. Wateja wake wakuu ni Asha, Oloo na Musa. Kila mmoja wao hununua bidhaa tofauti. Jedwali lifuatalo linaonyesha orodha ya bidhaa anazouza kwa wateja wake.

Bidhaa	Asha	Oloo	Musa
Mafuta	Hanunui	Hununua	Hununua
Sukari	Hununua	Hanunui	Hanunui
Juisi	Hununua	Hununua	Hanunui
Chumvi	Hanunui	Hununua	Hununua
Bizari	Hununua	Hununua	Hununua

18. Ni bidhaa gani hupendwa na wateja wengi?
 A. Mafuta
 B. Sukari
 C. Bizari
 D. Chumvi
19. Ni bidhaa gani hununuliwa na mtu mmoja?
 A. Sukari
 B. Juisi
 C. Bizari
 D. Chumvi

20. Kati ya bidhaa hizi, ni bidhaa ipi hutumiwa kama kiungo cha kuungia mchuzi?
 A. Juisi
 B. Mafuta
 C. Sukari
 D. Chumvi

Soma mazungumzo yafuatayo kisha ujibu swali la 21 hadi la 25.

(Ni jioni. Giza linaanza kubisha hodi. Anita ameketi kwenye kiti nje ya nyumba yake. Punde Pazia anamwona akielekea kwake.)

- Pazia :** Jirani, masalkheri? Naona una shughuli nyingi.
- Anita :** (Akimwagalia) 21 _____ jirani. Kazi haziishi. Leo nimeamua kufua nguo na kuosha nyumba.
- Pazia :** Ndio maana nimekuona hapa kwa muda. (Kwa huruma) Ni kweli, hali ya hewa inabadilika. Mvua inaonekana itanyesha ghafla.
- Anita :** Kweli kabisa. Ninahitaji kumaliza haraka.
- Pazia :** Juzi nimekuona ukiuguza mtoto. Amepona?
- Anita :** Ah, mtoto amepona sasa. Ni mafua tu ilikuwa ikimsumbua. Nashukuru Mola.
- Pazia :** Nashukuru kusikia hivyo. Afya njema ni muhimu.
- Anita :** Kweli kabisa. Sasa wewe unaelekea wapi, jirani?
- Pazia :** Ninaelekea kwa bibi yangu. Ninampelekea chakula cha jioni. Si unajua amekula chumvi nyingi? Ni lazima tuwatunze waliokongea.
- Anita :** Nakuelewa. Mungu akubariki katika kazi zako.
- Pazia :** Asante, jirani. Nakutakia usiku mwema. (Anamuaga)
- (Pazia anaendelea na safari yake huku Anita akiendelea kuosha nyumba.)

21. Ni jibu gani Anita alitoa?
 A. Sabalkheri
 B. Aheri
 C. Asante
 D. Pia nawe
22. Anita alikuwa akifanya kazi gani?
 A. Kupiga deki
 B. Kupika chajio
 C. Kupiga pasi
 D. Kuosha nguo

23. Pazia alikuwa akielekea wapi?
 A. Kwa mke wake
 B. Kwa nyanya yake
 C. Kwa mjomba wake
 D. Kwa rafiki yake

24. Ni mtoto wa nani alikuwa mgonjwa?

- A. Mtoto wa Anita
- B. Mtoto wa Pazia
- C. Mtoto wa bibi
- D. Watoto wote

25. Ni kweli kusema kuwa

- A. Bibi alikuwa mgonjwa
- B. Bibi alikuwa mzee
- C. Bibi alikuwa na chajio
- D. Bibi alikuwa na njaa

Kifungu kifuatacho kina nafasi 26 hadi 35. Umpewe majibu manne hapo. Chagua jibu lifaalo zaidi kujaza nafasi.

Mazingira yetu ni muhimu sana. 26 tunaishi katika mazingira safi, basi tutakuwa na afya nzuri. Ni muhimu sana kuhakikisha kuwa 27 usafi wa mazingira yetu 28 mahali popote. Je 29 tunapaswa kufanya nini ili tuyahifadhi mazingira yetu? Inatubidi 30 tutupe taka vizuri kwenye 31. Kwa njia hii, tutaangamiza magonjwa kama vile waba na homa ya matumbo. Jambo 32 ni kupanda miti mingi. Tukipanda miti, tutapata hewa safi na kuzuia 33 wa ardhi. Tukifanya usafi wa mara kwa mara katika mazingira yetu 34 mengi yatatokomea na tutakuwa wenye afya. Kila 35 anafaa atangamane na wengine tuwe na mazingira safi.

- | | | | |
|-------------------|----------------|-------------|----------------|
| 26. A. Ikiwa | B. Huenda | C. Labda | D. Kwani |
| 27. A. tunadharau | B. tunadunisha | C. tunabeza | D. tunadumisha |
| 28. A. tuko | B. tukiwa | C. tuna | D. tulikuwa |
| 29. A. ? | B. ... | C. , | D. . |
| 30. A. sote | B. zote | C. wote | D. nyote |
| 31. A. shimo | B. choo | C. mbolea | D. jaa |
| 32. A. ingine | B. jingine | C. mengine | D. kingine |
| 33. A. momonyoko | B. mmomonyoko | C. monyoko | D. mimonyoko |
| 34. A. ugonjwa | B. mambo | C. maradhi | D. ukongo |
| 35. A. mamoja | B. mmoja | C. moja | D. kimoja |

Kutoka swali la 36 hadi la 50, chagua jibu sahihi kulingana na maagizo.

36. Ni kiungo kipi ambacho husaidia kusafisha damu mwilini?

- A. Mshipa
- B. Mapafu
- C. Moyo
- D. Figo

37. Kamilisha: Mweusi kama _____

- A. giza
- B. kaniki
- C. mchanga
- D. usiku

38. Tambua neno lililopigiwa mstari.

Chupa ile ilivunjika **jana**

- A. Kielezi
- B. Kivumishi
- C. Nomino
- D. Kitenzi

39. Chagua sentensi sahihi kisarufi.

- A. Angeenda kwao angalimkuta
- B. Mbuzi zile zilinunuliwa sokoni
- C. Mbwa zile zilibweka usiku wote
- D. Vyoo zile vilioshwa na wanafunzi

40. Chagua kinyume cha kitenzi **lala**.

- A. Amka
- B. Simama
- C. Pumzika
- D. Ketu

41. Malipo ambayo mzazi humlipia mwanafunzi huitwaje?

- A. Nauli
- B. Kiingilio
- C. Karo
- D. Ada

42. Kanusha: Alienda msikitini.

- A. Hakuenda msikitini
- B. Haendi msikitini
- C. Hataenda msikitini
- D. Hajaenda msikitini

43. Chagua jibu lifaalo kukamilisha sentensi hii.

Karatasi _____ iliokotwa na mtoto.

- A. lile
- B. ile
- C. kile
- D. yale

44. Ukitaka kulainisha mbao utatumia kifaa gani?

- A. Kikokotoo
- B. Nyundo
- C. Msumeno
- D. Msasa

45. Fumbua fumbo lifuatalo.

Juma aliwaona ndege kumi mtini, alichukua jiwe na kumgonga mmoja.

Ni ndege wangapi walibaki mtini?

- A. Tisa
- B. Hakuna
- C. Kumi
- D. Mmoja

46. Kipi si kinywaji ambacho unaweza pata hotelini?

- A. Sima
- B. Sharubati
- C. Juisi
- D. Maji

47. Chagua maelezo sahihi.

- A. Kinu hutumiwa pamoja na mchi
- B. Bilauri humiminiwa wali
- C. Bakuli hupikiwa pure na wali
- D. Birika huwekwa mlo kama ugali

48. Kamilisha tanakali ya sauti: Maria alilia _____

- A. kwakwakwa
- B. lilili
- C. kikiki
- D. kwikwikwi

49. Chagua kiambishi kifaacho kujaza pengo
Mnyama yule _____ likuwa na woga.

- A. ya
- B. i
- C. ki
- D. a

50. Neno **mheshimiwa** lina silabi ngapi?

- A. Tano
- B. Kumi
- C. Nne
- D. Sita

Mwandikie mwalimu wako barua ukimwomba msamaha kwa kutofagia darasa.

SEHEMU B (ALAMA 30)

ZOEZILA II: FASIHI SIMULIZI (alama 16)

1. Andika maana ya maneno haya katika fasihi. (alama 10)
 - a) Maudhui _____

 - b) Mhusika _____

 - c) Ploti _____

 - d) Fasihi simulizi _____

 - e) Fasihi andishi _____

2. Kwa kutoa mfano mmojammoja, andika fani tatu ambazo hutumiwa na mtambaji. (alama 3)

3. Andika mbinu tatu za lugha ambazo mwandishi hutumia katika fasihi simulizi. (alama 3)

ZOEZILA III: NOVELA

Soma sehemu ifuatayo ya novela kisha ujibu maswali. (alama 14)

Jua lilichomoza taratibu, likiangazia kijiji cha Umoja. Kila alfajiri, sauti ya jogoo ilikuwa ishara ya kuanza kwa shughuli mpya. Bwana Tenge, baba wa Tumaini, aliamka mapema kama kawaida. Alikuwa akifanya kazi shambani bila kuchoka, akipambana na udongo mgumu na jua kali ili kuhakikisha familia yake ilikuwa sawa. Tumaini, binti yake pekee, alikuwa nuru ya macho yake. Aliamini kuwa elimu ndiyo ufunguo wa maisha bora.

Tumaini alikuwa mwanafunzi mwenye bidii sana. Tangu akiwa mdogo, alipenda kusoma vitabu na hakuwahi kukosa nafasi ya kujifunza jambo jipya. Alikuwa akisaidia mama yake, Bi. Zawadi, katika kazi za nyumbani baada ya kurudi shuleni. Mamaye Zawadi alimhimiza sana katika masomo, akimwambia, "Elimu ni urithi bora kuliko mali, binti yangu." Maneno haya yalimtia moyo Tumaini kujitahidi zaidi.

Hata hivyo, familia ya Bwana Tenge ilikabiliwa na changamoto nyingi. Bei za mazao zilishuka ghafla, na wakulima wengi walilalamika. Bwana Tenge alijitahidi kudumisha matumaini, lakini mara nyingi alihisi kuzidiwa na mzigo wa maisha. Alianza kufikiria kuacha shamba na kuhamia mjini kutafuta kazi. Mawazo haya yalimsumbua sana, hasa alipomwangalia Tumaini ambaye alikuwa akisubiri matokeo yake ya mitihani ya kitaifa.

Siku ya matokeo ilifika. Familia nzima ilikuwa na wasiwasi. Tumaini alikuwa ametumia usiku kucha kusali. Alipata matokeo, machozi ya furaha yalimtiririka. Alikuwa amefaulu vizuri sana, na alikuwa mwanafunzi bora katika wilaya nzima. Habari zilienea kama moto wa nyasi. Watu kutoka vijiji jirani walikuja kupongeza familia ya Bwana Tenge. Viongozi wa serikali na mashirika mbalimbali waliahidi kumsaidia Tumaini kuendelea na masomo yake. Familia ilipata msaada wa kujenga nyumba mpya na kupata rasilimali za kutosha za kilimo. Matokeo ya Tumaini yalionyesha kuwa elimu inaweza kuleta mabadiliko makubwa katika maisha ya jamii.

4. Novela ni nini? (alama 3)

5. Eleza sifa tatu za Tumaini (alama 3)

6. Andika mfuatano wa maisha ya Tumaini. (alama 6)

7. Andika wahusika wawili katika dondoo hili mbali na Tumaini. (alama 2)

SCHOOL BASED ASSESSMENT
JUNIOR SCHOOL
CREATIVE ARTS AND SPORTS
GRADE 7 - 2025

SECTION A: (20mks)

PART I: PERFORMING ARTS

- We can classify folk songs according to the following **except**
A. occasion
B. community of origin
C. costumes
D. age and gender of the performers
- Baraka was asked to mention techniques of performing folk songs and he mention the following:
i. phrasing
ii. gestures
iii. tonguing
iv. authenticity
v. slurring
Which ones are correct?
A. i, iii, iv
B. i, iii, v
C. i, ii, v
D. i, ii, iv
- Waridi, performed the C major scale using a descant recorder. Which notes did she play?
A. CD#EF#GABC¹
B. CDEFGABbc¹
C. CDEFGABC¹
D. CDEF#GABC¹

- A grade 7 learner drew the symbol below on her book.

Identify its name.

- A. Rest B. Crotchet
C. Treble clef D. Quaver
- Which of the following statements is true about note values?
A. Two quavers equals a crotchet
B. Two crotchets equals a minim
C. Four quavers equals a semibreve
D. Two semibreves equals three minims
 - Zawadi was trying to play a note on a descant recorder, she covered the back hole using the left thumb and the first hole using her left index finger. Which note did she play?
A. Note C B. Note F
C. Note B D. Note G
 - The following are elements of a story. Which one is **not**?
A. Character
B. Costume
C. Setting
D. Plot

PART II: SPORTS

8. Raphael executed a series of controlled taps on the ball as he advanced the field and evaded opponents during a football game. Identify the skill he was performing.
- A. Dribbling
 - B. Shooting
 - C. Passing
 - D. Kicking
9. The following are skill-related components of fitness. Which one is **not**?
- A. Balance
 - B. Speed
 - C. Muscular endurance
 - D. Reaction time
10. What is the maximum number of steps a player can take while holding the ball before dribbling or passing in the game of handball?
- A. Two steps
 - B. Four steps
 - C. Unlimited steps if moving slowly
 - D. Three steps
11. During a sports lesson, four grade seven learners were seen performing exercises that enhance strength. Which of the following exercises were they not likely to perform?
- A. Pull-ups
 - B. Weight lifting
 - C. Juggling
 - D. Press-ups
12. Before a javelin throwing event, participants were asked to perform warm-up exercises for the following reasons **except**
- A. improving performance
 - B. preventing injuries
 - C. mental preparation
 - D. lower body temperature

13. Israel executed a trapping technique in a football game.

Identify the trapping method.

- A. Chest trap
 - B. Thigh trap
 - C. Head trap
 - D. Foot trap
14. Learners from Harambee Junior school were seen performing various passes during a handball match. Which of the following passes were they not likely to execute?
- A. Side pass
 - B. Instep
 - C. Flick pass
 - D. Jump pass

PART III: VISUAL ARTS

15. Grade 7 learners at Makongeni Junior school were seen carrying the following materials during their Creative Arts and Sports lesson.
- i) manila paper
 - ii) picture cut outs
 - iii) adhesive
 - iv) a pair of scissors
- What were the learners likely to be making?
- A. Mosaic
 - B. Collage
 - C. Montage
 - D. Weaving
16. Colours that appear opposite each other on a colour wheel are known as
- A. analogous
 - B. intermediate
 - C. pure
 - D. complementary
17. Learners from grade 7 were listing the cool colours. Which of the following colours did they **not** list?
- A. Orange
 - B. Purple
 - C. Green
 - D. Blue
- CREATIVE ARTS & SPORTS GRADE 7**

18. Grade 7 learners were learning how to carve a javelin. Their teacher guided them to observe the following when carving. Which of the following did the teacher not mention?

- A. Sketching image
- B. Colour of the javelin
- C. Carve out the negative parts
- D. Shape and pointedness

19. A thin sheet of card, metal or plastic with a pattern or letters cut out of it and used to produce the cut design on the surface below by the application of ink or paint through the holes is known as

- | | |
|------------|------------|
| A. motif | B. pattern |
| C. stencil | D. printer |

20. Mr. Mwangi was teaching learners on how to make a picture using crayon etching technique as shown below.

He instructed the learners to add some little soap into the black paint before covering the waxed surface. What was the main reason for adding the little soap?

- A. To make the work easy to scratch
- B. To make the black paint stick on the waxed surface
- C. To prevent the work from cracking
- D. To prevent the wax crayons from melting

SECTION B: (30mks)

PART I: PERFORMING ARTS

21. List any three types of folk songs. (3mks)

22. Draw and label a treble staff in the space provided below. (3mks)

23. List three techniques used in story telling. (3mks)

24. Draw the rest symbol of the note shown below. (1mk)

PART II: SPORTS

25. In a class discussion, Opiyo, a learner in grade seven, mentioned the five phases of a javelin throw. Outline the correct phases that he mentioned. **(5mks)**

26. You are practicing for an Inter-house handball match. List three qualities of a good pass that your teammates should take into consideration. **(3mks)**

27. A teammate sends a high ball towards you. You are under pressure from a defender. What is the best way to trap the ball and maintain possession? **(2mks)**

28. State three swimming pool rules that learners need to observe during a swimming lesson. **(3mks)**

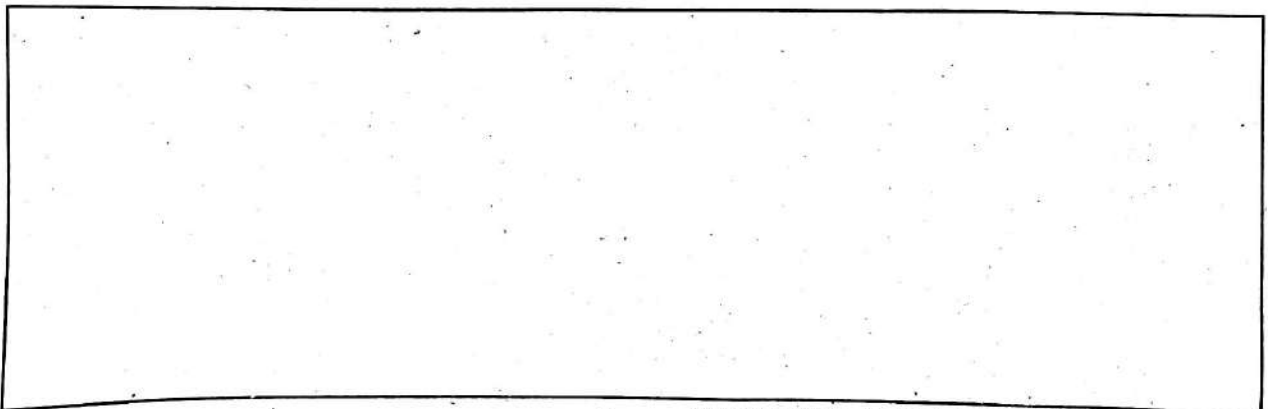

PART III: VISUAL ARTS

29. During a Creative Arts and Sports lesson, the teacher asked learners to list three materials needed when making a flip book. Help the learners to list them. **(3mks)**

30. What is animation as used in graphic design? **(1mk)**

31. Grade 7 learners at Matuu Junior school were making a necklace using locally available materials. Their Creative Arts and Sports teacher asked them to bring these materials to school. Name three materials that the learners brought. **(3mks)**

32. In the space provided, draw a mallet and shade using smudge technique. **(3mks)**

SCHOOL BASED ASSESSMENT
JUNIOR SCHOOL
INTEGRATED SCIENCE
GRADE 7 - 2025

JS2507

Time: 1 Hour 40 Minutes.

Candidate's Name:	
School Name:	
Candidate's Signature:	

Assessment Number:	
School Code:	
Date:	

SECTION A: (30mks)

1. A certain component of Integrated Science deals with study of living things and their environment. Which one is it?
A. Physics
B. Chemistry
C. Pre-technical
D. Biology
2. Grade 7 learners used a digital device for research on hazards and their accidents in a laboratory. Which one may catch fire and burn things in the laboratory?
A. Corrosive substances
B. Flammable substances
C. Toxic substances
D. Sharp objects
3. The picture below shows a picture taken from an injured player.

Which one might have caused the above accident?

- A. Naked flame
- B. Something wet
- C. Broken glass
- D. Swallowing poisonous chemicals

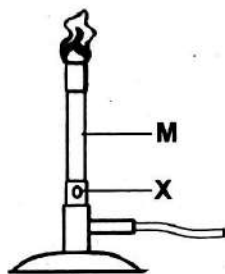

4. By studying Integrated Science a learner will learn basic skills.

Which skill is being demonstrated above?

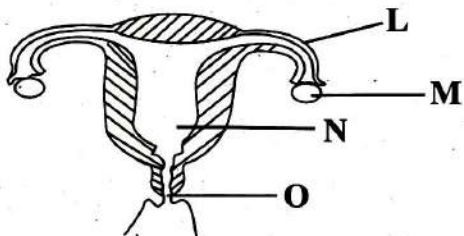

- A. Manipulative skills
 - B. Observation skills
 - C. Measurement skills
 - D. Classification skills
5. A group of grade 7 learners were asked to name SI units of different quantities. Who among them named correctly the SI unit of temperature?
A. Mary - ampere
B. Cynthia - kilogram
C. Kiko - Kelvin
D. Peter - mole
 6. Maxwell took 42 minutes to walk from home to school. What time did he take in SI units?
A. 3200 seconds
B. 60 seconds
C. 1800 seconds
D. 2520 seconds

The diagram below shows a laboratory apparatus. Use it to answer questions 7 and 8.

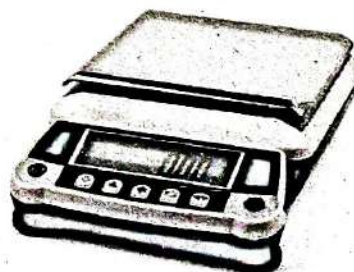

7. The above apparatus is known as
A. bunsen burner B. spirit lamp
C. candle D. electric heater
8. A learner was asked to state the function of the part labelled X. What was her possible answer?
A. Lets gas into the base of the chimney
B. Lets air into mix with the gas
C. Regulates the amount of air entering the chimney
D. Supports the apparatus
9. During a practical lesson, grade 7 learners from Kivutini Junior school mixed different liquids. Which group mixed only liquids that made homogeneous mixture?
A. **Group 1** - water and petrol
B. **Group 2** - kerosene and milk
C. **Group 3** - milk and water
D. **Group 4** - milk and petrol
10. Agnes accidentally mixed rice with maize. Which will be the quickest method of separating the mixture?
A. Hand picking B. Use of magnet
C. Filtering D. Sieving
11. When the teacher put a red litmus paper in a substance turned a blue litmus paper red. The substance was likely to be
A. saliva B. soapy water
C. wood ash D. lemon juice

The diagram below represents a chart made by grade 7 learners from Ngelani Junior school. Use it to answer questions 12 and 13.

12. Identify the parts labelled N and O respectively.
A. Vagina and uterus
B. Uterus and vagina
C. Womb and ovary
D. Womb and oviduct

13. The process of fertilization takes place in the part labelled
A. L B. M
C. N D. O
14. A grade 7 boy was heard speaking in deep voice. Which one could not be observed in the boy?
A. Growth of hair under armpits
B. Growth of hair in pubic area
C. Enlargement of breasts
D. Growth of beards
15. Which of these parts of the skin is found in the epidermis?
A. Sweat pores B. Sweat glands
C. Sweat duct D. Root hair
16. Moses, a grade 7 learner had the following signs and symptoms;
- **frequent urination**
- **blood in urine**
- **smelling urine**
- **pain on one side of abdomen**
What causes the above kidney disorder?
A. High blood pressure
B. Accumulation of waste in the body
C. Infection in the kidney
D. Excess salts in the kidney
17. During a Science lesson, grade 7 learners did different activities to demonstrated existence of static electricity. Which one is **not** true?
A. Cracking sound when removing nylon pullover
B. Combing hair using plastic combs
C. Wiping window panes using dry duster
D. Making water turbines
18. A butcherman uses the instrument shown below.

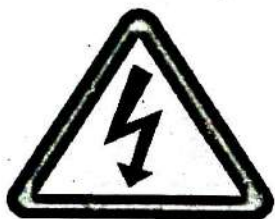

- He uses the instrument to measure
- A. volume of meat
 - B. quantity of the meat
 - C. size of the meat
 - D. weight of the meat

19. Which method of separating mixtures will a learner use to separate a mixture of water and salt, recovering both substances?
- Fractional distillation
 - Evaporation
 - Decanting
 - Filtering
20. A certain apparatus is used to support beakers and flasks during heating. Which one is it?
- Pair of tongs
 - Wire gauze
 - Test tube holder
 - Tripod stand

SECTION B: (30mks)

21. A grade 7 learner used a digital device to research on hazard symbols and meanings. Write the meaning of the following hazards. (3mks)

a)

b)

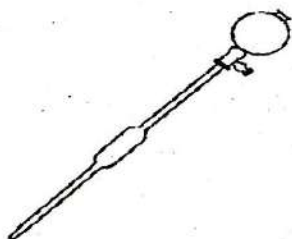

c)

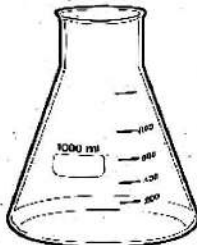

22. List down any three applications of the basic skills gained through learning Integrated Science. (3mks)

23. During an Integrated Science lesson, the teacher displayed the following apparatus and requested the learners to name them. Identify correct names they gave. (3mks)

a)

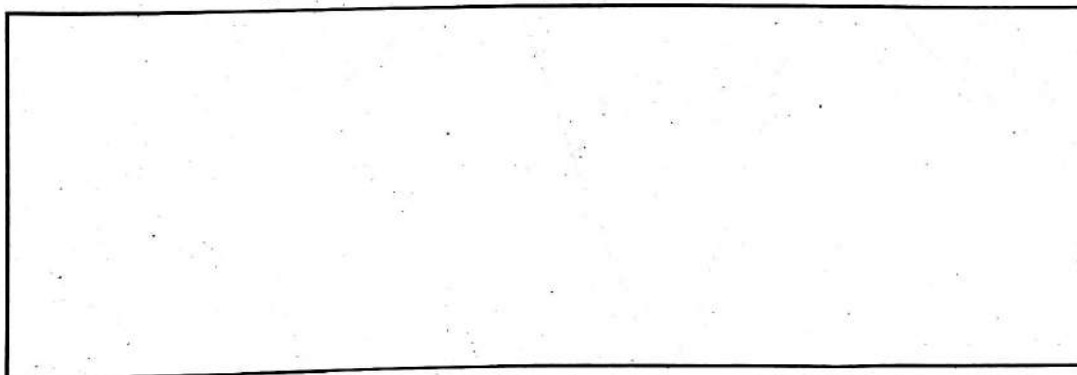

b)

c)

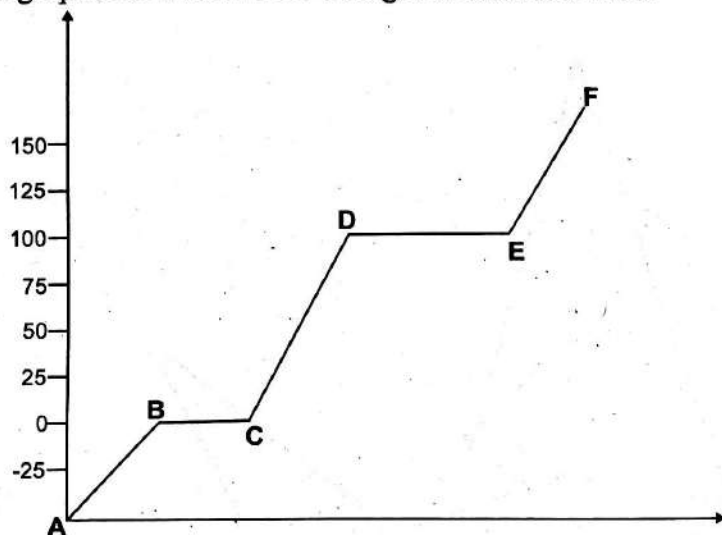

24. Draw and label the parts of a hand lens. (3mks)

25. Kawira, a grade 7 learner was guided by the teacher to fill in the table below. Help her to complete the table correctly. (3mks)

Parts of male reproductive system	Function of the part
Testis	
Sperm duct	
Urethra	

26. The graph below shows the changes of state of nature.

a) Identify the melting and boiling points on the graph. (2mks)

Melting point _____

Boiling point _____

b) Explain what happens at the stage CD. (2mks)

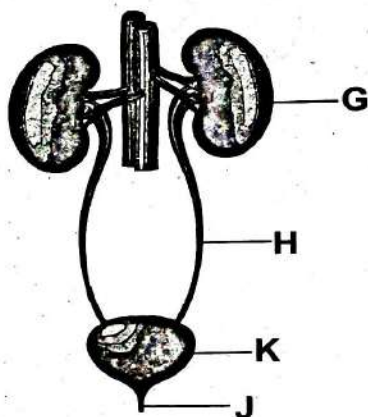

27. A grade 7 learner was asked to name some of the laboratory indicators. Name any three indicators learners gave. (3mks)

28. Explain the functions of the following parts of a light microscope. (4mks)

a) Fine adjustment knob _____

b) Diaphragm _____

29. The diagram below shows the parts of urinary system of the human body.

a) Name the labelled parts G, H and K respectively. (3mks)

G _____

H _____

K _____

b) What is the work of the part labelled J? (1mk)

SCHOOL BASED ASSESSMENT
JUNIOR SCHOOL
AGRICULTURE
GRADE 7 - 2025

JS2507

Time: 1hr 40mins

Candidate's Name:	
School Name:	
Candidate's Signature:	

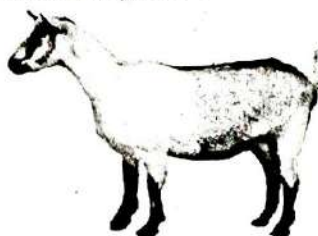

Assessment Number:	
School Code:	
Date:	

SECTION A. (20marks)

1. During the Agriculture lesson, Grade 7 learners at Umoja Primary school were discussing the methods that can be used to conserve surface run-off on the farm. Which among the following was a **FALSE** response?
A. Water retention pits
B. Water retention ditches
C. Earth basins
D. Gulley
2. The farmers of Kware village have reported significant decline of crop produce from their farms in the recent past. Musa and his classmates were brainstorming on the probable causes. Which of the following is **UNLIKELY** to be what they discussed?
A. Excessive use of artificial fertilizers on the farm.
B. Spillage agricultural chemicals on the farm.
C. Use of correct types and amounts of farm chemicals and fertilizers.
D. Use of waste water.
3. Mr. Mutua conserves surface run off on his farm. Which among the following crops is he likely to plant in a water retention pit?
A. Wheat
B. Rice
C. Sugarcane
D. Carrots
4. As a grade seven learner, which among the following is the **best** way of creating awareness against improper disposal of waste water in the local community?
A. Radio
B. Use of posters
C. Online campaigns.
D. Use of pamphlets
5. Rita wants to conserve vitamins in vegetables when cooking. What should she avoid?
A. Soaking vegetables before cutting.
B. Using little water when cooking.
C. Cooking vegetables immediately after harvesting.
D. Washing the vegetables before cutting.
6. During their Agricultural trip, Grade 7 learners from Marina school were taught on ways of conserving resources in the environment. Which among these is **FALSE**?
A. Constructing water retention structures.
B. Deforestation
C. Conserving food nutrients
D. Controlling soil pollution.
7. Grade seven learners were preparing the school garden to plant carrots. They discovered that, the soil was soft, loose and easy to dig. What condition of the soil did they observe?
A. Soil fertility
B. Soil temperature
C. Soil tilth
D. Soil acidity

8. Which of the following best explains how trees help improve air quality?
 - A. They produce carbon dioxide for animals
 - B. They absorb smoke from factories
 - C. They take in carbon dioxide and release oxygen
 - D. They block the wind
9. Which among the following crops does not require earthing-up?
 - A. Ground nuts
 - B. Carrots
 - C. Potatoes
 - D. Bulb onions
10. Which mechanical weeding method can best be applied on a nursery bed?
 - A. Uprooting
 - B. Digging out
 - C. Mulching
 - D. Applying pesticides
11. Tamia harvested onions from the school garden and left them in the sun for a few days. What was the main reason for this?
 - A. To harden the outer skin for better storage
 - B. To make them taste sweeter
 - C. To change their colour
 - D. To make them grow bigger
12. After planting groundnuts, Mr. Shasta noticed that birds had eaten the nuts that were not well covered. Which is the best crop management practice to apply on the farm?
 - A. Earthing up
 - B. Gapping
 - C. Thinning
 - D. Weeding

13. The picture below shows a certain domestic animal kept at home.

- Which among the following is **not** a hygiene practice that should be observed when rearing the animal on the farm?
- A. Shearing
 - B. Cleaning the shed
 - C. Washing the animal
 - D. Providing clean water to the animal.
14. Rotech's sheep was left for three days without food and water. What do you think would happen to the sheep?
 - A. The sheep will grow faster
 - B. The sheep will produce more milk
 - C. The sheep will become weak or die
 - D. The sheep will learn to eat less
 15. Rita was helping her mother sort eggs from their poultry farm. She noticed some eggs had slight cracks on the shell. What should she do with them?
 - A. Pack them together with clean eggs for sale
 - B. Boil and sell them as hard-boiled eggs
 - C. Set them aside for home use or immediate consumption
 - D. Wash and polish them for sale
 16. Mr. Alukwe uses the equipment below when cooking meat.

- Which method of cooking is applied when using the equipment above?
- A. Boiling
 - B. Steaming
 - C. Grilling
 - D. Roasting

17. Grade 7 learners observed the following on their school farm.

Which among the following is the importance of trees according to the picture above?

- A. Trees act as wind breakers.
 - B. Trees control soil erosion.
 - C. Trees host wildlife.
 - D. Trees attract rainfall.
18. Mrs. Reno can use all other cooking methods when cooking meat apart from roasting. Identify one of the reasons that could have led to this.
- A. It requires a lot of oil.
 - B. The meat may not cook completely
 - C. It is fast and easy
 - D. It produces tasty meat

19. During a school trip, Peter saw processed honey being packed in glass and plastic jars as shown below.

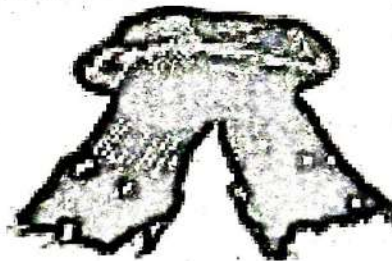

Why honey is commonly packed in above types of containers?

- A. To change the taste of honey
 - B. To make the honey more colourful
 - C. To help it mix with other foods
 - D. To prevent contamination and to keep it safe.
20. Which among the following is **not** a reason why honey is processed?
- A. To make it safe for consumption.
 - B. To increase the shelf life.
 - C. To make it tasty
 - D. To increase the market value.

SECTION B: (30mks)

21. Pauline wanted to knit the article below.

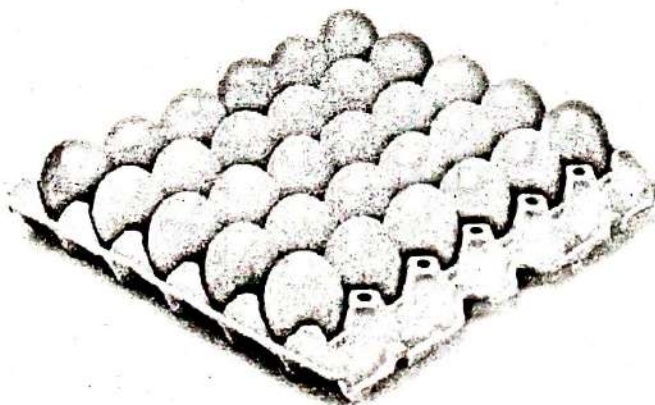

Which two knitting stitches would you advise her to use? (2mks)

22. How can we add value to the crop produce in the table below? (4mks)

Crop	Value addition technique
Cassava	
Pumpkin	
Ground nuts	
Sweet potatoes	

23. Natasha and Vivian were discussing the importance of practicing value addition to crop produce. Write four roles they wrote. (4mks)

24. Grade seven learners were making homemade soap from natural ingredients soap. Name four basic ingredients they used. (4mks)
-
-
-
-
25. Grade 7 learners toured the school kitchen and were taught some safety precautions during grilling. State three precautions they learnt. (3mks)
-
-
-
-
26. Grade 7 learners were asked to discuss and write down the benefits of off season cropping in agriculture. Identify five benefits they wrote. (5mks)
-
-
-
-
-
27. Mr. Kubasu always prepares animal products on his farm. State three reasons why he carries out this Agricultural practice. (3mks)
-
-
-
-
28. When they visited Malisho Agricultural farm, grade 7 learners requested for some raw honey. They could not consume because it had impurities. Identify three impurities they found in the raw honey. (3mks)
-
-
-
-
29. Give two factors to consider when sorting and grading the animal products shown below. (2mks)

JUNIOR SCHOOL

PRE-TECHNICAL STUDIES

GRADE 7 - 2025

JS2507

Time: 1hr 40mins

Candidate's Name:	
School Name:	
Candidate's Signature:	

Assessment Number:	
School Code:	
Date:	

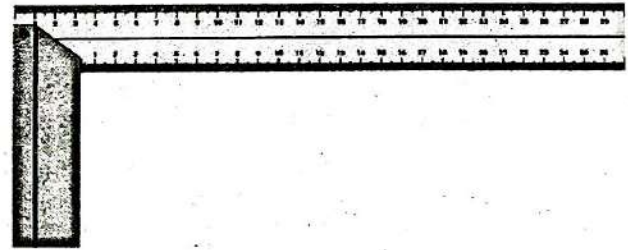

SECTION A (20 MARKS)

- What role does Pre-technical studies play in modelling our study lives for our career pathways?
 - Ignoring the role of technology in acquiring knowledge
 - Focusing only on theoretical knowledge
 - Providing a practical experiences in technical areas
 - Limiting career options for learners
- The type of a drawing that shows how things are exactly built and designed is called
 - artistic drawing
 - technical drawing
 - creative drawing
 - expressive drawing
- What does a dashed line represent in a technical drawing?
 - Centre lines
 - Hidden lines
 - Visible edges
 - Dimensions
- Which type of storage devices is mostly used for portable data transfer?
 - External hard disk
 - Internal flash memory
 - Digital Versatile Disk
 - Solid State Drive
- What is the primary use of a dot punch?
 - Measuring length
 - Drawing straight lengths
 - Marking the center points for drilling
 - Weighing of objects

6. Non-metallic materials are either synthetic or natural. Which one of the following materials is the odd one out?

A. Wood B. Plastic
C. Glass D. Rubber

7. The picture below shows a common marking tool used in carpentry.

Which tool is it?

A. Dot punch
B. Callipers
C. Try-square
D. Scriber

8. During a practical to examine the physical properties of non-metallic materials, the following except one are considered. Which one is it?
- A. Fire resistance
B. Colour of the material
C. Heat conductivity of the material
D. The chemical composition
9. During a Pre-technical studies lesson, learners were asked to give examples of measuring tools. Who among the learners gave the correct response?
- A. Shiro - steel rule, callipers, plumb bob
B. Kamau - divider, try-square, scriber
C. Jamal- weighing balance, stopwatch, dot punch
D. Kigen - pencil, marking knife, scriber
- PRE-TECHNICAL STUDIES GRADE 7**

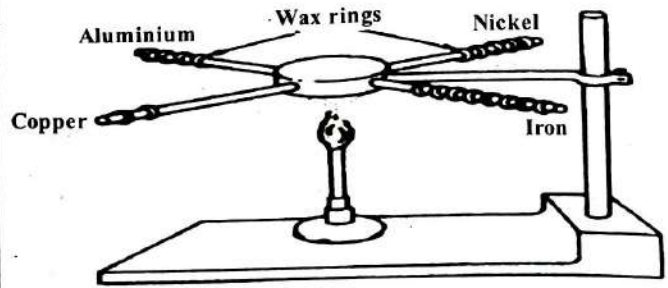

10. When drawing a mechanical component, Wafula drew the line shown below.

The line drawn is called a

- A. centre line
 - B. hidden line
 - C. continuous line
 - D. dimension line
11. A pointing device is one of the input devices used to key in data in a computer. Which one of the following is not a pointing device?
- A. The mouse
 - B. A stylus pen
 - C. An optical mark reader
 - D. A trackball
12. What is the primary purpose of a fire drill in a school or workshop environment? To
- A. cause panic among learners.
 - B. practice emergency evacuation procedures.
 - C. test the fire alarm system only.
 - D. identify individuals who are slow.
13. Which keyboard shortcut is commonly used to copy selected text or objects in most computer applications?
- A. CTRL + X
 - B. CTRL + V
 - C. CTRL + C
 - D. CTRL + Z
14. Phishing is a common online scam. Which of the following is a characteristic of a phishing attempt?
- A. An email from a known sender asking you to update your software.
 - B. A message asking for your personal login details, often with a sense of urgency.
 - C. A notification about a new software update from a reputable company.
 - D. An advertisement for a product you recently searched for.

15. The setup below shows an experiment that was set by students of Kaani Junior school to examine the physical properties of metals.

Which physical property were they investigating?

- A. Magnetism
 - B. The lustre
 - C. Electrical conductivity
 - D. Heat conductivity
16. Which one of the following is a safety precaution when using a computer?
- A. Eating and drinking near the computer
 - B. Working in a dark room
 - C. Sitting with proper posture
 - D. Staring at the screen for long periods
17. Which one of the following drawing lines is used to indicate hidden edges or continuous in a technical drawing?
- A. Continuous thick line
 - B. Thin chain line
 - C. Thin short dashes
 - D. Continuous thin line
18. With a specific radius in technical drawing, which tool is most suitable for this task?
- A. Tee square
 - B. Set square
 - C. Divider
 - D. Compass
19. Which one of the following safety rules should be observed when using hand tools in a workshop?
- A. Use tools with blunt edges.
 - B. Leave tools lying on the floor.
 - C. Use the right tool for the right job.
 - D. Carry sharp tools in your pockets.
20. What is the primary purpose of using a password to access a computer or online account?
- A. To speed up the computer
 - B. To protect information from unauthorized access
 - C. To install new software
 - D. To change the computer's settings

SECTION B (30 MARKS)

21. How can online threats like impersonation, hacking and phishing be safeguarded against? (3 marks)

22. Identify two physical threats in a workplace. (2 marks)

23. What are some of the measures to be considered to protect computers from theft while constructing a computer laboratory in a school? (3 marks)

24. During a field study trip, you visited the nearest workshop and took the photo below for your portfolio.

Identify any three safety precautions that the workers should take to protect themselves from injury. (3 marks)

25. The following are characteristics of a computer. Define them. (2 marks)

a) Versatility _____

b) Accuracy _____

26. Explain the difference between a technical drawing and an artistic drawing. (2 marks)

27. Draw the following lines in the spaces provided below. (2 marks)

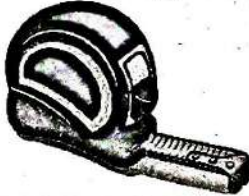

a) A chain line	b) A thick continuous line

28. State and explain how different ICT tools are used in communication. (4 marks)

29. Materials used in production can either be metallic or non-metallic. State one example of each category. (2 marks)

30. Marking tools are used to make indications on surfaces. State two examples of such tools. (2 marks)

31. Match the following tools to their functions. (3 marks)

Tool	Use
	Measuring the amount of time elapsed
	Measuring the size of a distance
	To mark the center of a point to be drilled

32. Outline any two differences between hardcopy and softcopy output devices. (2 marks)

SCHOOL BASED ASSESSMENT

JUNIOR SCHOOL SOCIAL STUDIES

GRADE 7 - 2025

Time: 1hr 30mins

Candidate's Name:	
School Name:	
Candidate's Signature:	

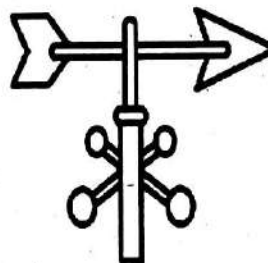

Assessment Number:	
School Code:	
Date:	

SECTION A: (20MARKS)

Answer ALL the questions in this section

1. Which of the following best explains the importance of self-exploration among young learners in understanding their strengths and limitations for better personal development?
 - A. It allows learners to compare themselves with others academically
 - B. It ensures that learners participate in physical education activities
 - C. It helps learners to recognize personal interests, talents and set life goals
 - D. It allows students to judge others based on emotional reaction
2. How does effectively managing emotions in daily life contribute to building positive relationships with peers and adults in a school community?
 - A. By avoiding responsibilities that may cause stress
 - B. By suppressing emotions to prevent conflict
 - C. By promoting better communication and preventing violent outbursts
 - D. By ignoring other people's feelings and focusing on oneself
3. In a diverse community where people come from different ethnic and religious backgrounds, peaceful co-existence can be best promoted through which of the following practices?
 - A. Forcing everyone to adopt a common language and belief system.
 - B. Engaging in peaceful dialogue, tolerance, and mutual respect.
 - C. Avoiding interaction with those who are different from us.
 - D. Encouraging competition among different groups for resources.
4. According to the Bukusu mythical theory of origin which of the following events best describes how the first human beings were believed to have appeared?
 - A. They were created from clay by a supernatural being called Were Khakaba
 - B. They evolved from apes over millions of years
 - C. They emerged from a mountain during a lightning storm
 - D. They were brought by explorers from distant lands

5. Grade 7 learners listed common features in both mythical and creation theory. Which of the following is a common feature between the Biblical creation story and African mythical stories of human origin like that of the Bukusu?
- Both describe humans as a result of scientific processes
 - Both suggest humans came from underground caves
 - Both involve supernatural beings creating the first people
 - Both explain that people came from animal ancestors
6. The Earth's revolution around the sun affects human activities in several ways. Which of the following is a direct result of this revolution?
- Formation of tides in oceans and seas
 - Occurrence of day and night
 - The change of seasons affecting farming and tourism
 - The appearance of stars in the night sky
7. Which of the following best describes an effect of the Earth's rotation on its axis?
- Causes different time zones across the globe
 - Determines the Earth's shape and continents
 - Leads to global warming in tropical areas
 - Causes earthquakes and volcanic eruptions
8. Learners of Mutitkhi Junior School drew the internal parts of the earth and gave their description. Which of the following statements best describes the mantle, one of the internal layers of the Earth?
- It is the outermost layer and composed mostly of water
 - It is a thick, semi-solid layer located between the crust and the core
 - It is the hottest layer and made entirely of gas
 - It forms the Earth's magnetic field due to its icy structure.
9. A topographical map is best used for which of the following purposes?
- Showing weather patterns and rainfall distribution
 - Indicating population density in different regions
 - Displaying physical features such as mountains and valleys
 - Representing trade routes between countries
10. Muchoki, a Grade 7 learner listed uses of a map. Which of the following best illustrates how maps can be useful in our daily lives?
- They provide food preservation methods for farmers
 - They give clear instructions on how to set traps
 - They help in planning travel routes and understanding geographical areas
 - They store personal data for financial institutions
11. How does participating in Community Service Learning benefit learners and their local community?
- It encourages dependency on government services
 - It helps learners earn money while doing school work
 - It builds leadership, teamwork and a spirit of giving back
 - It isolates learners from academic performance and grades
12. The time in Accra Ghana is 12.00 noon at longitude 0° (Greenwich), what time will it be in Nairobi which lies at longitude 45°E ?
- 3.00 pm
 - 3.00 am
 - 9.00 am
 - 10.00 am
13. Which of the following countries in Africa is directly crossed by the tropic of Capricorn?
- Nigeria
 - Egypt
 - Namibia
 - Kenya
14. Which one of the following is the main function of the weather instrument shown below?

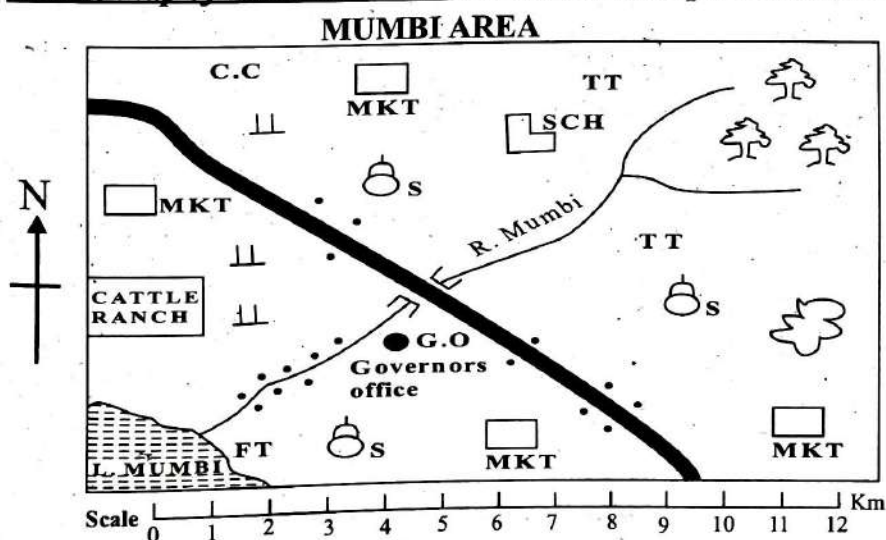

- Measures wind direction
- Measures speed of wind
- Measures the amount of rainfall
- Measures sunlight duration

15. What was the main advantage of currency trade over barter trade during historical periods?
- Currency could be used to obtain free goods and services
 - Currency eliminated the need for mutual desire of goods
 - Currency prevented theft and piracy during trade
 - Currency allowed people to produce only for their family
16. Which of the following best explains a major reason for the rise of the Indian Ocean slave trade?
- Desire to spread Christianity among African communities
 - Availability of modern transport systems
 - High demand for labour on plantations and in households in Asia and the Middle East
 - Need to establish African kingdoms across the ocean
17. Mr Wambua the Social Studies teacher at Mbooni School described different types of slavery. Which of the following best describes domestic slavery as practiced in some African societies?
- Slaves were traded for guns and manufactured goods
 - Slaves were made to work on foreign plantations
 - Slaves were integrated into households and performed chores
 - Slaves were held in chains and denied food and shelter
18. In relation to other planets in the solar system, which unique feature makes earth suitable for supporting life?
- Its great distance from the sun
 - Presence of one moon and several rings
 - Availability of water and suitable atmosphere
 - Its location as the closest planet to Mars
19. Which of the following statements describes Africa's location and size on the globe?
- Africa lies entirely in the northern hemisphere
 - Africa stretches across the equator and is the second-largest continent
 - Africa is surrounded only by the Indian Ocean and lies west of the Pacific
 - Africa shares its borders with Antarctica and the Arctic Ocean
20. The government of Kenya has various arms of the government. Which among the following is the main role of Judiciary in a democratic state?
- Making laws to be implemented in all public institutions
 - Ensuring all citizens vote fairly and freely
 - Interpreting laws and settling disputes based on the constitution
 - Collecting taxes and managing national revenue

SECTION B: (30mks)

Use the map of Mumbi Area below and answer questions 21- 24.

KEY

	Scrubs	☼	Quarry
GO	Governors office	CC	Chief camp
☼☼	Scrubs	≡/≡	Bridge
MKT	Market	S	Shrine
•••	Settlement	□	School
TT	Tea		

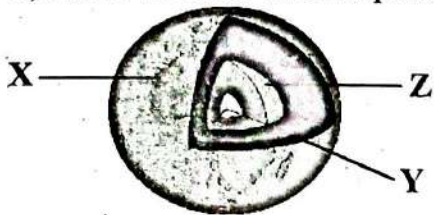

21. Which is the main economic activity practiced in Mumbi area? _____ (1mk)
22. Identify the type of settlement in Mumbi area _____ (1mk)
23. James walked from school towards the chief's camp. On which direction was he going to? _____ (1mk)
24. What is the religion of most people in Mumbi area? _____ (1mk)

25. Grade 7 learners had a project on setting a school weather station. Identify four factors considered when setting up a weather station. (4mks)

26. Grade 7 learners had a discussion on factors that led to the development of Indian Ocean slave trade. State three factors that they found out (3mks)

Use the diagram shown below to answer questions 27.

27. a) Name the three internal parts of the earth labelled X, Y and Z respectively. (3mks)

X _____

Y _____

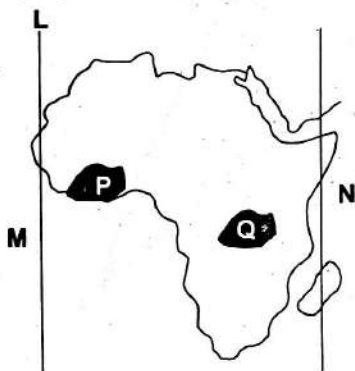

Z _____

- b) There are various theories that try to explain the origin of the earth. Identify and name the two main theories. (2mks)

28. Describe three ways of data collection used in fieldwork. (3mks)

29. Learners of Grade 7 from Bore Junior school invited Mr Kizito to explain sources of historical information. List three sources he described as source of secondary information. (3mks)

Use the map of Africa drawn below to answer question 30.

30. a) Identify the line of longitude where Africa lies marked M and N. (2mks)

M _____

N _____

- b) State two factors that led to the development of the early Kingdom marked Q. (2mks)

- c) Which among the following is the country marked P? _____ (1mk)
(Ghana, Senegal, Gabon, Libya)

31. List three methods of irrigation that were used in the early forms of Agriculture. (3mks)

SCHOOL BASED ASSESSMENT

JUNIOR SCHOOL

CHRISTIAN RELIGIOUS EDUCATION

GRADE 7 - 2025

JS2507

Time: 1hr 30mins

Candidate's Name:	
School Name:	
Candidate's Signature:	

Assessment Number:	
School Code:	
Date:	

SECTION A: (20MARKS)

- Grade 7 learners of Furaha school were discussing the reasons why they should study Christian Religious Education (CRE). Who gave the correct response?
 - Naliaka - To get good scores in assessments
 - Waweru - To become wealthy quickly through offering
 - Mwende - To grow spiritually and morally
 - Letim - To memorize Bible stories only
- Teacher Onyango and his learner were discussing creation. According to the first Biblical account of creation, God created human beings on the
 - second day
 - fourth day
 - fifth day
 - sixth day
- God gave human beings authority over animals in order to
 - use them without care
 - hunt them freely
 - care for and protect them
 - cage them always
- Zuena wants to extend his farm which is near the forest by burning it instead of clearing the bushes. What advice can you give that shows proper care for plants?
 - Burning forests
 - Planting trees
 - Cutting down all trees
 - Ignoring seedlings
- In grade 7, the learners of Muji Junior school learned that we should respect the Bible. Which one of the following is a function of the Bible?
 - Teaching immoral behaviour
 - Teaching us how to cook
 - Guiding Christians in right living
 - Providing farming knowledge
- During a CRE lesson the learners of Mawewa school used a digital device to carry out research on the books of the Bible. The Bible is mainly divided into
 - Law and Psalms
 - Prophets and Poetry
 - Old and New Testaments
 - Genesis and Revelation
- The coming of missionaries into Kenya kick-started the translation of the Bible into local languages. Between 1844 and 1850, Dr Ludwig Krapf translated some sections of the Bible into _____ language.
 - Latin
 - English
 - Kiswahili
 - Dhóluo
- Oyaro is a class governor. Which leadership quality can he emulate from qualities of Moses?
 - Arrogance
 - Disobedience
 - Courage
 - Pride

9. Jesus was born in the family of Joseph who was a descendant to
 - A. Uriah
 - B. Pharaoh
 - C. Saul
 - D. David
10. Grade 7 learners of Maweni school were discussing the attributes of God as per Biblical accounts of creation. Which of the following choices given is false?
 - A. He is orderly
 - B. He is the provider
 - C. He is the creator

SECTION B

21. a)

Quantity	Item	Price	sh.	ct
2kg	sugar	160 x 2	320	00
2	loaves of bread	120	120	00
1kg	cooking fat	@ 250	250	00
4 pieces	cabbages	@ 30	120	00
5 pkts	packet of milk	for 250	250	00
Total			1060	00

b) $4 \times 500 = 2000$
 $- 1060$
 $\hline 940$ sh. 940

22. $10000m^2 - 1ha$
 $18 \times 10000m^2$
 $\times = 180000m^2$

$\frac{1}{2} \times b \times h = A$

$\frac{1}{2} \times b \times 600 = 180000$

$\frac{300b}{300} = \frac{180000}{300}$
 $b = 600m$

23.

km	m
2	3 4 3
	5
10	1715
+ 1	1000
11	715

 $= 11km\ 715m$

24. Basic salary sh.15000

$\frac{4}{100} \times 60000 = 2400$
 $= sh.17400$

25. $30 \times 8 = 240$
 240×1000
 $= 240000ml$

26. $8 \frac{1}{4} \div \frac{1}{4}$

$\frac{33}{4} \times \frac{4}{1}$
 $= 33 \text{ pieces}$

27. $n, n+1, n+2$
 $n + n + 1 + n + 2 = 72$
 $3n + 3 = 72$

$\frac{3n}{3} = \frac{69}{3}$

$n = 23$

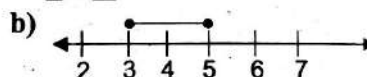

$\therefore 23, 24, 25$

28. a) 214Dm
 $214 \times 10 = 2140$
 $+ 2800$
 $\hline 4940$
 $= 4940m$

b) $16 \times 100 = 1600m$
 $1600 \times 2 = 3200m$
 $= 3200m$

29. Prime numbers
 29, 71, 97

30. a) $x \geq 3$
 $x \leq 5$
 $3 \geq x \leq 5$

ENGLISH PAPER 2

TASK 2: ORAL LITERATURE

- Trickster narrative because one animal tricks another for its own gain
 - Characters in the story are: The hare, buffalo, elephant and monkey
 - The hare pretended to be weak and requested for a ride on the buffalo's back yet its main intention was to eat the honey
 - Monkey is insensitive/callous/unsympathetic because he only enjoyed when the two animals were struggling. Instead of helping, he teased them by throwing twigs at them.
 - We should be honest. We should build sincere relationships, we shouldn't take advantage of other people's kindness
 - Ingeniously could mean skillfully/cleverly/craftily
 - The simile is: The two animals were now as weary as a worn-out shoe
- Task 3: POETRY**
- The poem has three stanzas with four lines in each
 - Rhyming words are: (clings, wings) (fear, clear)
 - Simile used is: With courage like the morning sun
 - Feat could mean achievement

TASK 4: NARRATIVE

- The hare and the fox
- Rabbit was determined/resilient/persistent/persevering
- Events take place in the forest
- The fox was anxious and suspicious at the same time of what the hare was up to
- Laden
- The fox is hesitant/complacent/stuck/lazy/because he didn't pursue further. And was not aggressive to look for a solution
- We should be wise when dealing with cunning friends, we should be determined and resilient in times of challenges until we get a solution

TASK 5: SHORT STORY

- Chebet hated the city because the people in the city seemed inhuman and ignored her when she needed their help. They did not care about others but only what they had
- Chebet's father had said the city was a nice place, and made everyone

beautiful

21. It means determination/strength
22. It was her first time to cross the road amidst many fast moving vehicles in the city
23. She is **optimistic** (looks at the good side of life) or **hopeful** (She believes that one day she will go back to school)
24. Antonym of plump is slender

SECTION B

21. - Use Strong Password and Two-Factor Authentication (2FA)
- Verify links and emails before clicking
- install and update security software
22. - Fire and electrical hazards
- Slip, trip and fall hazards
- Manual handling injuries
- Violence or assault
- Exposure to hazardous substances body
23. - Install strong physical security features
- Use lockable computer furniture or security cables
- employ alarm and surveillance systems
- limit access with controlled entry
- engage security personnel
- keep an updated inventory
- raise awareness among staff and students
24. wear appropriate safety gear
- avoid loose clothing or jewelry
- ensure proper ventilation and lighting
25. a) This is the ability of a computer to perform a wide variety of tasks, such as word processing, calculation, graphic design and data analysis without being limited to one function
b) This refers to the computer's ability to process and produce error-free results, provided the input and instructions are correct
26. **Technical drawing** is a precise, detailed and standardized representation used to communicate specific information about objects like machines, buildings or parts. It follows strict rules and measurements (e.g in engineering or architecture)
Artistic drawing is expressive and creative, used to convey emotions, ideas or visual impressions. It does not follow strict rules and allows for personal interpretation and style (e.g sketches, portraits or abstract art)
27. Mark lines that are correctly drawn with less error
28. **Computers** - used to create, send and receive emails, video calls, documents and presentations
Mobile phones - allow voice calls, text message (SMS) and access to the

internet for emails, social media

Internet - enables global communication through websites, emails, video conferencing and cloud platforms for sharing information in real-time

Social Media Platforms e.g

facebook - Used for sharing updates, photos and messages quickly with individuals or large groups

Projectors and Interactive

whiteboards - helps in communicating ideas visually during presentations, lessons or meetings

Email services (e.g gmail, outlook)

- used to send formal and professional messages, documents and attachments instantly over long distances

Video conferencing tools (e.g zoom, microsoft teams, google

meet) - allow real-time virtual meetings and communication between people in different locations during video and audio

29. **Metallic material:** Aluminium, copper, silver, steel, bronze

Non-metallic material: plastic, wood, leather, tuber

30. **Pencil** - for marking measurements on wood or paper

Scriber - for scratching lines on metal surfaces

Marking gauge - used in woodworking to scribe lines parallel to edges

Compass - for drawing circles or arcs during marking

Dot punch - used to make indentations on metal before drilling

31. 	Measuring the amount of time elapsed
	Measuring the size of a distance
	To mark the centre of a point to be drilled

32. **Hardcopy output devices**

produce physical, tangible outputs (e.g printed paper)

Softcopy output devices display output on a screen and are intangible (eg monitor or projector)

Hardcopy outputs are permanent and can be kept for future reference

Softcopy outputs are temporary and disappear when the devices is turned off
