HOLIDAY ASSIGNMENT BOOKLET NOV 2026

TOPICAL REVISION QUESTIONS

GRADE 7
MATHEMATICS
EXERCISE 1

Instructions to Learners.

Answer all the Questions in the spaces provided after each question.

QUESTIONS.

1. How many groups of hundreds are there in the value of digit 5 in the number 68573664)?
(2mks)

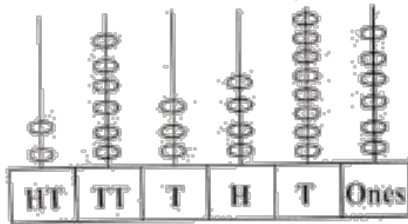

2. Write in words. 99,999,099 (2mks)

3. What are the next numbers in the sequence below? (2mks)
4, 9, 25, 49, 121, 169, _____, _____

4. Express 56 as a product of its prime factors. (2mks)

5. Work out the operation. (2mks)
 $124 - 18 + 36$
6. Work out the greatest common divisor of 18, 24, 36. (2mks)
7. Three bells ring at an interval of 15min, 30 min and 45 min. if the bells rang together at 9.00 am. Determine the next time they will ring together again. (2mks)
8. While learning about divisibility tests. Learner in grade 7 were given the following numbers. 679428, 3712104 and 242424. Which of the numbers is divisible by 3? (2mks)

9. Use the abacus below.

a.) Identify the number represented.

(1mk)

b.) Identify the digit with highest value represented in the abacus.

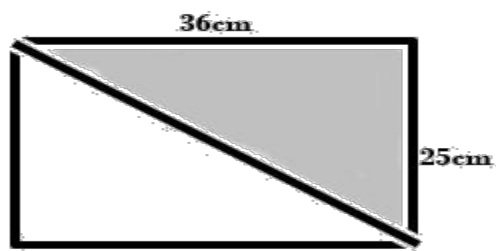

(1mk)

c.) If you round of the number in the abacus to the nearest thousand you get?

(1mk)

10. What is the area of the shaded region in the figure below?

(2mks)

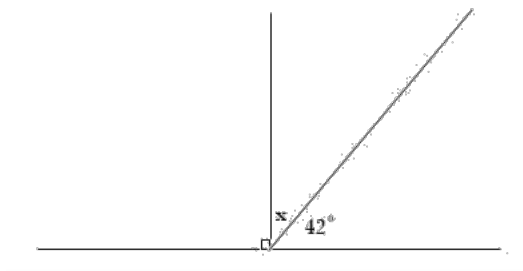

11. What is the sum of prime numbers between 10 and 20

(2mks)

12. Find the size of angle marked x .

(2mks)

13. What is 12.10 a.m. written in 24hrs clock system?

(1mk)

14. In the equation below, solve the value of y .

(2mks)

$$\frac{1}{2}y + 5 = 7$$

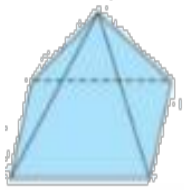

15. Jayson sold a computer at sh.17, 654. He had made a loss of sh.1387. How much had he bought the computer?

(2mks)

16. A butcher had 1300kg of meat. He sold $8\frac{1}{2}$ kilograms. How many kilograms of meat did he remain with?

(2mks)

17. Use the figure below to answer the questions that follow.

Number of faces_____ Number of edges _____Number of vertices_____ (3mks)

18. A family use 15 liters of water every week for drinking. Calculate the amount of water they drink in a whole year. (2mks)

19. In a class, 0.6 of the learners are girls. How many boys are in the class if the total number of learners is 40. (3mks)

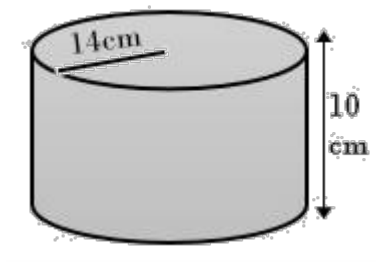

20. Determine the difference between the largest and the smallest numbers that can be formed from these digits. (3mks) 8, 1, 4, 5, 3 and 6

21. What is the smallest number that can be divided by 6, 16 and 28 without a remainder? (3mks)

22. Work out. (3mks)
 $140 + 90 - 30 \times 24 \div 6$

23. Determine the volume of the shape below.

(3mk)

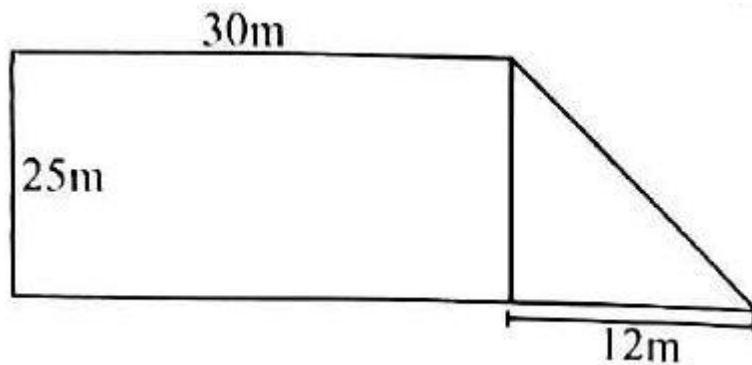

EXERCISE 2

SECTION A:

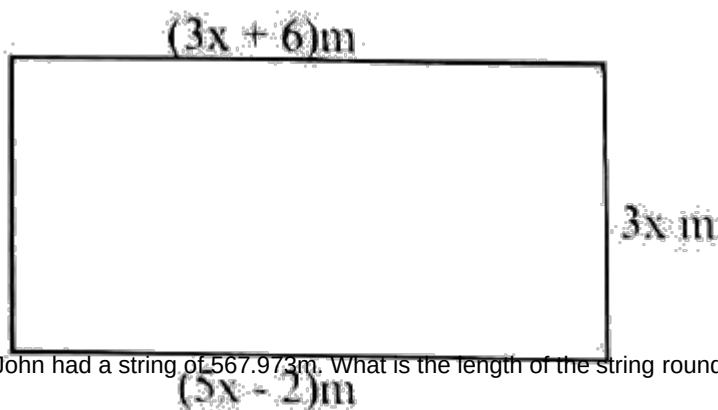

Answer all the questions

1. In a certain continent the population of newborn was 8766969 every year. What was the number in words? (1 mk)
2. Which is the least number that can be added to 4673 to make it divisible by 11? (1 mk)
3. Work out: $\frac{1}{2}$ of $96 \div 6 \times 3 + 2 - 1$? (2 mks)
4. The number of pupils in Kisasi sub-county was 69,578. What is the total value of the digit 6 in the number? (1 mk)
5. Write down the next fraction in the following sequence: $\frac{3}{4}, \frac{5}{8}, \frac{1}{2}, \frac{3}{8}, \underline{\hspace{1cm}}$
6. A truck was loaded with 500 cartons each containing 40 tins of cooking oil. If each tin was weighing 20kg, What was the total mass of the cooking oil in tonnes? (2 mks)

7. What is the area of the figure below? (2 mks)

8. Mr. Kinyanjui, a dairy farmer, stored milk in three containers of 30 litres, 36 litres and 60 litres. The milk in each container was then repacked by his salesman into smaller containers. The amount of milk in each of the smaller containers was the same. What was the capacity of the largest container used to repack the milk? (2 mks)

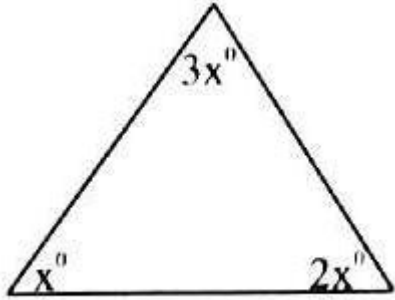

9. John had a string of 567.973m. What is the length of the string rounded off to the nearest tenths? (2 mks)

10. The grade 7 classroom at Mawimbi Junior school measures 9.6m by 4.4m. How many square tiles of length 0.2m will be needed to cover the floor completely. (2 mks)

11. An athlete ran round the figure below thrice. What distance did he cover in metres? (3 mks)

12. Otieno has a rectangular plot of land measuring 36m by 16m. Carolynne has a square plot equal to Otieno's plot. What is the length of each of the side of Carolynne's plot of land? (2 mks)
13. Juma earns a monthly salary of kshs. 12,000. He spends $\frac{1}{3}$ on food, $\frac{3}{8}$ on rent and uses the rest on transport. How much does he spent on transport? (2 mks)
14. Shantel bought the following items:
- 3 kgs of meat for shs. 2100*
- 3 bars of soap @ shs. 135.00*
- 2 packets of tea leaves @ shs. 70.00*
- 4 pencils @ shs. 20.00*
- If she paid using three-one thousand shilling notes, what balance did she get? (2 mks)
15. A pick-up was loaded with 22 bags of sugar. The total load of sugar and the pick-up is 6.4 tonnes. What is the mass of each bag of sugar in kilograms if the pick-up alone weighs 2 tonnes? (2 mks)
16. Find the difference of the total values of the digits in the tens of thousands and hundreds in the number 896752. (2 mks)

17. In the triangle drawn below, find out the size of the largest size. (2 mks)

18. Mr. mwamburi would like to fence his rectangular piece of land measuring 70m long and 30m wide. If the fencing was to be done with 3 strands of wire, calculate the length of the wire to be used. (2 mks)

19. A circular wheel has a diameter of 42cm. What distance in metres does it cover when it makes 80 revolutions?
($\pi = \frac{22}{7}$) (2 mks)

20. A sports meeting began at 0945hrs. it took 2hrs 30 min. At what time in 12 hour-clock system did it end? (1 mk)

21. Simplify the inequality: (1 mk)

$$P \div 5 > 45$$

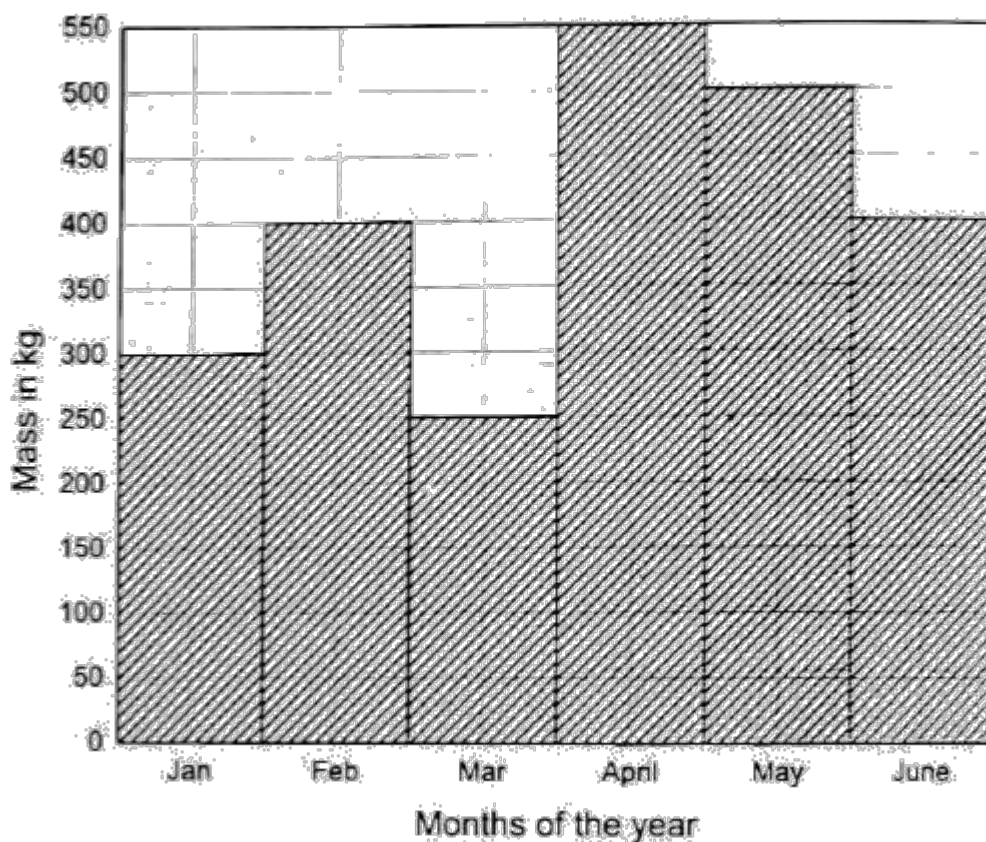

22. The table below shows the favourite sports chosen by grade 7 learners.

Type of sport	No. of learners
Football	17
Basketball	10
Hockey	11
Netball	20
Swimming	35

How many more learners chose swimming than football? (2 mks)

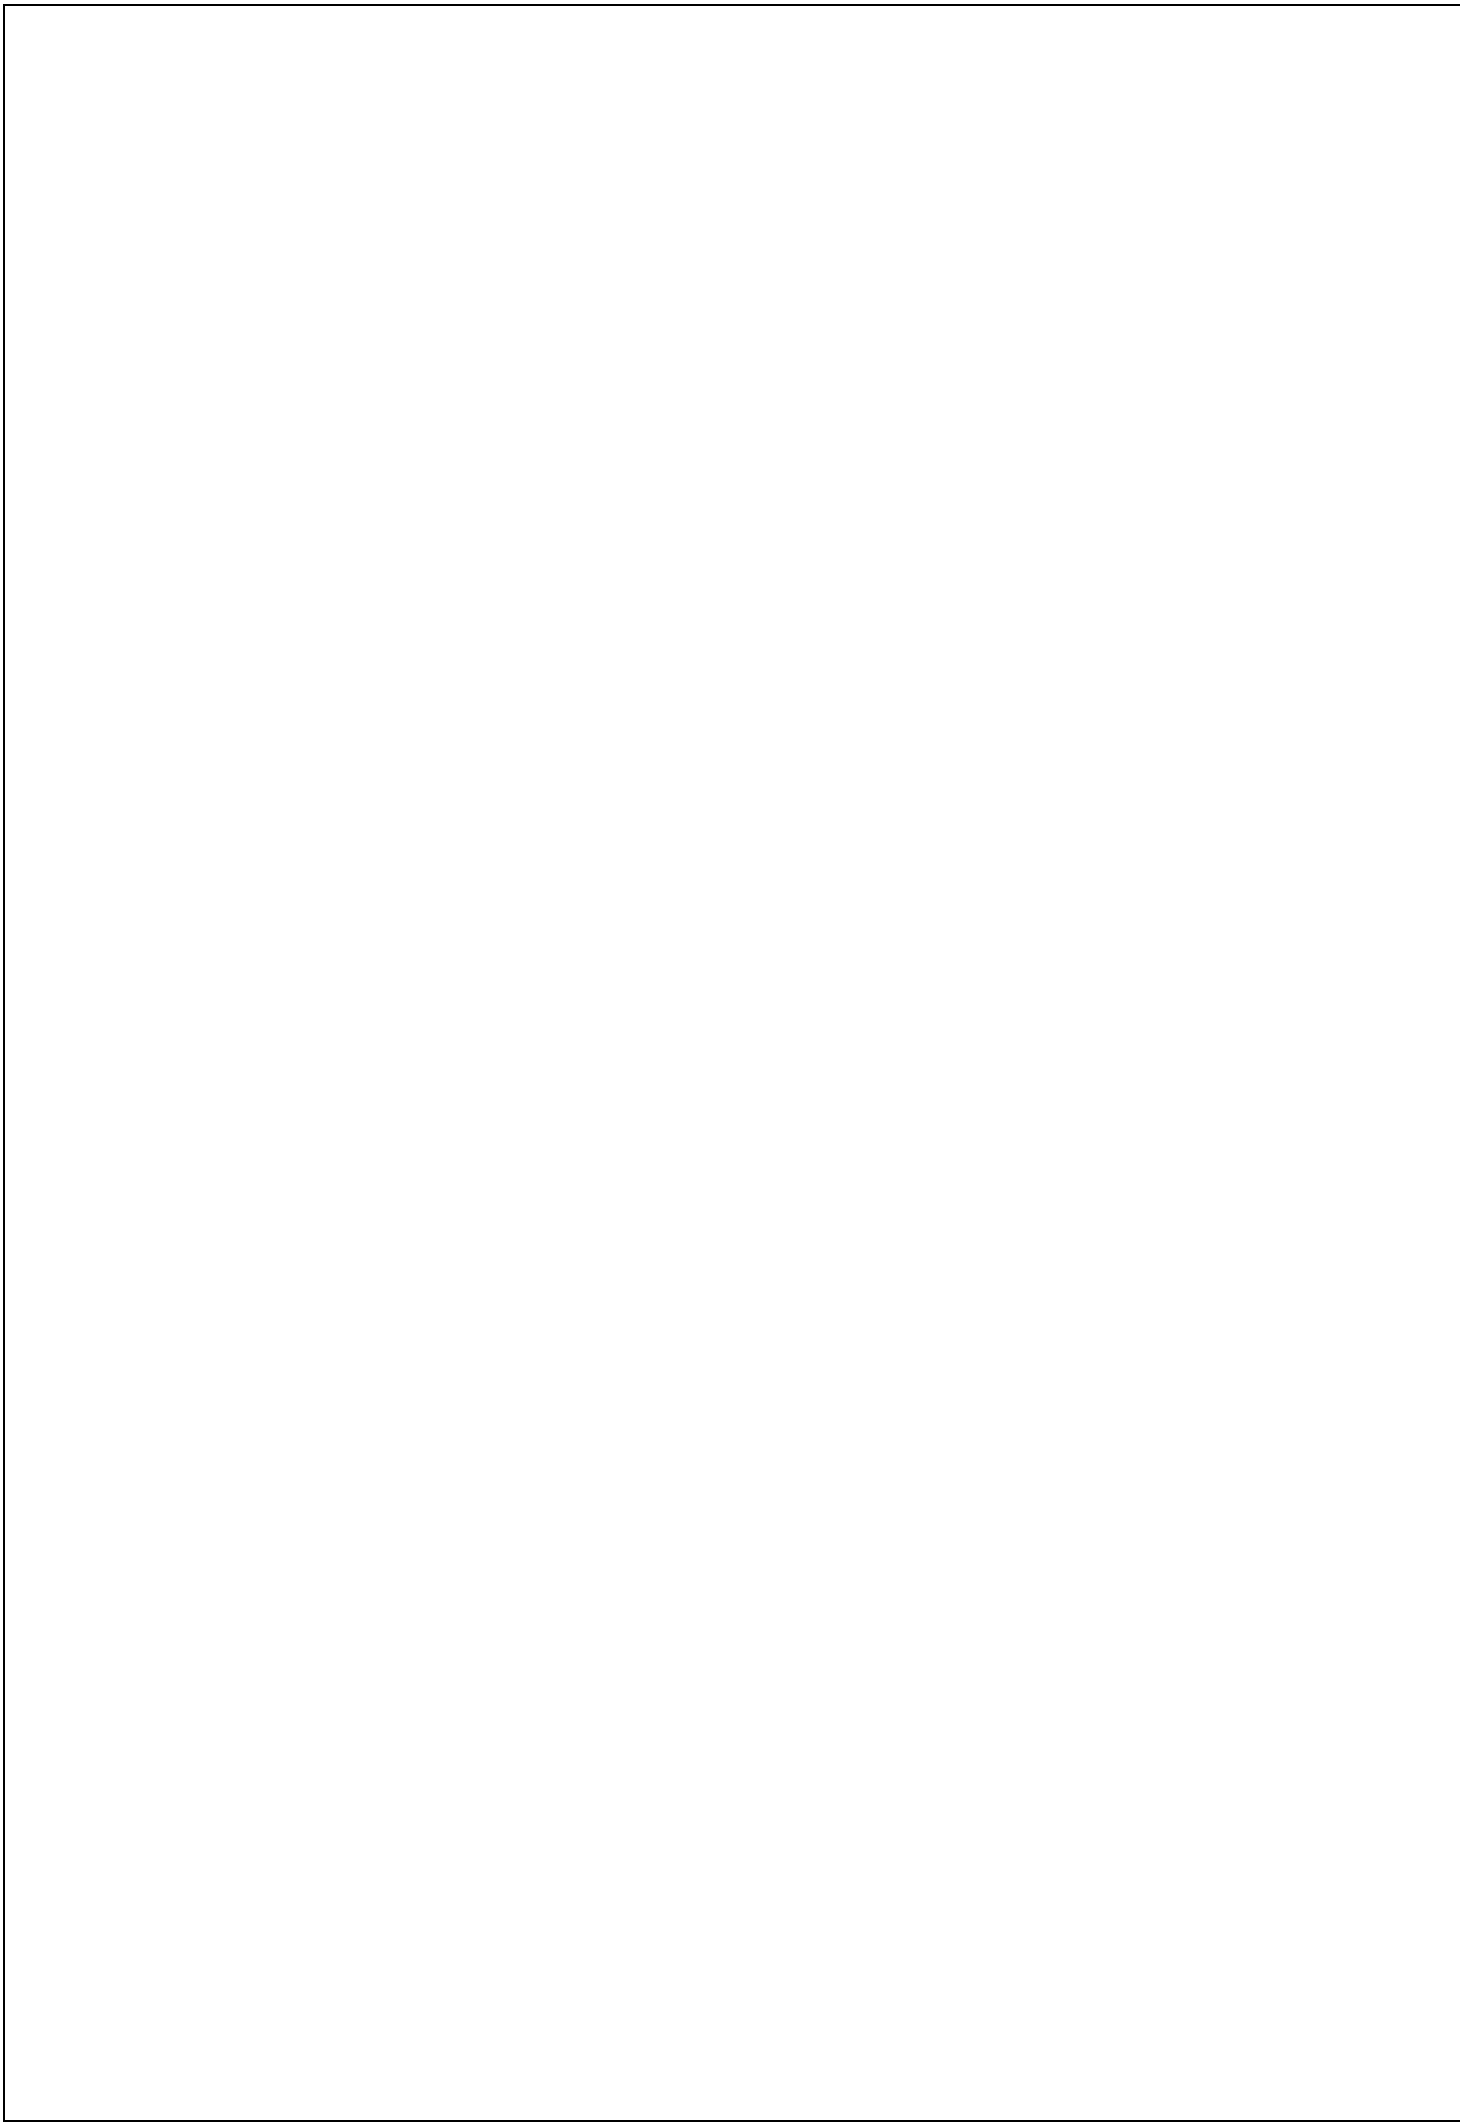

23. Michael is y years old. His son is 16 years younger than him. Write an algebraic expression for the sum of their ages after five years. (2 mks)

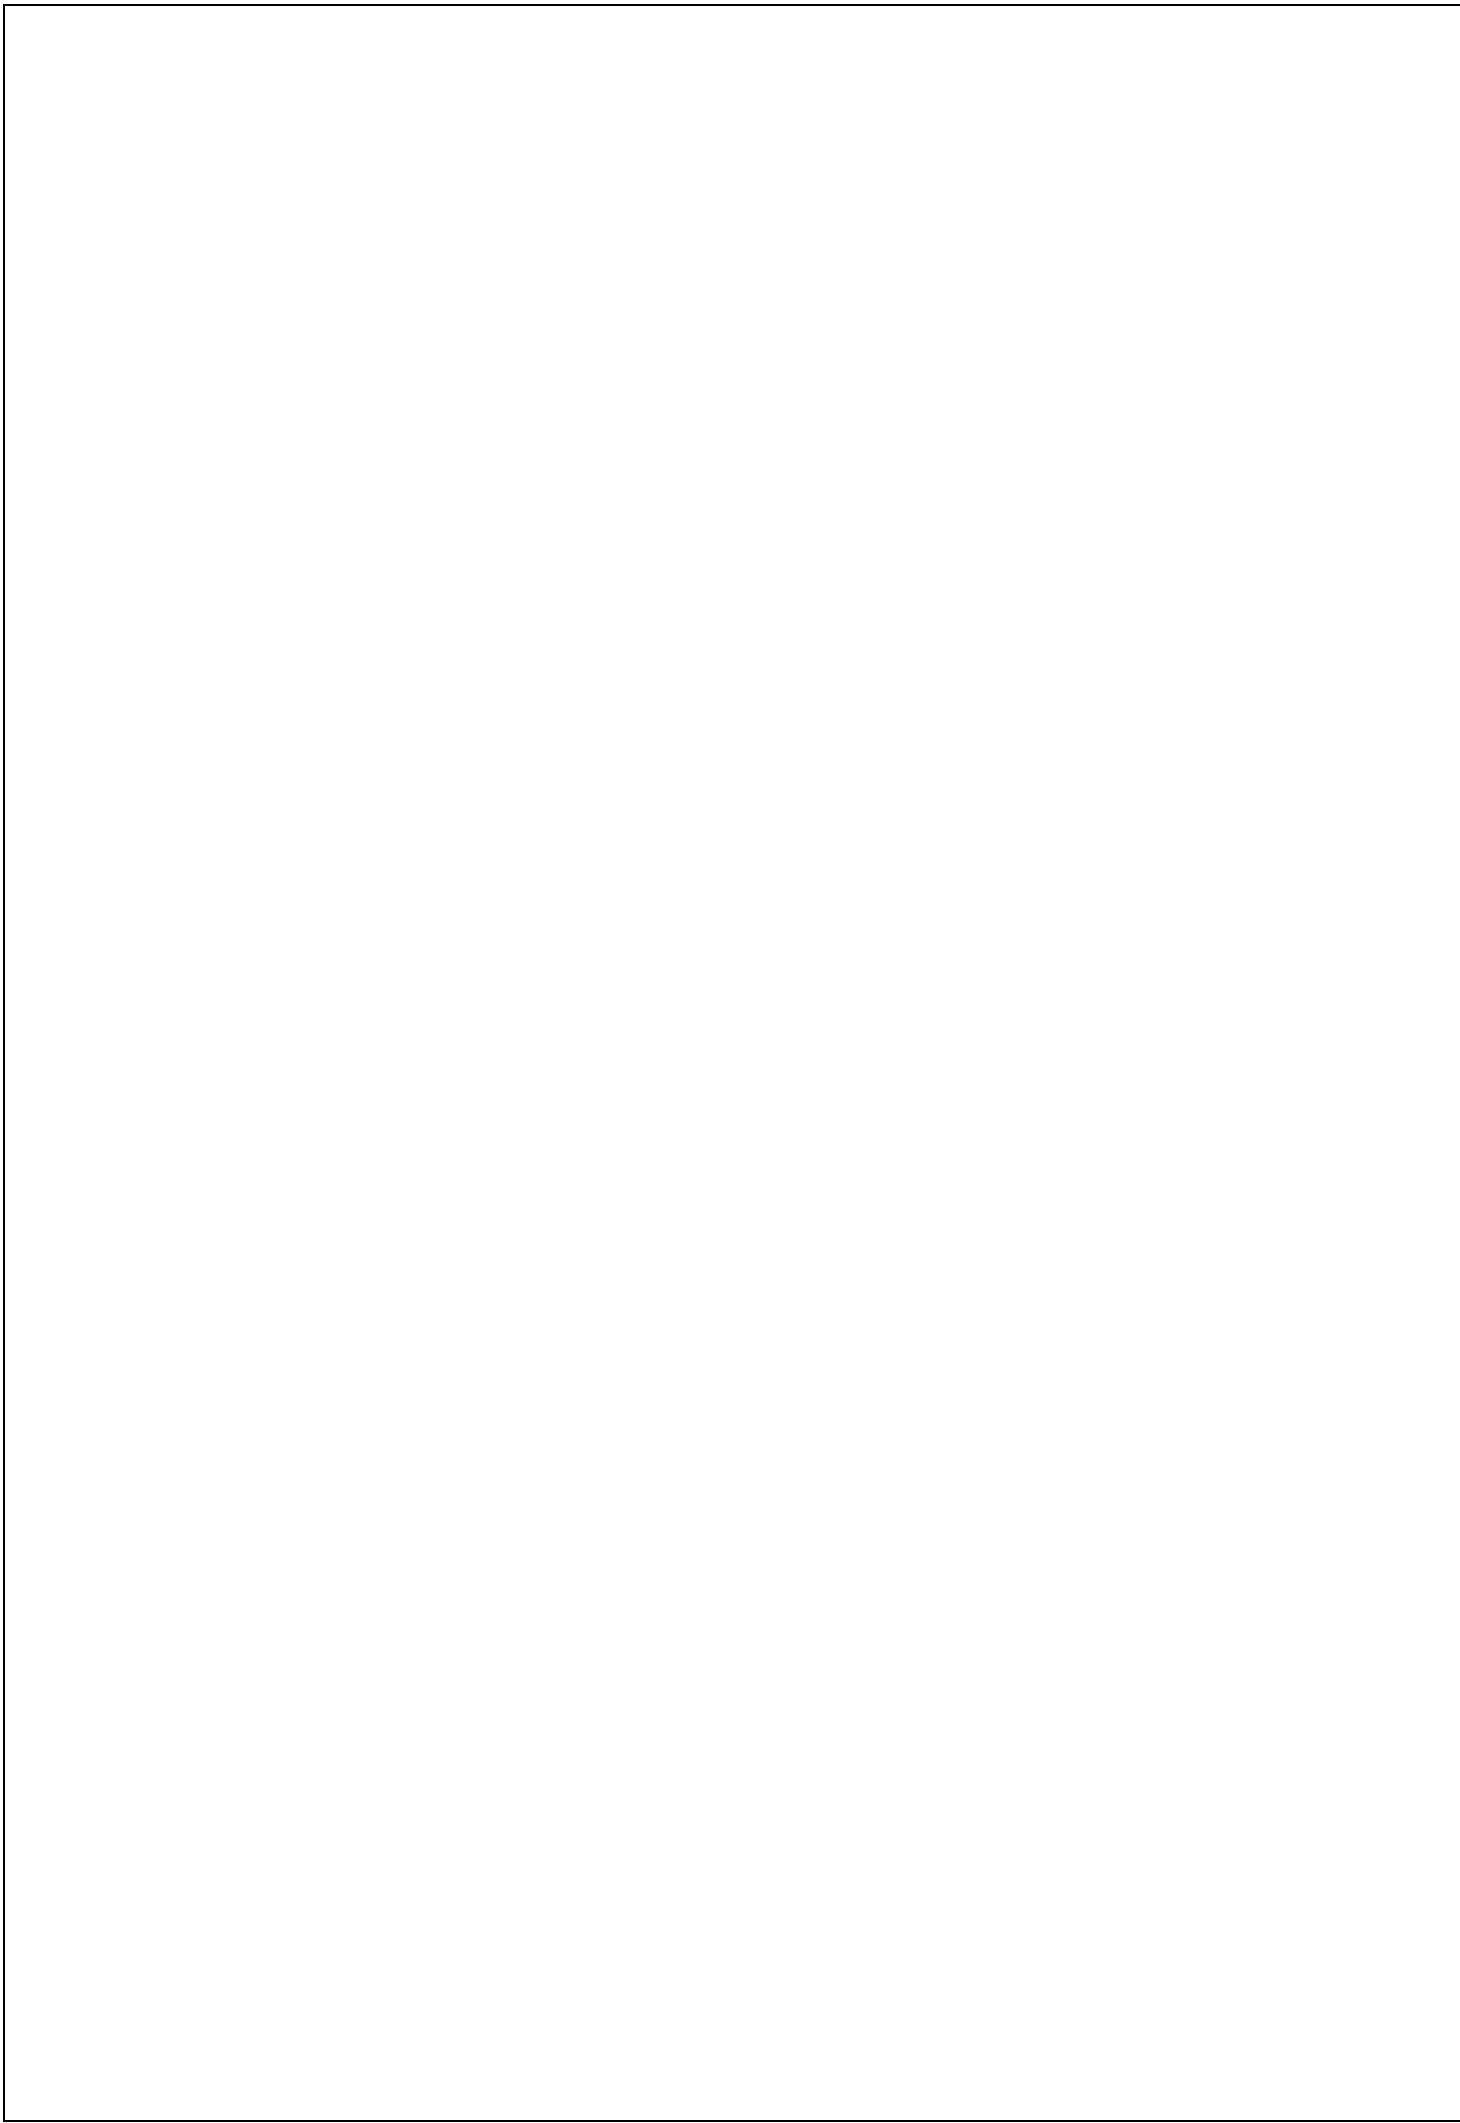

24. Mr. Mackenzie a Mathematics teacher at Hekima Junior School asked his students to collect 4 sticks of equal length. They made a square using the sticks. If the square covered an area of $2\frac{1}{4} \text{ m}^2$, what was the length of each stick. (2 mks)
25. A trader sold a microwave at shs. 12500 making a profit of shs. 3450. What was the buying price of the microwave? (2 mks)
26. Nisha had $\frac{3}{4}$ of baking flour. She used $\frac{2}{3}$ of it to bake a cake. What fractions of the kilogram of flour was used to bake the cake? (1 mk)
27. The bar graph below shows the mass in kilograms of maize harvested by farmers at Kakitu village plotted against the month of the year. Use it to answer questions 28 and 29.

(28). What is the difference between the mass of maize in kilograms harvested for the highest month and the lowest month? (1 mk)

(29). What was the total mass of maize in kilograms harvested for the six months? (1 mk)

EXERCISE 3

1. What is the product of the prime number between 80 and 90. (2mks)

2. Round off 785654936 to the nearest hundreds of millions. (2mks)

3. Work out: (2mks)

$$\begin{array}{r} 3 \quad 7 \quad 9 \quad 4 \\ \times \quad 8 \quad 2 \\ \hline \\ \hline \end{array}$$

4. Work out the following: (2mks)

$$57 + (54 \div 6) - 18$$

5. Find the sum of the following two numbers in the sequence below. (2mks)

5, 16, 34, 59, 91, _____, _____

6. Express 54 as a product of its prime factors (2mks)

7. Determine the reciprocal of $6\frac{1}{8}$ (2mks)

8. The capacity of a tank is 56.304 litres. Find the total value of zero. (2mks)

9. Work out 6.78×17 .

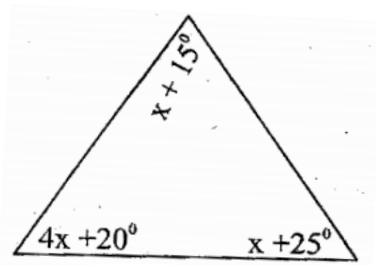

(2mks)

10. How many times is the total value of digit 5 greater than the total value of digit 2 in the number 1435629. **(2mks)**

11. Simplify the expression $6(4a + 3b) + 9(2a + 5b)$

(3mks)

12.

a.) Form an equation to determine the sum of the interior angles in the triangle above. **(2mks)**

b.) Find the value of x

(3mks)

13. The area of a piece of land whose length is 19.06 m is 98.159m^2 . Calculate the width of the land. **(3mks)**

14. Work out:

(2mks)

$$8.032 \div 2.51$$

15. A car travelled a distance of 180km in 3hour. What was the speed of the car in m/s? **(3mks)**

16. Jillian calculated the circumference of a circle and found it to be 13.2 cm. What radius did Jillian use in the calculation? **(3mks)**

17. A box was tied using a string 3m 85cm long. Another box was tied with a string 4m 75cm. what is the total length of the string used to tie the boxes. **(3mks)**

18. A plumber charges sh.**p** per hour. Write an expression for the total cost of:
a.) A job lasting for 3.5 hours. **(2mks)**

b.) In a certain day he carried out three different jobs as follows.

First job for 2 hours.

Second job for 5 hours.

Third job for q hour.

Determine the total amount he made that day. **(3mks)**

19. Onyango draw a rectangle whose length was 32cm and width was 8cm. Determine the length of a square he would have drawn which has same area as the rectangle. **(3mks)**

ENGLISH

EXERCISE 1

(SECTION A) SUMMARY WRITING.

Violence negatively affects a child's interactions. A child interacts with family members, peers, schoolmates, neighbours and other groups. A break in these connections interferes with a child's normal development.

Children often internalize their fear. They may feel anxious, depressed or stressed. Some act out and become more aggressive. They may consider as normal. Boys are more likely to be more aggressive, impulsive or antisocial than girls when exposed to violence. Studies have shown that girls tend to internalize emotions as anxiety and depression.

Persistent and excessive fear of losing a caregiver in an accident or disaster is a common reaction to trauma. The child becomes restless and does not want to be separated from the caregiver.

Media messages of anxiety and calls for peace may bring back their worst memories. They could become anxious whenever elections take place. Studies show that the effect of violence on a child's future psychological well-being depends on their age, coping mechanisms, and cognitive and verbal abilities.

A climate of fear and uncertainty can trigger psychological distress for all people. However, children are more vulnerable because graphic images shape their developing brains, leaving effects that last into adolescence and adulthood.

1. Write a summary on the effects of post-election violence on children. (10mks)
Your summary must not more than **75 words**.

[illegible]

2. CLOSE TEST

(10mks)

Jill was walking to her class slowly. She was worried **1**_____ the History test she would have to **2**_____ that morning. As she was reaching the classroom, a piece of paper suddenly fluttered down and **3**_____ near her feet. As Jill glanced down at the paper, her heart nearly **4**_____ a beat. It was the History test paper complete **5**_____ answers !

Jill's very first thought was not to **6**_____ anyone about what she had found. She would memorize **7**_____ the answers and do extremely **8**_____ in the test. After some hard thinking, however, she knew that it would be a very **9**_____ thing to do. Besides, it would not be **10**_____ to her classmates. In the **11**_____, Jill returned the paper to her History teacher, Miss James.

For question 3 to 5 write the correct question tags. (3mks)

3. They have completed the task. _____
4. Let us do the assignment _____
5. None of you understood the question _____

In questions 6-10 write another word that has same pronunciation as the one given. (5mks)

6. Bare _____
7. Cell _____
8. Eight _____
9. By _____
10. Flour _____

Change the following sentences into plural.

11. The small sheep was injured by an ox. (2mks)

12. He was advised by the chief. (2mks)

13. This is a different variety of vegetable. (2mks)

Write a sentence that has the following.

14. An adjective. (2mks)

15. An adverb. (2mks)

16. A pronoun. (2mks)

Use correct conjunctions o complete the following sentences.

17. We didn't have much food _____ we managed to feed the students. (1mk)

18. The workers are _____ tired _____ hungry. (1mk)

19. _____ yesterday the demonstrations have not stopped. (1mk)

Use the correct word in the bracket to complete the following sentences.

20. Use of drugs _____ cause respiratory diseases. (1mk)
(should, must, can)

21. Excuse me, _____ I just say something? (1mk)
(could, should, must)

COMPREHENSION PASSAGE.

Read the passage below and use it answer the questions that follow.

It is important to ensure that water we drink is safe. Usually, in gatherings such as parties, weddings, funerals, official meetings and other ceremonies people are served bottled drinking water. This is purified water that is packed in branded bottles and sold.

This has become fashionable over time. Bottled water is highly regarded because people assume that it is safe for drinking. This type of water is **portable**. This means that you can carry it around. Bottled water can be stored for a long time. Unlike tap water, the quality of bottled water is more likely to be of high quality because the government controls how it is produced

and packaged. This ensures it is of high standard and safe for the citizens to use. In Kenya, this work is done by KEBS-Kenya Bureau of Standards who ensures that all products that are produced to use are of high standards and are very safe.

However, not everything about bottled water is positive. In the first place, empty plastic bottles are a real health hazard in that they pollute the environment. Bottled water is also more expensive than tap water. Interestingly, bottled water can just be tap water. Greedy people can just pack tap water in bottles and claim it is safe for drinking. We should be careful about the water we drink.

Unbottled water can be treated and used for drinking. This means you wont spent on buying water any more. We can also carry home treated water in bottles and use it when we are travelling or going places that are far from home. This method is cheap as no spending is required.

Water can be treated using different methods such as chlorination. In this method chlorine is added to water to kill germs. Boiling is also a better method as well. It kills dangerous disease-causing microorganisms in water which could cause disease.

Drinking dirty water can cause disease such as cholera, typhoid, dysentery and diarrhea.

QUESTIONS.

22. According to the passage, give two disadvantages of using bottled water. (3mks)
.....
.....
.....
23. Identify four areas where bottled water is mostly served to people. (3mks)
.....
.....
.....
24. How can water be made safe for drinking. (2mks)
.....
.....
.....
25. Bottled water is portable. What do you understand by that from the passage? (1mk)
.....
.....
26. How does the government of Kenya ensure products produced in the country are safe for use by Kenyans?(1mk)
.....
.....
27. List down four water borne diseases according to the passage. (4mks)
.....
.....
.....
.....
28. Why is bottled water highly regarded. (1mk)
.....
.....

Read the following poem and use it to answer the questions that follow.

The owner of the yam peels his yam in the house.

A neighbour knock at he door.

The owner of the yam throws his yam in the bedroom:

The neighbour says, "I just heard

A sound, kerekere, that's why I came.

The owner of the yam replies,

"that was nothing I was sharpening two knives"

The neighbour says again, "I still heard

Something like *bi* sound behind your door."

The owner of the yam says,

"I merely tried my door with a mallet."

The neighbour says again,

"what about this huge fire burning on your hearth?"

The fellow replies,

"I am merely warming water for my birth."

The neighbour continuous,

"why is your skin all white, when this is not the Harmattan season?"

The fellow is ready with reply,

"I was rolling on the floor when I heard of the death of Agadapidi"

Then the neighbour says, Peace be with you."

Then he owner of the yams starts to shout, "There cannot be peace

Unless the owner of the food is allowed to eat his own food!"

(From Yoruba Poery 1970, Cambrifeg University Press by Proffessor Ulli Beier)

- a.) How many stanzas and lines does the poem above have (2mks)
-
- b.) Who is the writer of the poems above. (1mk)
-
- c.) How can you describe the behaviour of the owner of the yam. (2mks)
-
- d.) What title is best for the poem. (1mk)
-
- e.) What is the poem about? (2mks)
-
- f.) Who is the persona in the poem. (2mks)
-
-

EXERCISE 2

1. Section A

TASK 1: READING COMPREHENSION

Read the story below and then answer questions 1-5.

The train arrived ten minutes later. The famous Madaraka Express was pretty new with an attractive combination of the colours of the national flag. I felt very proud and excited about the train and anticipated how wonderful the travel would be.

Since it was my first time travelling by train as well as visiting Mombasa city, I took the moment to watch the passengers board the train and take their respective seats. After I gained a little confidence, I boarded the train before its departure time.

I boldly and eagerly looked for a seat but there was too much movement making me wait for the situation to settle. Finally I found my seat and without further ado, the train started moving and we left the situation.

What enthralled me was the sound that the train made. I had only heard and seen this on movies but now it was happening in reality. The long, giant snake accelerated and all I could see were trees moving backward. From where I sat I could see the panorama very clearly. The nature was extremely beautiful. I beheld plains, valleys and jungles as I enjoyed the rhythm of the moving train. I grabbed the snacks I had carried with me and started to enjoy the journey. I talked to other passengers in the train and they told me about their own experiences. They told me to hold my horses since the destination was still a few hours away. I made myself more comfortable and the journey continued.

(1). What made the writer look forward to the journey? (1 mk)

(2). When did the writer gain some confidence? (1 mk)

(3). Write down two examples of personification used in the story. (2 mks)

(4). What shows in the passage that the write was social? (1 mk)

(5). Give the correct meaning of the expression "hold my horses." (2 mks)

2. Read the following story and then answer questions 6-9

When his wife died of an unknown disease, Chief Kitonga married a second wife. She was arrogant and proud but the chief loved her though. She came along with the two daughters of her own who were just like their mother. Chief Kitonga's only daughter was as beautiful as a rose. Her goodness and sweetness had no equal. The mean stepmother got more and more jealous of her beauty which made her own daughters appear unattractive. So she gave her all odd and hard work of the house. Her daughters slept on nice beds and wore the latest fashion. The poor girl bore it patiently and never told her father. When she was done with her work, she would go to the chimney and lie there in the warm ash plaiting her long, silky hair. It happened that the governor's sons were throwing a party and invited persons of fashion. The chief's stepdaughter's were invited and on that day, clad in their best dresses and left for the party. The chief's real daughter sat down and cried bitterly.

A fairy saw her and felt pity. "You wish you could go to the party?" The fairy asked.

"Yes," the girl answered tears rolling down her beautiful face.

The fairy chanted a few strange words and a chariot appeared out of the blues. Moreover, the fairy touched her shabby dress which turned into a golden dress at the same instant and on her feet, a pair of glass sandals. She looked stunning! She was given instructions to leave the party before midnight or else the chariot would just disappear.

Everyone in the party stood still when she entered through the gate. The governor's sons gave her the most reputable welcome and called her to sit with them. Her stepsisters would hardly recognize her, even after smiling at them

several times. One of the governor's sons proposed to her and she accepted. A grand wedding was announced in two weeks time. It was unbelievable to both her stepmother and stepsisters. (Adapted from 'Cinderella by Charles Perrault)

(6). Why did chief Kitonga's second wife mistreat her stepdaughter? (1 mk)

(7). Using an example, show how the chief's daughter suffered silently. (2 mks)

(8). How do you think the chief's daughter felt when her stepsisters left for the party? (1 mk)

(9). Mention two things that made the chief's daughter look extremely attractive. (2 mks)

(10). What do you think was unbelievable to the chief's wife and her daughters? (1 mk)

3. Oral literature and poetry

Read the story below and then answer the questions that follow.

Once upon a time, wild animals lived together in a thick jungle. They never wandered out of the big thick forest. One day, they came across a very strange object. It was a man's boot. But they had never seen such a thing before.

"I am sure it's the shell of a fruit," said the bear.

All the animals wondered what it was. As they sat around it they aired different opinions.

"No," said the monkey who was sniffing and going around the boot. Pointing at the long, leather laces he

said, "look here, these are roots. So it's a plant."

The wolf finally said, "neither of you is right. Can't you see it's a nest? Here is the entrance through which the birds enter to lay their eggs."

A bird, sitting on a nearby tree, was listening to their argument. She said, "It is not a nest. I've been to many places and to a land where men live, and this thing you see is called a boot. Men wear it on their feet. We should find out how it came here. Maybe some hunters are here, in the jungle. It can be dangerous for us all." Saying this the bird flew away.

(11). Mention three ways the boot was described by the different animals in the story. (3 mks)

(12). The characteristics in the story are similar to human beings in that they are (1 mk)

(13). Describe the bird in two words (2 mks)

(14). Why did the bird offer the correct solution to the argument? (2 mks)

Read the poem below and then answer the questions that follow: The Little Plant by Kate Brown

In the heart of

a seed, Buried

deep so deep,

A tiny plant lay fast

asleep "Wake,"

said the sunshine

"And creep to the

light."

"Wake," said the voice Of the

raindrops bright The little plant

heard

And it rose to

see What the

wonderful

Outside world

might be.

(15). Where is the tiny plant lying fast asleep? (2 mks)

(16). What is the sunshine's message to the tiny plant? (1 mk)

(17). Identify two pairs of rhyming words used in the above poem. (2 mks)

(18). Mention the voices that provoked the little plant to rise. (2 mks)

4. Read the extract below and then answer the questions that follow.

I had just arrived in this new school and to my shock the school signboard was missing. A whole signboard, you know? The one that has the name of the school and contact details. That signboard. The two steel frames that would hold it in place were still standing tall - conspicuously empty - outside the gate. Meanwhile, the afternoon sun was drilling fiercely through my head.

(19). What shocked the writer in this extract? (1 mk)

(20). What information is contained on a school signboard? (2 mks)

(21). What time did the writer arrive at his new school? (1 mk)

(22). Identify from the extract the evidence of the missing signboard. (1 mk)

5. TASK 2 GRAMMAR

Fill in the blank spaces in the sentences below using the correct form of the word in brackets.

6. My sister bought a _____ Chihuahua puppy. (friend)

7. It is very _____ to meet a stranger alone. (danger)

8. The explosion at the gas station was _____. (terror)

9. Arnold is such an _____ gatekeeper. (annoy)

10. Grandma is a _____ woman especially when we have visitors. (talk)

11. Replace with the words in brackets with the correct

adverb. The company usually holds a general

meeting _____ (every year)

12. He was told to see the headteacher _____. (at once)

13. The shopkeeper held the box _____. (with care)

14. I saw the cat approaching a rat _____. (without making any noise)

15. Fill in the blank spaces with the correct form of the verb given in the

brackets. They have already come and _____ their assignment. (take)

16. Have the doves perching on that tree _____ away? (fly)

17. He got in the car and _____ at an insane speed. (drive)

18. Fill in the blank spaces with the correct alternative given in the

brackets. The girls and _____ decided to form a netball team. (us, we, ourselves)

19. You either board the train _____ travel by us. (and, or, but)

20. The butcher is _____ honest man. (the, a, an)

21. The game was put _____ due to ongoing bad weather. (down, on, off)

22. COMPOSITION

Write a narrative composition beginning with the

following:

When the bus finally came.....

EXERCISE 3

SECTION A SUMMARY WRITING.

Use the following polite expressions to write a short dialogue. Imagine you are meeting the person for the first time.

- i. Good morning.
- ii. I'm fine thank you.
- iii. Its nice to meet you.
- iv. Have a good day.

Complete the dialogue: use your own words (10 marks)

Assume you are Mary and the person is Mrs. Aliman. Look at the example below.

Mary: Good morning, madam? I am MaryAnn.

Mrs: Aliman: Good morning Mueni, I am mrs Aliman. I think I have lost my way to the Supermarket. Could you please give me direction.

Mrs Aliman: _____

MaryAnn: _____

Mrs Aliman: _____

MaryAnn: _____

Mrs Aliman: _____

SECTION B: COMPREHENSION PASSAGE

Read the passage below and use it to answer the questions that follow.

Corona virus is a dangerous disease that causes illness. It is transmitted between two people who are very close. Common signs of infection include sneezing, fever, dry cough, headache and breathing difficulties. In more severe cases, infection can cause pneumonia, kidney failure or even death.

The virus was first detected in China but it has now spread through out the world. Everybody is now at risk of contacting covid-19 as it is known. To prevent the infection from spreading, sanitize your hands and wash them with soap and running water regularly. Wear a mask while in public places. Cover your mouth and nose with disposable tissue when coughing. Avoid close contact with anyone showing symptoms of respiratory illness such as coughing.

Together we shall defeat covid if we join hands and follow what the ministry of Health says. Already we have done it. Nowadays no covid infection. We are on the right track.

1. According to the passage, Corona virus causes (1mk)

2. Write any true statement about covid-19 according to the passage. (2mks)

3. Explain how Corona virus transmitted? (2mks)

4. Write down three ways by which one can prevent Corona virus from spreading (3mks)

SECTION C: GRAMMAR (30 Marks)

Read the following passage below and use it to answer questions 5 to 12. For each blank space choose the best alternative from the choices given.

The importance of literature in society can not _5_____ over emphasized. It is through it that we record _6_____ history and culture for _7_____. Headteachers and language teachers _8_____ also inspire dormant writes clubs in _9_____ respective schools. Efforts to _10_____ students talents have failed in 1996, the Government _11_____ the Kenya Educational performing Arts foundation.

19. Fill in the blank with the correct form of the word given in brackets. (2mks)

- a.) Moraa is _____ she wants to become a pilot. (ambition)
- b.) I am looking for a _____ corner to read my storybook. (peace)

SECTION D: LITERATURE.

POETRY

Read the poem below and use it to answer the questions 19 to 23.

It was his first time on a train,

His excitement was beyond belief,
All the stories he had heard,
Would become a reality right away.

The passage through the rolling gates,
The body-search by the calm security officer,
As he held onto his mother's hands,
Wondering why it was taking too long,
To board the wonder train.

The announcement booms over the hidden microphone.
They stream into the specious coache
Seats facing each other across
Wondered why some were facing backwards.
The final blast of the loud whistle,
And off the train went,
As objects disappeared faster and faster
Am all on board appeared calm and rely

19. Give the poem a suitable title. (1mk)

20. From the passage, identify the characters in the poem. (3mks)

21. State the role played by each identified characters in the poem. (3mks)

22. What does the person/ yourself think about this means of transports. (1mk)

23. Give a reason for your answer in question in 22 above. (2mks)

THIS IS THE LAST PRINTED PAGE.

Chagua jina au majina mwafaka kujaza mianya kwa kuchagua kwenyewe kijisanduku hiki.
(alama 5)

Baridi, maji, lile, katikati, yule, kumtisha, mara tu,
umati, halaiki, chupa, kaka moto,

Kwa kweli dawa ya moto ni _1_. Jambazi _2_ lilikuwa tayari
3 mwenye duka ili limpore mali yake yote. _4_
lilipoingia, lilimwonyesha bastola na kumwamrisha alale chini. Punde si punde _5_
wa watu ulivamia jambazi lile na kuliua papo hapo.

Soma kifungu kifuatacho kisha ujibu maswali.

Inasikitisha kuona yakwamba visa vya uhalifu vinazidi kuongezeka katika taifa letu kila uchao. Wahuni wanashiriki katika visa hivi bila kujali athari na maafa wanayosababisha.

Hebu vuta taswira uone jinsi uhalifu unavyosababisha hasara chungu. Watu hupoteza maisha yao. Mathalani uhalifu wa magaidi ambao hulipua majumba makubwa pasi kujali wala kubali huwafanya wengi kulala usingizi usiojua asubuhi. Watu wenye taaluma hujificha tu kama nzige waliopuzwa dawa. Watu hawa huendesha uchumi wa nchi. Wao ni kama kitegauchumi.

Tazama mali ambayo huharibiwa majumba yale yanapoporomoka au kuteketea.
Hayahesabiki wamiliki wa mali hiyo hubaki mdomo achama wayaonapo yamebaki majivu.

Utakubaliana nami kuwa jambo hili linaatua moyo. Uhalifu sio tu wa magaidi, kuna wizi, ubakaji, udanganyifu nikitaja machache tu.

Basi tufanyeje kama wanainch kuukomesha halifu huu ? Tuungane mikono maana jifya moja haliinjiki chungu. Tueleze wakembe wetu maadili bora tangu wakiwa wana kwa kuwa kambarare mkunje akiwa mbichi. Nao watazifuata nyendo nyoofu hata wakibaleghe. Wanaokaidi amri, waadhibiwe mapema tusije tukajenga ukuta badala ya kuurekebisha ufa.

Maswali.

Kulingana na taarifa, kwa nini kuna sikitiko ? (Alama 2)

Kauli 'kila uchao' kama ilivyotumika katika kifungu ina maana gani ? (Alama 2)

Jifya moja haliinjiki chungu ni fani gani ya lugha ? (Alama 2)

Zifuatazo ni athari za uhalifu ispokuwa _____ (Alama 2)
(mauko, mali kuharibika, uyatima, uchumi kuimarika)

Kwa nini wahalifu wanastahili kuchukuliwa hatua baada ya kupatikana ? (Alama 2)

Mwandishi ametaja njia ngapi za uhalifu ? (Alama 2)

Methali 'jifya moja haliinjiki chungu' imetumika katika makala. Ni methali ipi ni kisawe chake ? (Alama 2).

[illegible]

ZOEZI LA 2

1. Soma mazungumzo yafuatayo kisha ujibu maswali 1 - 4 (ALAMA 45) Mwalimu:

Hamjambo wanafunzi?

Wanafunzi: (Wakisimama) Hatujambo mwalimu.

Mwalimu: (Akitabasamu). Leo nina furaha tele kwa kuwa tutajifunza kuhusu namna ya kutumia kamusi kutambua maana, tahajia, ngeli na aina za maneno.

Cheupe: Asante mwalimu, Baada ya kujifunza, hatutakuwa na shida inayohusu matumizi ya kamusi tena.

Mwalimu: Cheupe umesema ukweli.

Cheusi: Mwalimu. unaposema aina za maneno, una maana gani?**Mwalimu:** Aina za maneno ni makundi mbalimbali ya maneno ya Kiswahili. Mifano ya aina za maneno ni kama vile nomino, vitenzi, vivumishi. vielezi, viwakilishi na viunganishi.

Chapaa: Mwalimu nina hamu kuu ya kujua.Tafadhali tufafanulie.

Mwalimu: Hebu kila mmoja atazame kamusini neno 'mwavuli'. Cheupe tusomee.

Cheupe: (Akisimama) fimbo yenye kitambaa chenye umbo la duara kilichoshikiliwa na njiti za chuma aghalabu zinazoweza kukunjwa na kukunjuliwa na hutumika kujikinga dhidi ya jua au mvua.

Mwalimu: (Mwalimu anaonyesha ubaoni kwa projekta). Ukitazama maelezo yaliyo ubaoni utaona tumeonyeshwa mwendelezo na utamkaji wa neno /mwa'vuli/. Isitoshe neno mwavuli ni -nm' yaani nomino. Aidha , wingi wa mwavuli ni miavuli na hupatikana katika ngeli ya /U - I/.

Somi: Asante mwalimu, nimeelewa barabara.

Mwalimu: Hewala! Hata hivyo, kunayo maneno ambayo hupatikana katika ngeli zaidi ya moja. Mfano ukitazama neno 'Choo' kamusini, utagundua kuwa ni kitenzi na vilevile. nomino.

Cheusi: Asante mwalimu, sasa tunaweza kushirikiana kufanya mazoezi zaidi ili tuimarike.

Mwalimu: (Akitabasamu). Kweli kabisa. (Anaondoka).

(1). Taja neno moja la adabu lililotajwa katika mazungumzo.(Alama 1)

(2). Andika aina moja la maneno lililotajwa na mwalimu. (Alama 1)

(3). Ni nani alisoma maana ya neno kwenye kamusi'?(Alama 1)

(4). Ukitafuta neno kamusini, unapata maelezo mengi. Andika mojawapo ya maelezo ya neno hilo. (Alama 1)

(5). Neno 'Mwavuli' linapatikana katika ngeli ya (Alama 1)

2. Soma kifungu hiki kisha ujibu maswali 6 - 9.

Alasiri moja, askari kanzu walikuwa wakitembea kijijini. Walipokuwa wakipita kando ya kichaka walimwona Kanzola. Alikuwa akivuta bhangi. Alipowaona maafisa wa polisi-alitimua mbio lakini askari walimtia mbaroni. Alifungwa pingu mikononi na kupelekwa katika kituo cha polisi. Katika kituo cha polisi aliwekwa rumande. Siku iliyofuata, alipelekwa mahakamani. Askari waliogopa asitoroke . Kwa hivyo, aliposimama katika kizimba walimfunga pingu.

Kesi iliposikilizwa, Kanzola alihukumiwa kifungo cha miaka saba katika jela. Hakimu alimwambia kuwa alikuwa na nafasi ya kukata rufaa kabla ya wiki mbili kuisha. Kanzola aliangua kilio. Alilia sana. Lakini kilio si dawa. Hakuamini kuwa amekuwa mfungwa. Aliogopa kukaa katika seli za gerezani.

(6). Kanzola alikuwa na kosa gani? (Alama 1)

(7). Ni nani aliyemkamata Kanzola? (Alama 1)

(8). Chagua mpangilio unaofaa mtu akitiwa mbaroni. (Alama 1)

a. Kutiwa mbaroni - rumande - mahakamani - kukata rufaa - gerezani.

b. Gerezani - kukata rufaa - rumande- kutiwa mbaroni.

c. Kutiwa mbaroni - rumande - mahakamani - kutaka rufaa-jela-

(9). Mtu anayehukumu watu mahakamani huitwa? (Alama 1)

3. Soma jedwali ifuatayo kisha ujibu maswali 10 hadi la 12. Familia

ya Ibrahim huwa na ratiba ya chakula kila siku.

Siku	Asubuhi	Mchana	Jioni
Jumatatu	Chai na mkate	Wali na nyama	Ugali
Jumanne	Uji	Wali na kuku	Wali
Jumatano	Chai na mayai	Ugali	Wali
Alhamisi	Ugali	Ugali	Uji
Ijumaa	Uji	Wali na nyama	Ugali

(10). Taja siku mbili familia ya Ibrahim ilikula wali na nyama.(Alama 2).

(11). Ni siku gani walikula aina moja tu ya chakula? (Alama 2)

(12). Ni mara ngapi walikula wali? (Alama 1)

4. Soma Kifungu kifuatacho kisha ujibu maswali 13 hadi la 15.

Maji ni baadhi ya vitu muhimu sana maishani mwa binadamu yeyote hapa duniani. ukweli ni kuwa, maisha hayawezekani bila maji. Chambilecho wahenga maji ni uhai.

Maji humfaa binadamu kwa kunywa. Kila mtu huhitaji kunywa maji ili aendelee kuishi. Wataalamu wa afya hupendekeza binadamu angalabu anywe glasi nne za maji kila siku. Maji husaidia pakubwa katika afya ya binadamu kwa sababu bila, husababisha madhara mengi ukiwemo uhaba wa damu mwilini.

Si hayo tu, Maji hutumiwa kuoga na kufua. Hebu fikiria ulimwengu bila maji? Watu wangukuwa wachafu. Wangenuka kama beberu.

Je, wajua kuwa maji huchangia sana katika kilimo? Je, upo mmea wowote unaweza kukua bila maji? Maji ya mvua, mito, maziwa, Visima na hata bahari hunyunyishwa mashambani. Mbali na hayo, maji hutumika uzalishaji wa nguvu za umeme. Mito mikubwa yenye mianguko mikubwa hutumiwa kuzalisha nguvu za umeme. Aidha maji hutumika katika micheza kama vile kuogelea, mashindano ya uvuvi, mashua na upigaji mbizi. Michezo hii huvutia watalii katika taifa la Kenya. Usisahau kuwa maji hutumika kwa upishi. Mapishi kama kuchemsha na kukaanga.

Usafiri pia njia nyingine ambayo maji huwafaidi binadamu. Meli na vyombo vingine vya majini. Bahari, maziwa na mito mingi hutumiwa kusafirisha vitu na watu. Isitoshe, Maji hutumika katika shuguli za dharura kama vile kuzima moto. Si hayo tu. maji hutumika kupunguza joto katika mitambo.

Mwisho maji hutumika kama dawa. Yapo baadhi ya magonjwa ambayo dawa yake ni maji. Dawa nyingi hutumiwa pamoja na maji.

Ukweli ni kuwa faida za maji ni nyngi sana.

(13). Taja faida tano zilizotajwa katika kifungu hiki. (Alama 5)

(14). Ni shida gani inayoweza kumpata mtu ikiwa hatakunywa maji kwa wingi? (Alama 1)

(15). Kichwa kinachofaa kifungu hiki ni? (Alama 1)

5. **Soma kifungu kifuatacho. Kina nafasi 16 mpaka 20. Chagua jibu sahihi.**

Kijiji 16 (ya, cha)Mambogiza kilikuwa cha ajabu 17 (zaidi ya, zaidi na) mno. Kijijini 18 (penyewe, kwenyewe)hapakuwa na 19 (yoyote, yeyote) ambaye alikwenda shule akafuzu chochote. Vljana 20 (vingi, wengi) waliacha masomo katika madarasa ya chini.

6. **Kutoka swali 21 hadi la 30 chagua jibu sahihi.**

Sema 'kweli au 'la' (alama 2)

i. Kikomo hutumiwa mwisho wa sentensi.

Image not found or type unknown

ii. Alama ya kiulizi hutumiwa kuonyesha mshangao. (alama 1)

7. Shule, dawali, kitabu na mtoto ni mifano ya nomino gani? (Alama 1)

8. Taja aina mbili za fasihi. (alama 2)

9. Nyimbo ambazo mtoto huimba ili alale aache kulia huitwaje?

10. Badilisha sentensi hizi ziwe katika nyakati zilizo kwenye mabano. (alama 2)

i. Wanafunzi walisoma kuhusu utunzaji wa misitu. (Wakati uliopo).

ii. Mwanariadha anashiriki katika mashindano ya riadha . (Wakati ujao)

11. Ambatanisha maagano na majibu yako katika jedwali hili. (alama 4)

Maagano**Majibu****Kwaheri****burianidawa****Buriani****binuru****Alamsiki****ya mafanikio****Ndoto njema****ya kuonana**

12. Tambua vivumishi hivi: (alama 4)

- i. Huyu, yule, hicho, hili, wale.
- ii. Changu, kwao, wetu, vyenu..
- iii. Nzuri, ndefu, kubwa, njema.
- iv. Yeyote, wengine, chenyewe.

13. Beba mizigo _____ (hizi, hii) yote. (alama 1)

14. Mafuta _____ (ambao, ambayo, ambazo) yamenunuliwa ni mazuri.(alama 1)

15. Anayetunga na kuimba mashairi anaitwa _____ (manju, malenga) (alama 1)

16. **INSHA**

Andika insha ya kuendeleza ikianzia hivi:

Siku Hiyo, tulifika shuleni mapema kuliko kawaida.....

ZOEZI LA 3

SEHEMU A: UFUPISHO

Soma kifungu kifuatacho kisha uandike ufupisho wake.

Maji ni muhimu katika Maisha ya binadamu, Wanyama, ndege, Samaki, wadudu n ahata mimea. Ni kweli kuwa maji ni uhai. Maji hupatikana baharini, maziwani, mitoni n ahata visiwani. Matumizi yam aji ni kama vile: kupikia, kuoshea, kunyunyizia mime ana kuwapa mifugo kunywa. Maeneo ya nchi ambayo hayana mito au mvua hayavutii watu wengi kuishi huko. Wenyeji wa sehemu hizo hukabiliwa na ukame.

Milima, misitu na maziwa huwa na vianzo vya mito. Mlima Kenya huwa na chanzo cha mto Tana nayo milima ya Cherangani na milima Elgon ni vyanzo vya mto nzoia. Mito hii ni miongoni mwa mito muhimu katika nchi ya Kenya. Faida ya mito hii ni chungu nzima. Hutupatia maji ya matumizi nyumbani na viwandani, mito mingine hutumika kuzalisha nguvu za umeme na usafiri pia. Maji haya ya mito pia hunywewa na Wanyama na vilevile huvutia watalii. Hivyo basi tunastahili kuyatunza maeneo mbalimbali ya maji.

Tusiharibu misitu kwa kukata miti kiholela. Ikiwa tunakata mti mmoja, tupande miwili au Zaidi. Ni jukumu la kila mmoja kuyalinda mazingira yetu. Tusitupe takataka ovyo ovyo. Mvua inaponyesha huyabeba takataka zilizo tapakaa hadi katika mito. Wajenzi waviwanda wanatahadharishwa dhidi ya kuelekeza majiaka katika mito na maziwa.

Andika ufupisho wa kifungu hiki kuhusu umuhimu wa maji. Zingatia yafuatayo; Maneno yasizidi 60 na iwe katika mpangilio wa kuendelea. Ikiwa aya moja tu.

1. Tumia maneno yako mwenyewe bila kughairi maana ya kifungu chenyewe. (Al.10)

SEHEMU B: KUSOMA UFAHAMU.

Soma taarifa hii kisha ujibu maswali 2 hadi 5.

Ni makosa kuajiri mtoto wa umri mdogo mno na kumfanyisha kazi inayomzidi umri. Licha ya hayo mtoto huyu anachapwa kuliko punda. Isitoshe, anakuwa ndiye wa kwanza kujihimu na wa mwisho kulala.

Anapoamka, atoke nje mvua ikimnyeshea, awashe jiko lenye makaa yaliyolowa maji, awachemshie wenyeji maji ya kuoga, aanze kuosha vyombo, apige deki afue nguo na kufanya

kazi nyingine nyingi. Kumbuka anapofanya msururu wa kazi hizo hajala wala kunywa chochote kama sebeho. Ati lazima wenyeji wamalize kula ndio yeye apewe makombo.

Mtoto huyu asipatikane ame keti kwenye sofa ukumbini! Hilo ni kosa. Anacho kihago au kigoda kilichotengwa rasmi kwake kisan a maana? Asije akawaambukiza Watoto wa wakwasi ndwele zinazotokana na uchafu.

Choo anawaoshea lakini asipatikane akikitumia yeye atumie choo cha nje ati ndicho kinacho mstahili. Usishangae nikikuelezea kuwa malipo yake ni chakula hicho anachokila na malazi anayopewa. Wewew unayefanya unyama kamahuo. Unazidi kuai ati wewe ni binadamu? Watoto wote hata machokora na mayatima wanastahili kuelimishwa kuhusu haki zao.

Elimu bila malipo ipo. Ni heri waende shuleni wakasome, serikali nayo iwachukulie hatua wale wote wanao tesa Watoto.

2. Katika sheria za nchi hii _____

A. si dhambi kumwajiri mtoto mdogo.

B. zinaruhusu mtu kumwajiri mtoto.

D. ajira ya Watoto ni njia ya mapato.

3. Ni neno lipi ni kisawe cha 'rika'

A. wakati

B. umri

C. kaune.

D. mdogo

4. Ni kweli kusema kuwa anayetesa mtoto mdogo

A. *hathamini watu kabisa*

B. huishia kutopata watoto

C. hulazimishwa kufanya hivyo

D. huwa ni mchoyo sana

5. Ni majukumu gani yanayotekelezwa na mtoto kama yanavyoandikwa kwenyw Habari hii.
(Al.3)

a) _____

b) _____

c) _____

SEHEMU C: SARUFI (ALAMA 30)

Soma na ujaze kifunqu kifuatacho. Kina nafasi kwanzia 6 hadi 11, jaza kwa kuchaqua jibu bora kati ya yale uliyopewa.

Ajuza _6_____ alishika njia na kuelekea mjini. Mji _7_____ ulikuwa na majumba _8_____ ajabu. Watu waliendesha magari _9_____ kwa mwendo wa kasi. Barabara _10_____ zilinyooka twa! Mama _11_____ mkongwe alihitaji usaidizi.

EXERCISE 3

QUESTIONS.

1. The game of handball involves passing between teammates. State any three types of passes used in handball. **(3mks)**

2. Give three reasons for passing in the game of handball. **(3mks)**

pg. 1

3. State three importance of performing arts in the society. **(3mks)**

4. Name the three elements of music. **(3mks)**

5. Write the French rhythm that represents he following. **(4mks)**

a.)

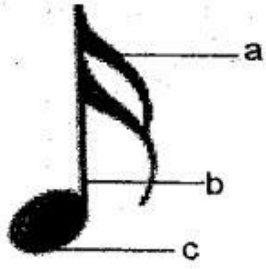

b.)

6. State three materials likely to be used when weaving a handball net. **(3mks)**

7. What is a jump shot? (2mks)

8. Name two resources used in presentation of the work of arts. (2mks)

9. Name the following parts of a semi quaver. (3mks)

- a.) _____
- b.) _____
- c.) _____

10. Give three values observed when conducting fitness assessment test for flexibility, balance and coordination. **(3mks)**

11. Write down five techniques used in storytelling. **(5mks)**

12. Use the diagram below to answer the questions that follow.

a.) Juma passed a high pass to his friend and saw him use the skill above to receive the ball. Identify the skill shown above. **(2mks)**

b.) Give two importance of the skill shown above. **(2mks)**

c.) Name three body parts that can be used to do the skills above. **(3mks)**

d.) Write down three activities that can be done after using the skill above. **(3mks)**

13. Write down any two folk song performing techniques. **(2mks)**

14. Name two techniques to use when making a beaded-jewelry inspired by patriotism for Kenya.**(2mks)**

15. Identify any two water entry skills. **(2mks)**

AGRICULTURE AND

NUTRITION

EXERCISE 1

1. What is soil pollution? (1mk)

2. State any four control measures you will use to educate farmers on pollution of soil. (4mks)

3. What is an awareness message? (1mk)

4. State three ways plastics can be prevented from polluting soil and agricultural environment. (3mks)

5. State three reasons you will use to encourage your community members to conserve surface run off after heavy rains. (3mks)

6. Conserving surface run off prevents damages to many things. Write down any three damages caused by surface run off. (3mks)

7. The picture below shows a method used in conservation of surface run off.

- a.) Name the structure shown. (1mk)

- b.) Name one crop planted in the structures above. (1mk)

- c.) Identify two other structures used to conserve surface run off. (2mk)

8. Identify the practices to avoid when preparing vegetables during: (4mks) a.)

Washing _____

b.) Peeling. _____

c.) Cutting _____

d.) Cooking time. _____

9. State three roles of trees in soil and water conservation. (3mks)

10. List down three activities that makes up agroforestry (3mks)

11. Soil tilth is described in three ways. Name them (3mks)

12. State three physical methods of controlling weeds in the farm. (3mks)

13. Give the difference between thinning and gapping. (2mks)

14. Mention two types of agrochemicals that are soil contaminants. (2mks)

15. State four nursery management practices done in a tree nursey. (4mks)

16. State two ways of caring and managing trees (2mks)

17. Learners in Horizon school were asked to list down cooking methods. Identify three methods they listed. (3mks)

18. Name three tools used during the construction of a water retention ditch. (3mks)

19. The county government has selected your school to create an awareness message to use on agricultural day. State two methods you will use to ensure the message reach the farmers during the day. (2mks)

EXERCISE 2

1. Grade seven learners were asked to state the meaning of the term soil pollutants. Write the response that they gave. (1 mk)

.....

.....

2. State five examples of soil pollutants. (5 mks)

.....

.....

.....

.....

.....

3. A grade 7 Agriculture and Nutrition teacher asked his learners to list five ways of controlling soil pollution. List the answers they gave. (5 mks)

.....

.....

.....

.....

4. During an agriculture project grade 7 learners were asked to prepare posters to create awareness on prevention of soil pollution in farming. Which other method would they have used to create awareness on prevention of soil pollution to the school community? (3 mks)

.....

.....

.....

.....

5. Mrs. mwendo asked her learners to state the meaning of surface runoff. Give the answer that they gave. (2 mks)

.....

.....

.....

6. State three damages caused by surface runoff. (3 mks)

.....
.....
.....
.....

7. List three ways that surface runoff can be conserved for use in farming practices. (3 mks)

.....
.....
.....
.....

8. Grade 7 learners constructed the feature shown below to conserve surface runoff for use in farming practices in their school farm.

.....
.....

i. Identify the surface runoff conservation methods they constructed. (1 mk)

.....

.....

.....

ii. Write three importance of conserving water in the structure shown above. (3 mks)

.....

.....

.....

9. During an experiment and nutrition lesson, learners were asked to state the ways of conserving vitamins and mineral salts in vegetables during food handling, preparation and cooking. List the answers they gave. (5 mks)

.....

.....

.....

.....

.....

.....

.....

10. Give the importance of the following practices done on a tree nursery in the farm. (6 mks)

a. Thinning

.....

.....

.....

b. Shading

.....

.....

.....

c. Uprooting weeds

.....
.....
.....

11. State the meaning of the following terms as used in tree establishment in the farm. (4 mks)

a. Afforestation

.....
.....
.....

b. Reforestation

.....
.....
.....

12. Mr. Otieno asked grade 7 learners to state the importance of trees in soil and water conservation in the farm. What answers did they give? (4 mks)

.....
.....
.....
.....
.....
.....

13. Give the meaning of soil tilth. (2 mks)

.....
.....
.....

14. Grade 7 learners were asked to identify the appropriate soil tilth for planting the following planting materials. What are the responses that they gave? (3 mks)

a. Millet seeds

.....
.....
.....

b. Maize seeds

.....
.....
.....

c. Cassava cuttings

.....
.....
.....

c. Cassava cuttings- coarse soil tilth

EXERCISE 3

1. State two importance of processing honey.

(2mks)

2. Give a safety precaution to observe when using each of the following when knitting. (2mks)

a.) Scissors.

b.) Yarn

3. Grade seven learners from Lodwar junior secondary school were discussing about ways vegetables can lose nutrients during washing. State three ways washing can lead to loss of nutrients in vegetable.

(3mks)

4. The diagram below shows a certain equipment used for cooking food.

a.) Name the cooking method in which the equipment above is used.

(1mk)

b.) Name the cooking equipment in the picture above.

(1mk)

c.) State the feature on the equipment that makes it cooking food efficiently.

(1mk)

d.) Give one example of food that is suitable for cooking using the equipment above.

(1mk)

5. Pollutants are harmful substances that pollutes the soil. Give another name used to refer to pollutants. _____ **(2mks)**

6. Give the name used to refer to the type of knitting stitch that resembles a raised bump.
(1mks)

7. Give four hygiene practices done in rearing of domestic animals. **(4mks)**

8. How does the following factors affect the choice of a cooking method.

a.) Type of food to cooked. **(2mks)**

b.) Equipment available **(2mks)**

9. Hardening is done by heaping harvested produce under a shade then covering with dry grass for four days. What is the other name of hardening. _____ **(2mks)**

10. State four items one is required to have when harvesting honey. **(4mks)**

11. Give four factors to consider when sorting and grading eggs. **(4mks)**

12. Ouma wants to celebrate his birthday next week. Give four tools and equipment that will be used during the celebrations to grill chicken and roasting meat. **(4mks)**

13. Jillian has just finished laundering her loose coloured clothes. State two measures she should observe when airing the cloths on the cloth line to prevent fading and transfer of colour. **(2mks)**

14. State four locally available materials one can use when preparing hanging gardens. **(4mks)**

15. Differentiate between hard and soft water. **(4mks)**

16. Pruning is one way of taking care of tree by removing extra or unwanted branches. Give three reasons why extra or unwanted branches may be pruned when taking care of tree. **(3mks)**

17. Give the solution to the following causes of soil pollution in the farm. **(3mks)**

a.) Industrial wastes.

b.) Chemical containers

c.) Excessive agrochemicals.

THIS IS THE LAST PRINTED PAGE.

EXERCISE 2

1. Identify four guidelines that helps in setting up a goal in decision making. (4mks)

2. List down four careers you may pursue when you study social studies. (4mks)

3. List down three ways you can manage stress. (3mks)

4. Identify three factors that led to development of the Indian slave trade. (2mks)

5. Define the term gender. (2mks)

6. Name four continents of the world. (4mks)

7. Give three examples of desirable personal attributes one should have in the society. (3mks)

8. The time in Accra Ghana is 10.00 a.m. what will be the time in Mogadishu 50° E? (4mks)

On the map of Africa below, clearly locate the following. (5mks)

- a. the equator.
- b. Prime meridian.
- c. Tropical of Capricorn.
- d. Tropical of cancer
- e. Mediterranean Sea.

9. Define the following. (3mks) a.)

Cartography _____

b.) Geology _____

c.) Archaeology- _____

10. What is gender stereotype? (2mks)

11. Identify the ancient civilisations that led to the following modern technology. (2mks) a.)

Calendars – _____

b.) Modern irrigation techniques-_____

12. List two examples of goods exchanged during the Indian ocean Slave trade. (2mks)

13.Name three roles of men among the Ogiek community. (3mks) 13.

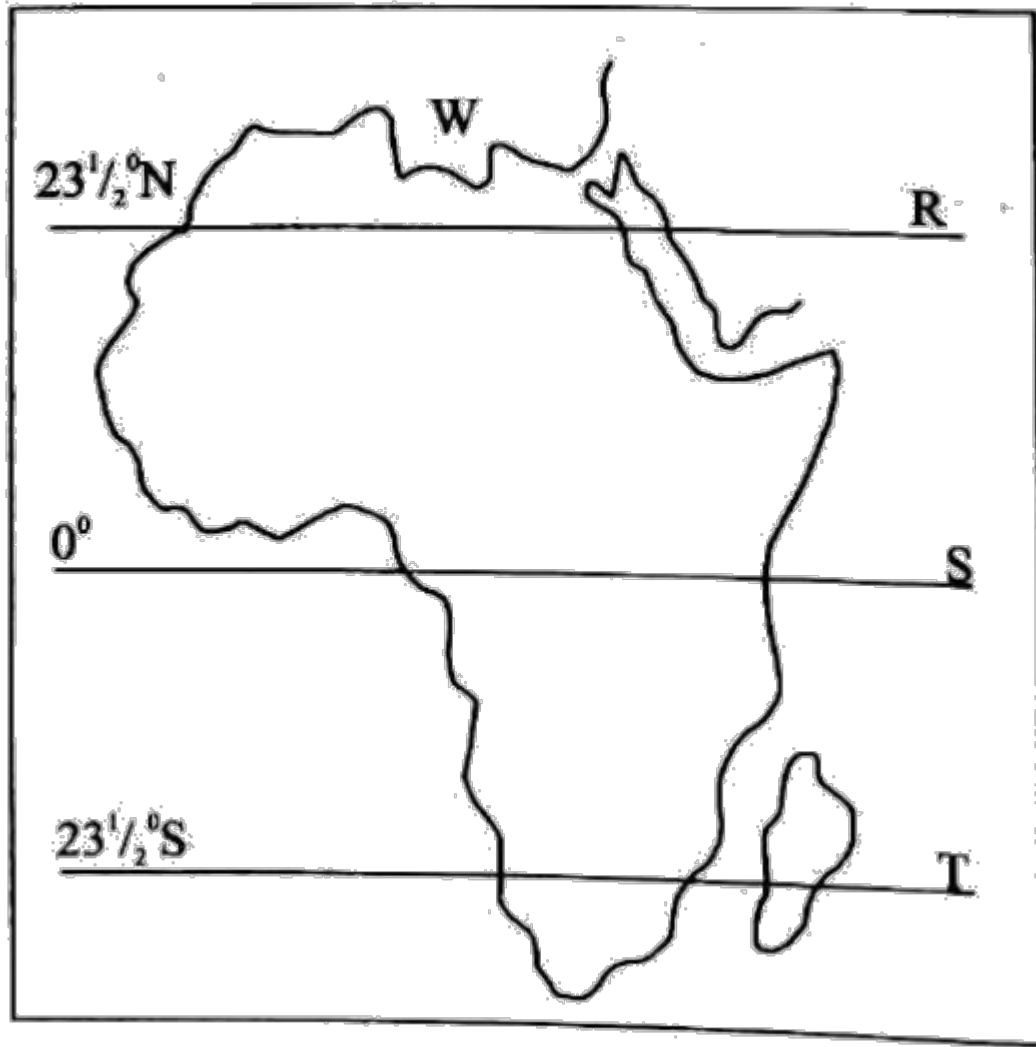

14. Give three examples of desirable personal attributes one should have in the society. (3mks)

15. What is self-exploration? (2mks)

16. State two branches of social studies. (2mks)

EXERCISE 2

1. Peter, a grade 7 learner was asked by his Social Studies teacher to define the following terms as used in Social Studies. Write the correct response he gave.
 - a. Career (1 mk)
 - b. Entrepreneurship (1 mk)
 - c. Stereotypes (1 mk)
2. Identify four ways of working the issue of gender stereotypes in career and entrepreneurship opportunities. (4 mks)
3. Grade 7 learners were asked to model the solar system. Name any three materials they were supposed to bring for the modelling. (3 mks)
4. Use the map of Africa to answer questions 4 - 6

- (4). Name the line of latitude marked S (1 mk)
 - (5). Name three countries that are crossed by the line of latitude marked T. (3 mks)
 - (6). The water mass marked W is called. (1 mk)
5. Write the country where each of the following historical sites is found. (4 mks)
- a. Olduvai Gorge
 - b. Omo River Valley
 - c. Valley of Kings
 - d. Koobi Fora
6. Grade 7 learners were asked to bring materials for constructing a wind vane. Identify any three materials they brought. (3 mks)
7. Outline three factors to consider when setting a weather station. (3 mks)

8. Grade 7 learners modeled the solar system and were asked to name any three planets of the solar system. Which response did they give? (3 mks)
9. Name three types of maps used in Social Studies. (3 mks)
10. List two theories that explain the origin of the earth. (2 mks)
11. Name two effects of the revolution of the earth. (2 mks)
12. Grade 7 learners were asked to search for three islands countries in Africa from their Atlas. Which was the correct response? (3 mks)
13. Name two primary sources of historical information. (2 mks)
14. Describe the social organization of ogiek. (4 mks)
15. Outline three effects of stress in our day to day lives. (3 mks)
16. List three examples of positive emotions. (3 mks)

EXERCISE 3

1. The science that involves the practice of drawing of maps is known as **(1mks)**

2. Name four personal characteristics that expresses a state of peace. **(4mks)**

3. Define the following terms.

a.) Human diversity **(2mks)**

b.) Conflict **(2mks)**

4. Identify the following according to the Agikuyu community.

a.) Supreme being among the Agikuyu _____ **(1mk)**

b.) Name of the first Man and woman _____ and _____ **(2mks)**

5. A scientists who studies and predicts weather on daily basis is called **(1mks)**

6. Name four factors that led to development of the Indian ocean trade. **(4mks)**

7. Write four ways in which data can be collected **(4mks)**

8. Explain the following methods of recording data.

a.) Mapping

(2mks)

b.) Taking photographs.

(2mks)

c.) Tape recording.

(2mks)

9. While in a field study you recorded the following data on the number of people tested and those affected by a certain disease as shown below. Use the data to answer the questions that follow.

County	Number of people tested	Number of people infected
A	14	10
B	56	35
C	79	39
D	28	23
E	52	34
F	72	45
G	45	28
H	54	23

Using the number of people tested determine the:

a.) Mean average.

(2mks)

b.) Median.

(2mks)

c.) Mode. (2mks)

d.) Range. (2mks)

e.) Give two ways you can use to present the data above. (2mks)

10. Political structure of the Zulu was structured like a pyramid. At the base, there were individual households called _____. The family was the basic political unit in the community. Each Umuzi was under the control of the _____ the household head and was also responsible for _____ (3mks)

11. Use the picture below to answer the questions that follow.

a.) Identify the item above. (2mks)

b.) From which community was the item above used. (2mks)

c.) What was the role of the item above among the community. (2mks)

12. Differentiate the following.

a.) Scramble for Africa. (2mks)

b.) Partition of Africa. (2mks)

13. The following European groups came to Africa. State the role each played **(4mks)**

a.) Explorers.

b.) Missionaries.

c.) Traders.

d.) Colonizers

THIS IS THE LAST PRINTED PAGE.

CRE

EXERCISE 1

1. State five moral values from studying C.R.E

2. State four ways human beings misuse natural resources. (4mks)

3. State five attributes of God from the creation story (5mks)

4. State two ways the first creation account is similar to the second creation account. (2mks)

5. Identify five ways Christians protect and care for animals (5mks)

6.Fill the table below with the correct required details. (4mks)

Activity/Gods creations	Day of creation
The sky	
Sun, moon and stars	
God rested	
	First day

7.State five natural resources (5mks)

8. List down five different ways African used to promote care and conservation of all types of plants.(5mks)

9. The Bible is a very important book today. State four occasions when it is used (4mks)

10. State four effects of misusing natural resources (4mks)

11. Man was commanded by God to use everything in the garden except (2mks)

12. What does the following mean according to the nature of God? (3mks) God is

a) Omnipresent_____

b.) God is omnipotent _____

c.) God is the sole creator _____

13. The creation took place in _____ day and on the seventh day God
(2mks)

EXERCISE 2

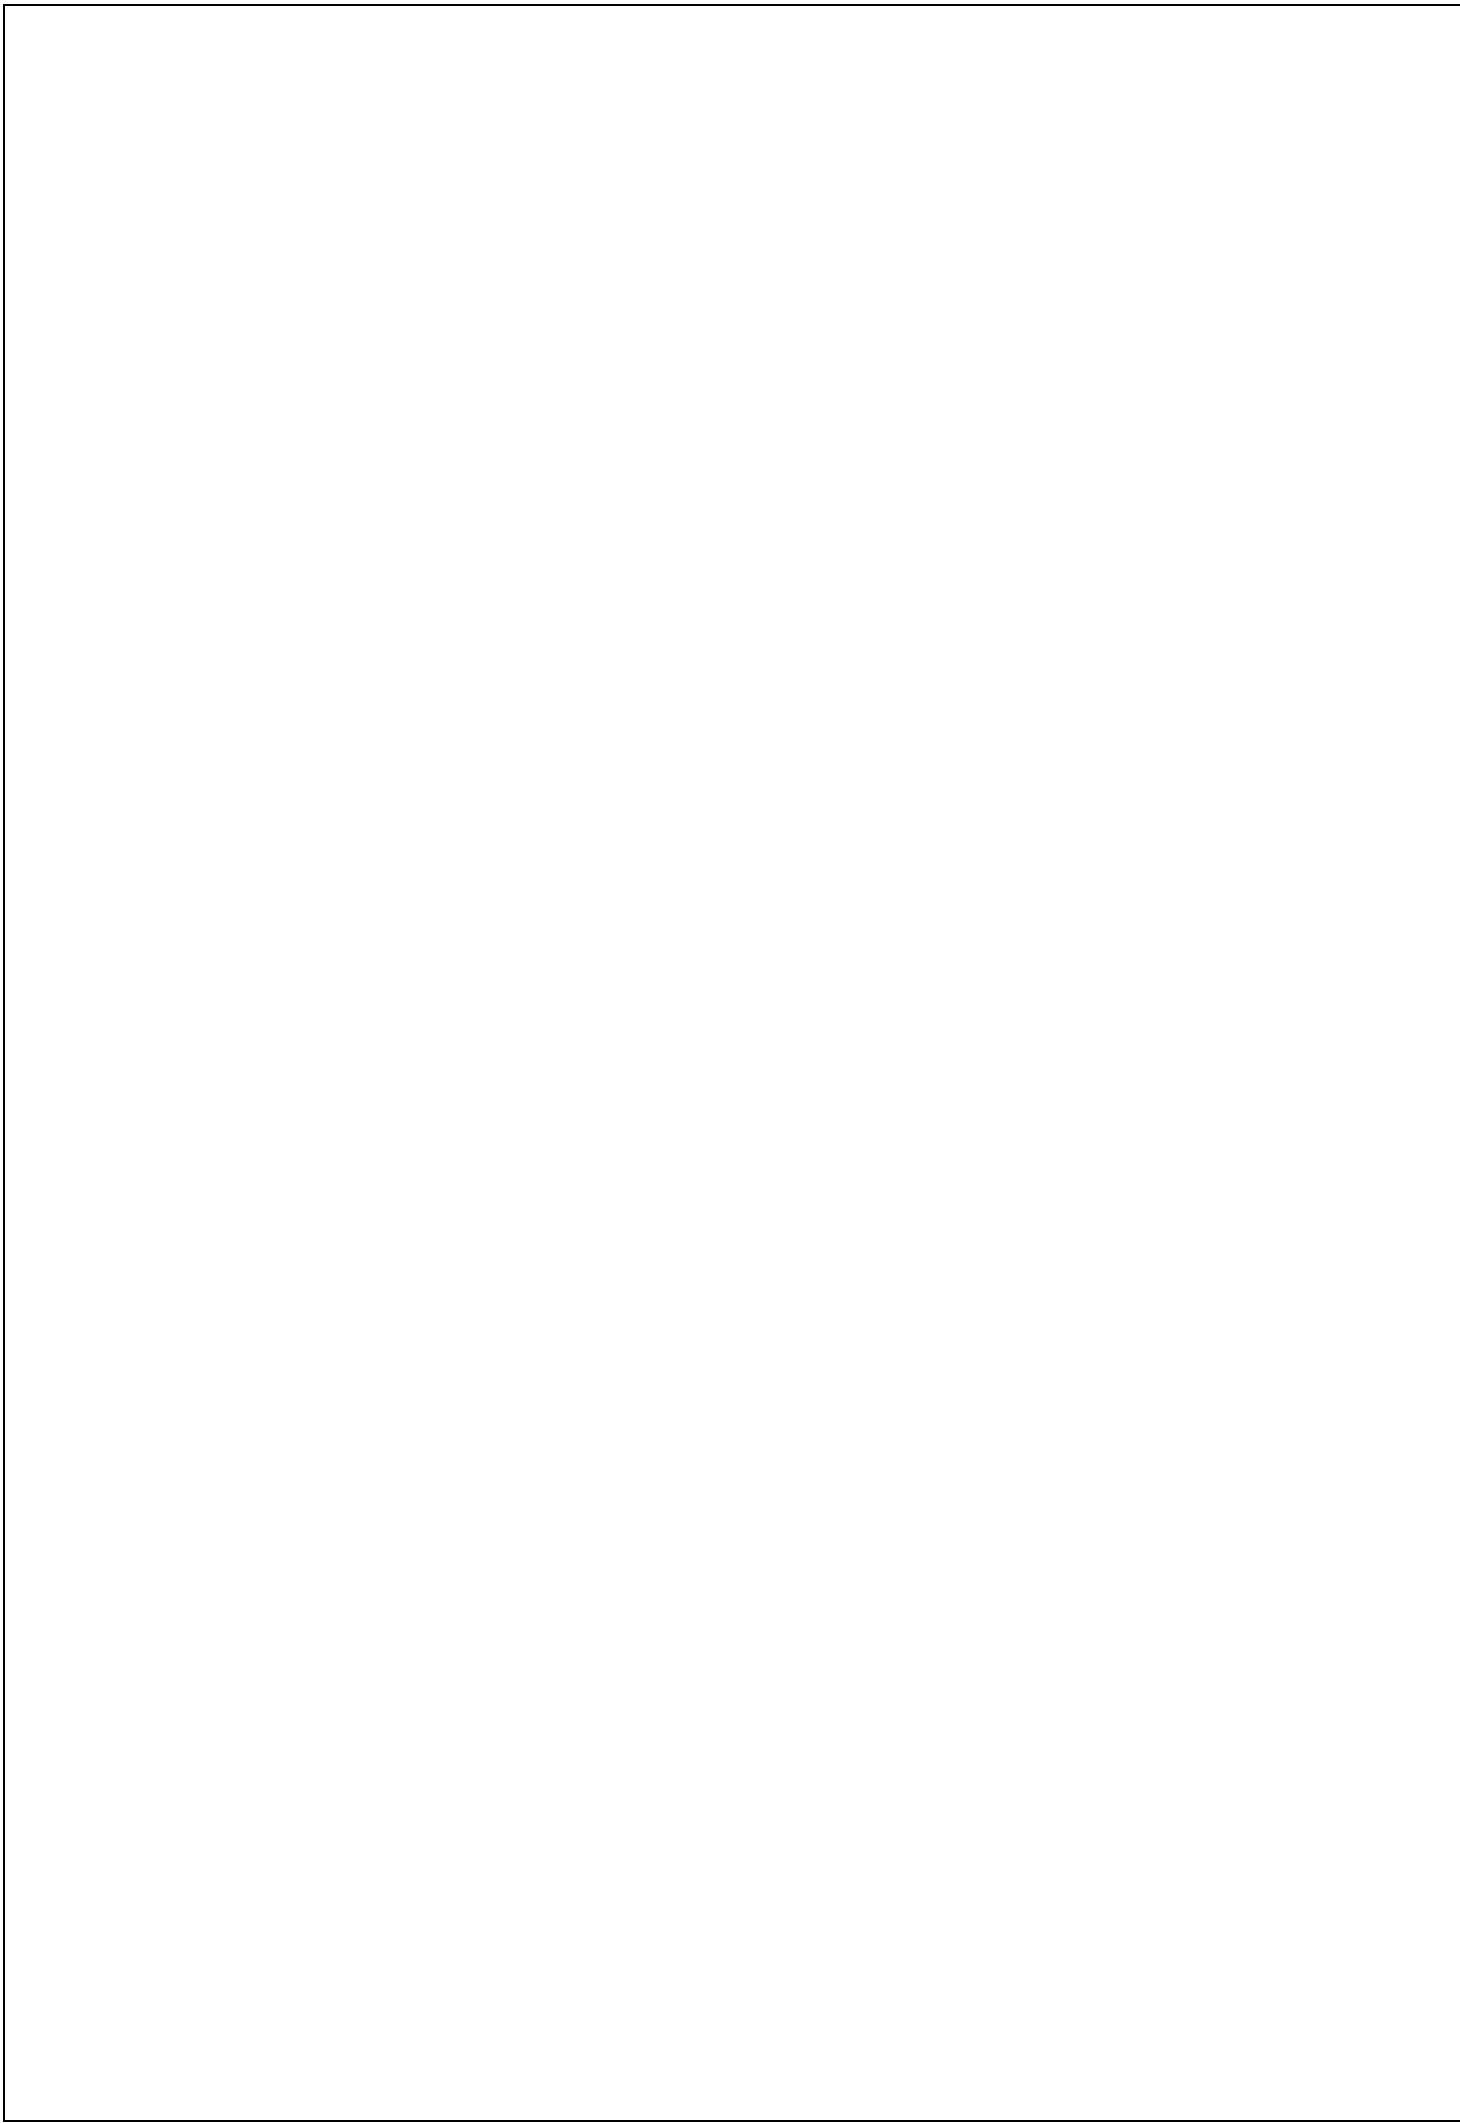

1. During a group discussion, grade seven learners discussed about misuse of natural resources. Identify two ways how people misuse natural resources in your community. (2 mks)
2. Junior teacher put you in small groups to discuss attributes of God from the Biblical accounts of creation. Write three attributes of God. (3 mks)
3. Grade seven learners were given an assignment to classify the books of the Old Testament. List three books that are classified under poetic books. (3 mks)
4. Grade seven learners were asked to discuss the benefits of wild animals as part of God's creation. Write any three points that they presented to class. (3 mks)
5. A leader is a person who inspires other people to follow him or her. Identify three leadership qualities that you learn from Moses. (3 mks)
6. Your class is planning to start a project in the school of caring for plants. List three activities that you would do to care for plants. (3 mks)
7. Your C.R.E teacher has asked you to name events that took place during the annunciation and the birth of Jesus Christ. Write any three events that you told the class. (3 mks)
8. During a C.R.E lesson, grade seven learners prepared flashcards with the values which Christians learn from the birth of Jesus Christ. List any three values that they wrote on the flashcards. (3 mks)
9. Give two reasons why the woman was created in the second account of creation. (2 mks)
10. Jesus Christ was taken to the temple for dedication (Luke 2:22-38). Identify two people who were in the Temple during the dedication of Jesus. (2 mks)
11. Write two ways in which christians can apply the message of john the Baptist in their lives today. (2 mks)
12. A grade seven learner wrote down the prophecies about the coming of Jesus Christ. Write three prophet Isaiah's prophecies about Jesus Christ. (3 mks)
13. Identify two differences between the first and second accounts of creation. (2 mks)

14. Christians in Kenya use different versions of the Bible. Write any three versions that are used in Kenya. (3 mks)
15. Write four classification of the books of the New Testament. (4 mks)
16. Your C.R.E teacher told your class to search for information on the function of the Bible. Write two importance of the Bible in the society today. (2 mks)
17. Grade seven learners visited a library to research on the contribution of plants to economic growth. List two points that you presented to others in class. (2 mks)
18. Write three importance of learning Christian Religious Education. (3 mks)
19. Your school has been invited to take part in national tree planting day. List three importance of trees. (1 mk)
20. Write any two books written by Paul to believers. (2 mks)

ANSWERS

1.
 - Watering plants during dry season.
 - Not cutting them down.
 - protecting them from animals.
2.
 - Angel Gabriel appeared to Mary.
 - The shepherds visited baby Jesus
 - Mary and Joseph travelled to Bethlehem.
3.
 - Respect
 - Honesty
 - Responsibility
4.
 - To be a companion to man.
 - To get children
5.
 - Simeon
 - Anna
6.
 - Sharing what they have with others.
 - Being honest with what they do.
7.
 - Jesus' kingdom would last forever.
 - Jesus would be our eternal father.
 - Jesus would rule people wisely.
 - His kingdom would always be at peace.
8.
 - The first account ends with man and the second account begins with man.
 - The first account has stages. the second account has no stages.
9.
 - Good news Bible
 - Revised Standard Version.
 - Gideon international bible.
10.
 - Gospels
 - Historical book

- Epistles letters
- Prophetic book
- 11. ○ It is used in learning institutions.
- Used during worship.
- 12. ○ Some plants are used as a source of food.
- Some plants earns the country foreign exchange.
- 13. ○ It guides us to behave well.
- It prepares us for future careers.
- it teaches us important values.
- 14. ○ Conserves the environment
- Prevents soil erosion
- Used in construction
- 15. ○ Romans
- Ephesians

EXERCISE 3

1. Give three importance of studying Christian Religious Education. **(3mks)**

2. Name four attributes of God from the creation story. **(4mks)**

3. List down four ways we can protect and care for animals, fish and birds. **(4mks)**

4. Give the four natural resources. **(4mks)**

5. How do people misuse resources. **(4mks)**

6. Name the two divisions of the bible. **(2mks)**

7. List down the gospel books. **(4mks)**

8. Which qualities of a good leader can a Christian emulate from Moses.

(5mks)

THE LAST PRINTED PAGE.

EXERCISE 1

QUESTIONS.

1. Identify four careers related to the knowledge and skills gained from studying integrated science(4mks)

2. State five science fields that have benefited from integrated science. (5mks)

3. Grade 7 learners were discussing about common accidents in the laboratory and their effects. List down four effects of common accidents that results in the laboratory. (4mks)

4. Give the meaning of the following terms. (2mks)

a.) Casualty _____

b.) First aid _____

5. Most apparatus in the laboratory are made of glass. Give two reasons why. (2mks)

6. While in the laboratory you notice an accident has happened. State the first action you will take.(1mk)

7. Learners of Brook kids school carried out the following activities during their research. (4mks)

	Activity	Basic science skill used.
a	Sort laboratory equipment into measuring and weighing.	
b	Drawing a graph from data in the research	
c	Using a hand lens	
d	Cleaning the laboratory	

8. The table below shows basic quantities. Fill in the correct SI units. (5mks)

	BASIC QUANTITY	SI UNIT
a.	Mass	
b.	Length	
c.	Time	
d.	Temperature	
e.	Electric current	

9. Name the derived quantity calculated from the following basic quantities. (3mks)

a.) Mass and Length _____

b.) Length x length _____

c.) Length x length x length _____

10. Name the dangers posed by substances with the following hazard symbol. (3mks)

a.

b.

c.

11. Name three apparatus used to measure volume of liquids. (3mks)

12. Grade 7 learners wanted to find out the details found in a packaging label. State three details they are likely to find. (3mks)

13.
a. Differentiate between a heterogeneous mixture and a homogenous mixture. (2mks)

b.) Give one example of: (2mks)

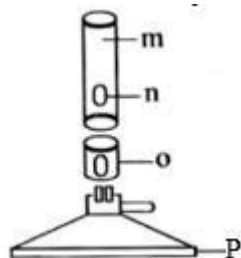

- i. Heterogeneous mixture _____
- ii. Homogenous mixture _____

14. When a solid dissolves in a liquid, the liquid is called a _____ while the solid is known as a _____ (2mks)

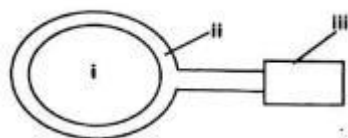

15. Name five items that are found in the first aid kit. (5mks)

EXERCISE 2

1. The apparatus shown below is used for heating purposes in the laboratory.

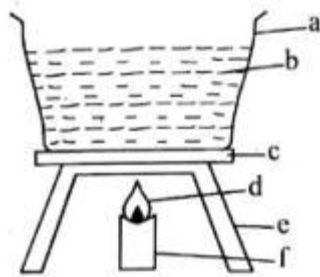

- a. Identify the apparatus. (1mk)
 - b. Name the parts marked M, N, O and P (4mks)
2. a. What is temperature? (1 mk)
- b. What is the SI unit for temperature? (1mk)
- c. A hot liquid was found to be 70.5°C . What is the temperature of this liquid in SI Units? (1 mk)
3. List any three activities that can be carried out in a laboratory. (3mks)
4. Laboratory apparatus are expensive. State three care practises for laboratory apparatus and equipment. (3m ks)
5. Why is alcohol thermometer more preferred for use than mercury thermometer'? (2 mks)
6. Study the laboratory apparatus shown below.

- a. Identify the apparatus. (1 mk)
 - b. Name the parts marked i, ii, iii (3 mks)
7. Explain the following basic scientific skills. (3 mks)
- a. Observation
 - b. Classification
 - c. c. Prediction

8. The diagram below shows a set-up to demonstrate heating of water in laboratory.

Name the parts marked a-f (6 mks)

9. a. What is a mixture? (1 mk) b.

Give an example of

i. Homogenous mixture (1mk)

ii. Heterogenous mixture (1mk)

10. Name three metals that can be attracted by a magnet. (3 mks)

11. a. List four laboratory accidents. (4 mks)

b. List four causes of accidents in a laboratory. (4 mks)

12. a. List any four household solutions that are basic (bases) (3 mks)

b. State two use of bases in real life. (2 mks)

13. To integrate means to bring together or combine parts of something into a whole.

Integrated Science has several components that make it up. Name and define three components of Integrated Science. (3 mks)

14. Grade 7 learners in Bidii School were learning the importance of integrated Science in our daily lives. Mention three points they were likely to have learnt. (3 mks)

15. Laboratory safety is very important and should be given a priority so that learners are safe when carrying out experiments. List two ways through which we can ensure this is observed. (2 mks)

16. Grade 7 learners in jamii school observed a chart that had common hazard symbols and their meaning. Give the meaning of the following symbols that they observed. (3 mks)

a.

b.

c.

17. During an experiment in the laboratory, James was cut by some broken glass apparatus which resulted to bleeding. Outline the first aid procedure that was administered to him by the school first aider. (4 mks)
18. To ensure learners' safety in the laboratory, the Grade 7 teacher of Integrated Science in Joy school taught them safety measures and regulations in the laboratory. Mention any three measures he taught them. (3 mks)
19. Grade 7 learners in Step Junior school set up an experiment on filtration as a method of separating mixtures. Outline three Basic Scientific skills that they used as they carried out the experiment. (3 mks)
20. Identify the apparatus drawn below that are used for measuring volume in a science laboratory. (3 mks) a.

b.

c.

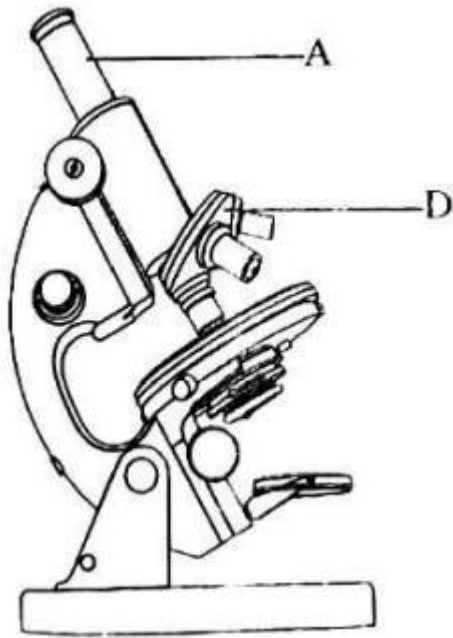

21. Scientists developed a standard system of measurement called the international system of units (S.I) so as to standardise measurements in science. State the S.I units for Basic quantities in the table below. (5 mks)
22. Below are some activities that happen in real life and require basic skills in science. Identify the skill used in each of the activities. (3 mks)
- b. Meteorologists studying weather patterns to forecast weather then advised farmers when to plant
 - c. A Grade 7 learner assembles apparatus and successfully carries out an experiment
 - d. A doctor looks at a sick boy and suggests that she be taken to the laboratory for testing.
23. The circulatory system is an important system in our bodies since it helps in transportation of materials in the body. Name three parts that make up the circulatory system. (3 mks)
24. Define the following terms. (3 mks)
- a. Mixture
 - b. Homogenous mixture
 - c. Heterogenous mixture

25. State whether the mixture below is either homogenous or heterogenous. (3 mks)

Mixture	Homogenous or Heterogenous
Salty water	
Salt and sand	
Water and kerosene	

26. Jane mixed sand and water accidentally. Mention one method she could have used to separate the two. (1 mk)

27. One of the apparatus used for magnifying in a laboratory is the light microscope which is below. Name and give the functions of the parts below. (2 mks)

EXERCISE 3

1. Identify any four sources of electricity in Kenya.

(4mks)

2. Name the waste products excreted through the following body parts.

a.) Skin

(2mks)

b.) Lungs

(1mk)

c.) Kidney. (2mks)

3. Indicate if the following will either form homogenous or heterogeneous mixtures.

(4mks)

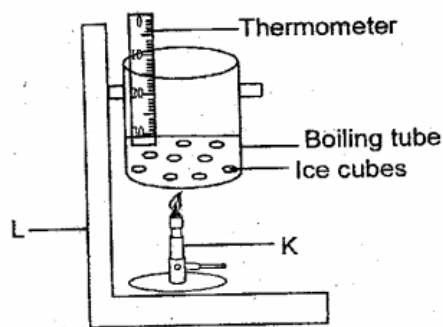

a.) Salt and water _____

b.) Cooking oil and water _____

c.) Sand and water _____

d.) Milk and water _____

4. Learners in Juja junior secondary school wanted to determine if ice is either pure or impure.

a.) Name the apparatus labelled **L** and **K** in the apparatus they used above.

(2mks)

L _____

K _____

b.) Why was the thermometer used in the experiment above?

(2mks)

c.) After heating for some time, all the ice turned into water. Name the process involved. **(1mk)**

5. The abbreviation **SI** units stands for? **(2mks)**

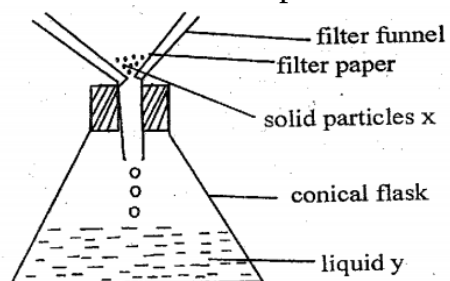

6. Write down any four common accidents in the laboratory. **(4mks)**

7. A learner notices that a blue litmus papers changes to red colour and a red litmus paper remains red in colour when both are inserted in a cut orange.

a.) What does this suggest about the orange. **(2mks)**

b.) Name two basic science skills the learner uses to get the answer in (a) above. **(2mks)**

8. The figure below shows a method used in separation of mixtures. Use it to answer the questions that follow.

a.) Identify the method shown above. **(1mk)**

b.) Liquid **y** passes through the filter paper into the conical flask as shown above. Liquid **y** is known as _____ (1mk)

c.) The solid trapped in the filter paper is known as _____ (1mk)

d.) Give a reason why it is possible to use the method above to separate solid particles **x** and liquid **y** in the set up above. (2mks)

e.) What is the role of the conical flask in the set up above. (2mks)

f.) Give one example of a mixture that can be separated using the method shown above. (1mk)

9. Grade 7 integrated science teacher gave out a red litmus paper to Japheth and a blue litmus paper to Camila. The teacher then asked the two to dip the litmus papers in a neutral solution provided. In the table below indicate the results each learner observed. (2mks)

Learner	Results they observed
Japheth	
Camila	

10. Learners in grade 7 from Malaba junior secondary school were given the following quantities to discuss and find their SI units and Symbol. Complete the table below to indicate what they discussed. (6mks)

Quantity	SI unit	Symbol
Mass		
Electric current		
Temperature.		

11. Grade seven classroom measures 1000cm by 750cm. Calculate its area in SI units. (2mks)

12. Grade 7 learners observed the school laboratory technician preparing some chemical before their experiment to be done. Write down any two protective items the lab technician could be wearing during the exercise. (2mks)

13. Identify the parts where the following processes occur. (2mks)

a.) Fertilization _____

b.) Implantation _____

THIS IS THE LAST PRINTED PAGE.

PRETECHNICAL

EXERCISE 1

Instructions to Learners.

Answer all the Questions in the spaces provided after each question.

QUESTIONS.

1. Name the computer parts labelled A-H.

(8 mks)

Part A _____

Part B _____

Part C _____

Part F _____

Part D _____

Part G _____

Part E _____

2. Define the term hazard.

(2mks)

3. a.) State four ways of observing safety in a work environment

(4mks)

b.) What is a safety gear?

(2mks)

4. State four safety wear you will advise motorbike boda-bodas to use in their daily work (4mks)

5. Identify the following safety items. (4mks)

6. State four online threats at a work environment. (4mks)

7. Identify the following artistic drawings described below (3mks)

a.)	Drawn in public places such as walls using spray paints	
b.)	A drawing or painting in which features have been exaggerated to mock or satirize a subject	
c.)	A drawn pictures in which the face is dominant
